Party Movements In The United States And Canada Strategies Of Persistence

Elizabeth J. Feeley, Philip P. Feeley

Party Movements In The United States And Canada Strategies Of Persistence:

Party Movements in the United States and Canada Mildred A. Schwartz, 2006 Party movements can be described as political organizations that both participate in the electoral process and have social movement qualities They appear frequently in both Canada and the United States Many of these movements face huge organizational problems and yet they display remarkable resilience signaling both continuing political dissatisfactions as well as possibilities for changing political outcomes This book demonstrates how organizational theory can be useful for understanding party movements and also expands on the idea of continuity contributing new ways of thinking about how organizations change and survive in the face of recurring dilemmas This look inside party movements at the organizational problems they face and the strategies employed to deal with them represents a new way of accounting for their history that contrasts with perspectives focusing solely on external conditions

Party Movements in the United States and Canada Mildred A. Schwartz, 2006 Party movements can be described as political organizations that both participate in the electoral process and have social movement qualities They appear frequently in both Canada and the United States Many of these movements face huge organizational problems and yet they display remarkable resilience signaling both continuing political dissatisfactions as well as possibilities for changing political outcomes This book demonstrates how organizational theory can be useful for understanding party movements and also expands on the idea of continuity contributing new ways of thinking about how organizations change and survive in the face of recurring dilemmas This look inside party movements at the organizational problems they face and the strategies employed to deal with them represents a new way of accounting for their history that contrasts with perspectives focusing solely on external conditions

Interest Groups and Campaign Finance Reform in the United States and Canada Robert G Boatright, 2011-03-03 Interest groups shape tactics in response to restrictions on campaign activities

When Movements Anchor Parties Daniel Schlozman, 2015-09-01 Throughout American history some social movements such as organized labor and the Christian Right have forged influential alliances with political parties while others such as the antiwar movement have not When Movements Anchor Parties provides a bold new interpretation of American electoral history by examining five prominent movements and their relationships with political parties Taking readers from the Civil War to today Daniel Schlozman shows how two powerful alliances those of organized labor and Democrats in the New Deal and the Christian Right and Republicans since the 1970s have defined the basic priorities of parties and shaped the available alternatives in national politics He traces how they diverged sharply from three other major social movements that failed to establish a place inside political parties the abolitionists following the Civil War the Populists in the 1890s and the antiwar movement in the 1960s and 1970s Moving beyond a view of political parties simply as collections of groups vying for preeminence Schlozman explores how would be influencers gain influence or do not He reveals how movements join with parties only when the alliance is beneficial to parties and how alliance exacts a high price

from movements Their sweeping visions give way to compromise and partial victories Yet as Scholzman demonstrates it is well worth paying the price as movements reorient parties priorities Timely and compelling When Movements Anchor Parties demonstrates how alliances have transformed American political parties Party in the Street Michael T. Heaney, Fabio Rojas, 2015-02-02 Party in the Street explores the interaction between political parties and social movements in the United States Examining the collapse of the post 9 11 antiwar movement against the wars in Iraq and Afghanistan this book focuses on activism and protest in the United States It argues that the electoral success of the Democratic Party and President Barack Obama as well as antipathy toward President George W Bush played a greater role in this collapse than did changes in foreign policy It shows that how people identify with social movements and political parties matters a great deal and it considers the Tea Party and Occupy Wall Street as comparison cases **First to the Party** Christopher Baylor, 2018 What determines the interests ideologies and alliances that make up political parties In its entire history the United States has had only a handful of party transformations First to the Party concludes that groups like unions and churches not voters or politicians are the most consistent influences on party transformation *The Rise and Fall of Moral Conflicts in the United States and Canada* Mildred A. Schwartz, Raymond Tatalovich, 2018-01-01 Using the history of prohibition in North America as a point of reference Schwartz and Tatalovich address the anticipated progression and possible resolution of six contemporary moral issues abortion capital punishment gun control marijuana pornography and same sex relations The Wiley Blackwell Companion to Social Movements David A. Snow, Sarah A. Soule, Hanspeter Kriesi, Holly J. McCammon, 2023-01-04 The most up to date and thorough compendium of scholarship on social movements This second edition of The Wiley Blackwell Companion to Social Movements features forty original essays from the field With contributions from both established and ascendant scholars the Companion seeks to present current research on social movements in all its diversity It is the most up to date comprehensive volume of social science research on social movements available today The essays address facilitative and constraining contexts and conditions social movement organizations fields and dynamics strategies and tactics micro structural and social psychological dimensions of participation consequences and outcomes and various thematic intersections including the intersection of social movements and social class gender race and ethnicity religion human rights globalization political extremism and more Offers an illuminating guide to understanding the dynamics and operation of social movements within the modern global world Covers a diverse range of topics in the field of social movement studies Offers original state of the art essays by internationally recognized scholars The Wiley Blackwell Companion to Social Movements is recommended for graduate seminars on social movement and for scholars of social movements worldwide It is also an excellent text for college and university libraries especially with graduate programs in the social sciences **The Demise and Rebirth of American Third Parties** Bernard Tamas, 2018-03-13 Virtually all academic books on American third parties in the last half century assume that they have largely disappeared This book challenges that orthodoxy by

explaining the temporary decline of third parties demonstrating through the latest evidence that they are enjoying a resurgence and arguing that they are likely to once again play a significant role in American politics The book is based on a wealth of data including district level results from US House of Representatives elections state level election laws after the Civil War and recent district level election results from Australia Canada India and the United Kingdom Party and Society Cedric de Leon,2014-01-07 Political parties are central to democratic life yet there is no standard definition to describe them or the role they occupy Voter centered theoretical approaches suggest that parties are the mere recipients of voter interests and loyalties Party centered approaches by contrast envision parties that polarize democratize or dominate society In addition to offering isolated and competing notions of democratic politics such approaches are also silent on the role of the state and are unable to account for organizations like Hamas Hezbollah and the African National Congress which exhibit characteristics of parties states and social movements simultaneously In this timely book Cedric de Leon examines the ways in which social scientists and other observers have imagined the relationship between parties and society He introduces and critiques the full range of approaches using enlivening comparative examples from across the globe Cutting through a vast body of research de Leon offers a succinct and lively analysis that outlines the key thinking in the field placing it in historical and contemporary context The resulting book will appeal to students of sociology political science social psychology and related fields

Political Groups, Parties, and Organizations That Shaped America Scott H. Ainsworth Ph.D.,Brian M. Harward,2019-07-19 This three volume set explores the multiple roles that parties and interest groups have played in American politics from the nation s beginnings to the present This set serves as an essential resource for analyzing the emergence and impact of parties and interest groups in the American political system and for understanding the systematic and structural bases for interest group and party behavior Volume One opens with an introduction by the editors that provides a general overview of the eras and identifies important themes and events laying a foundation on which the subsequent essays and primary documents for each interest group or political party builds Narrative essays focus on how specific parties or interest groups have shaped or reflect a particular set of events or general themes in each of the eras in American political history Topical entries reflect key themes developed throughout the volumes Entries range from important founding groups and parties to contemporary political action committees and policy advocacy groups The set also includes primary source documents e g letters platform documents court decisions flyers etc that reveal important dimensions of the corresponding group s political influence

Reform and Retrenchment Robert G. Boatright,2024 In Reform and Retrenchment Robert G Boatright explores changes in American primary election laws from the 1920s to the 1970s He shows that political parties factions and reform groups manipulated primary election laws in order to gain an advantage over their opponents often under the guise of enhancing democracy Boatright looks at how this history can help us understand the reform ideas before us today ultimately suggesting that for all of its flaws there is likely little that can be done to improve

primaries and those who would seek to change American politics are best off exploring reforms to other areas of elections and governance

Transforming the Transformation? Michael Minkenberg, 2015-03-24 Transforming the transformation The East European Radical Right in the Political Process examines the significance of radical right parties along with other organizations in terms of their involvement in the political process of new democracies This groundbreaking study highlights firstly the radical right s interaction with other political actors such as parties governments and interest groups in their respective countries Secondly the contributors analyze the effects of such interaction with regard to agenda setting and policies in loaded policy fields namely minorities and immigration law and order religion territorial issues and democratization Through an examination of the role of radical right actors in political processes and an assessment of the resulting measurable outcomes this book shows how policies election results and regime changes indicate shifts away from the liberal democratic order institutionalized in the course of post Communist transformation Offering a unique cross national comparison of particular facets and themes as well as in depth analysis of country cases this book will be of interest to undergraduate and postgraduate students as well as scholars of European politics and far right studies

The Politics of Evangelical Identity Lydia Bean, 2016-12-13 Drawing on her groundbreaking research at evangelical churches near the U S border with Canada two in Buffalo New York and two in Hamilton Ontario Lydia Bean compares how American and Canadian evangelicals talk about politics in congregational settings

Sociology Today Arnaud Sales, 2012-08-16 We are living in a turbulent world marked by fast continuous social changes that affect the lives of individuals families communities organizations businesses nation states and international networks This fundamentally commits contemporary sociology to being a science of change This collection effectively mirrors this diversity and variety of transformations underway in today s societies and transnational spaces Written by a group of internationally renowned sociologists it offers a cutting edge understanding of what is happening in our life worlds work lives and frames of social existence Bringing up issues such as political turbulence cultural and artistic dynamics family changes gender roles migration flows and social movements it is a timely contribution that discusses transformation and globalization and their consequences in both theoretical and substantive terms Illuminating and comprehensive this book will be of immense use for sociology students on all levels as well as lecturers researchers and others who are interested in social life and the consequences of human action Arnaud Sales is Emeritus Professor of Sociology at the University of Montreal Canada

Political Sociology - The State of the Art Subrata K. Mitra, Malte Pehl, Clemes Spiess, 2009-12-09 The World of Political Science New volumes The book traces the disciplinary development of political sociology and the transdisciplinary research into the overlapping issues involving politics and society The contributions cover overviews of the history methodological and theoretical development of this academic discipline Successes as well as failures in past unexplored areas and salient issues in ongoing research are also highlighted From the Contents Subrata K Mitra and Malte Pehl Taking Stock of Political Sociology Dirk Berg Schlosser

Political Culture at a Crossroads Kay Lawson and Mildred Schwartz Parties Interest Groups and Social Movements Shall Change be Mid wife to Truth Eva Etzioni Halevy Socio Political Inequalities Elites Classes and Democracy Prakash Sarangi Contemporary Approaches to the Study of the State Jan van Deth Political Sociology Old Concerns and New Directions

The State and Civil Society Nicole Bolleyer, 2018-10-25 State regulation of civil society is expanding yet widely contested often portrayed as illegitimate intrusion Despite ongoing debates about the nature of state voluntary relations in various disciplines we know surprisingly little about why long lived democracies adopt more or less constraining legal approaches in this sphere in which state intervention is generally considered contentious Drawing on insights from political science sociology comparative law as well as public administration research this book addresses this important question conceptually theoretically and empirically It addresses the conceptual and methodological challenges related to developing systematic comparative insights into the nature of complex legal environments affecting voluntary membership organizations when simultaneously covering a wide range of democracies and the regulation applicable to different types of voluntary organizations Proposing the analytical tools to tackle those challenges it studies in depth the intertwining and overlapping legal environments of political parties interest groups and public benefit organizations across 19 long lived democracies After presenting an innovative interdisciplinary theoretical framework theorizing democratic states legal disposition towards or their disinclination against regulating voluntary membership organizations in a constraining or permissive fashion this framework is empirically tested Applying Qualitative Comparative Analysis QCA the comparative analysis identifies three main paths accounting for the relative constraints in the legal environments democracies have created for organized civil society defined by different configurations of political systems democratic history their legal family and voluntary sector traditions Providing the foundation for a mixed methods design three ideal typical representatives of each path Sweden the UK and France are selected for the in depth study of these legal environments long term evolution to capture reform dynamics and their drivers that have shaped group and party regulation over many decades *Canadian Government and Politics - Seventh Edition* Robert J. Jackson, Doreen Jackson, Royce Koop, 2020-02-25 Canadian Government and Politics delivers an up to date and concise introduction to Canada's political institutions processes and issues The text integrates theory history Census data and current affairs to give students an orderly picture of the wide ranging landscape of Canadian government and politics This seventh edition includes coverage and analysis of the 2019 general election as well as a preview of the new Canadian government It also adds exciting material on Canada's cultural landscape institutions and policies along with a new chapter on Indigenous Peoples Other chapters examine the executive legislative and judicial branches of government the electoral system bureaucracy Quebec nationalism foreign policy and much more The authors provide trenchant coverage of many key issues of concern to Canadians including regionalism nationalism climate change defense policy Indigenous Peoples rights minority rights pipelines and the USMCA trade deal These topics are addressed by way of

fair minded impartial discussions aimed to foster a vital and optimistic perspective on Canadian politics that will encourage critical thinking and active citizenship Feeley's English Homophone Dictionary Elizabeth J. Feeley, Philip P. Feeley, 2022-09-06 Feeley's English Homophone Dictionary is a specialized resource Homophones are a particular feature of spoken and written English words that have the same sound but different meanings and may have different roots and different spellings This dictionary features a brief definition of the word a pronunciation guide identifies parts of speech covers from early modern English to the present provides examples of usage with references to the original word category Clear and correct use of words is fundamental to good communication and Feeley's English Homophone Dictionary is a significant aid to doing so **The Dark Side of European Integration** Alina Polyakova, 2015-08-01 Across Europe radical right wing parties are winning increasing electoral support The Dark Side of European Integration argues that this rising nationalism and the mobilization of the radical right are the consequences of European economic integration The European economic project has produced a cultural backlash in the form of nationalist radical right ideologies This assessment relies on a detailed analysis of the electoral rise of radical right parties in Western and Eastern Europe Contrary to popular belief economic performance and immigration rates are not the only factors that determine the far right's success There are other political and social factors that explain why in post socialist Eastern European countries such parties had historically been weaker than their potential which they have now started to fulfill increasingly Using in depth interviews with radical right activists in Ukraine Alina Polyakova also explores how radical right mobilization works on the ground through social networks allowing new insights into how social movements and political parties interact
