## **Party Finance And Political Corruption:**

**Party Finance and Political Corruption** R. Williams, 2000-08-10 This book offers an in depth examination of party finance and political corruption in a variety of political contexts Its central focus is on the relationship between different forms of raising party finance and the consequent implications for improper influence over policy making and implementations It presents both a general discussion of the issues and a set of case studies which illuminate the particular experiences of Britain the United States Russia Italy Germany and Southeast Asia      **Political Finance and Corruption in Eastern Europe** Jurij Toplak, Mr Daniel Smilov, 2013-03-28 One characteristic of Central and Eastern European democracies in transition is the lack of stability in terms of accountability and transparency in practices of political party financing This key volume provides a thorough and well structured post communist study of political finance election campaign and party funding issues within this region focusing specifically on Central and Eastern European countries It outlines best practices for political party and election campaign financing discusses the shortcomings of political funding schemes and highlights the scandals that emerge under investigation Providing an illuminating analysis of how current regulations of political finance succeed in controlling the rise of political corruption the volume will be indispensable for anyone interested in the efficiency of regulation in party funding      Political Corruption Michael Johnston, 2017-07-12 Corruption is once again high on the international policy agenda as a result of globalization the spread of democracy and major scandals and reform initiatives But the concept itself has been a focus for social scientists for many years and new findings and data take on richer meanings when viewed in the context of long term developments and enduring conceptual debates This compendium a much enriched version of a work that has been a standard reference in the field since 1970 offers concepts cases and fresh evidence for comparative analysis Building on a nucleus of classic studies laying out the nature and development of the concept of corruption the book also incorporates recent work on economic cultural and linguistic dimensions of the problem as well as critical analyses of several approaches to reform While many authors are political scientists work by historians economists and sociologists are strongly represented Two thirds of the nearly fifty articles are based either on studies especially written or translated for this volume or on selected journal literature published in the 1990s The tendency to treat corruption as merely a synonym for bribery is illuminated by analyses of the diverse terminology and linguistic techniques that help distinguish corruption problems in the major languages Recent attempts to measure corruption and to analyze its causes and effects quantitatively are also critically examined New contributions emphasize especially corruption phenomena in Asia and Africa contrasts among region and regime types comparing U S state corruption incidence European Party finance and corruption assessments of international corruption rating project analyses of international corruption control treaties unintended consequences of anti corruption efforts Cumulatively the book combines description richness analytical thrust conceptual awareness and contextual articulation      Political party finance Committee on Standards in Public

Life,2011-11-22 The Committee on Standards in Public Life spent a year looking at party political finance The majority report believes that the only safe way to remove big money from party funding is to put a cap on donations from all sources individuals and organisations of 10 000 in any one year Trade union affiliation fees could be regarded as a collection of individual donations providing the members individually opt in to the fee The cap would have a significant impact on the income of the major parties and would inevitably require a compensating increase in support for parties from public funds The public funding should depend on the number of votes secured in the previous election at the rate of 3 00 a vote in Westminster elections and 1 50 a vote in devolved and European elections This proposal would result in an annual support amount of some 23 million equivalent to about 50p per elector per year Income tax relief similar to Gift Aid should be available on donations of up to 1000 and on membership fees to political parties Another main recommendation among the 24 in the report is that the existing limits on campaign spending in the period before an election should be cut by the order of 15 per cent The proposals will create challenges for the Electoral Commission and the Committee suggests the recommendations are implemented in time for the start of the next Parliament in 2015 Two members representing political parties dissented from some of the recommendations Political Corruption and Organizational Crime Elizangela

Valarini,Markus Pohlmann,Subrata Mitra,2021-10-01 Level of compliance one of the most important prerequisites of good governance varies widely across countries of the Global North and the less developed Global South Acts of non compliance such as electoral irregularities dubious deals between private and public sectors questionable role of the justice systems and financial scandals though they vary greatly across countries are an omnipresent reality of contemporary life This volume has brought together a number of case studies of such deviant behavior in political juridical and corporate fields from several countries of Asia Europe and South America within a common framework Instead of a moral approach based exclusively on the legality and illegality of the act the authors of these essays dissect non compliance analytically taking culture and context into account They argue that while criminal and corrupt dealings deserve to be exposed by all means from an ethical point of view seen from an interdisciplinary angle one needs to probe deeper into the dynamic that leads to such non compliance with the law in the first place *European Political Parties and Party Finance Reform* Wouter Wolfs,2022-04-06 This book

provides a comprehensive overview of the party finance regime at the level of the European Union Based on an in depth analysis of the interaction between European political parties and their institutional environment it shows how the Europarties have coped with and altered the funding rules The book explains why increasing party subsidies have been made available and why considerable differences exist in how Eurosceptic and pro European parties have used their EU funding It also examines how party finance reform at the EU level has been at the centre of party competition by demonstrating how the rules were strategically changed to benefit some European parties over others Considering the strong democratic aspirations that lay at the origins of the finance regime the book explores its consequences for party democracy and the rule
