lyrics and production techniques encouraging the listener to become physically and emotionally involved in recorded performances Relating rap s rhetorical strategy of posing inferences through intertextuality to early call and response routines and crowd controlling techniques this study emphasizes how the dynamic and collective elements from the stage performances and battles of the formative years of rap have remained relevant in the creative process behind this music It contends that the customary use of identifiable references and similes by rap lyricists works as a fluid interchange designed to keep the listener involved in the performance Like call and response in live performances it involves a dynamic form of communication and places MCs in a position where they activate the shared knowledge of their audience making sure that they know what they mean thus transforming their mediated lyrics into a collective and engaging performance **Political**

**Aesthetics** Crispin Sartwell,2011-03-15 I suggest that although at any given place and moment the aesthetic expressions of a political system just are that political system the concepts are separable Typically aesthetic aspects of political systems shift in their meaning over time or even are inverted or redeployed with an entirely transformed effect You cannot understand politics without understanding the aesthetics of politics but you cannot understand aesthetics as politics The point is precisely to show the concrete nodes at which two distinct discourses coincide or connive come apart or coalesce from Political Aesthetics Juxtaposing and connecting the art of states and the art of art historians with vernacular or popular arts such as reggae and hip hop Crispin Sartwell examines the reach and claims of political aesthetics Most analysts focus on politics as discursive systems privileging text and reducing other forms of expression to the merely illustrative He suggests that we need to take much more seriously the aesthetic environment of political thought and action Sartwell argues that graphic style music and architecture are more than the propaganda arm of political systems they are its constituents A noted cultural critic Sartwell brings together the disciplines of political science and political philosophy philosophy of art and art history in a new way clarifying basic notions of aesthetics beauty sublimity and representation and applying them in a political context A general argument about the fundamental importance of political aesthetics is interspersed with a group of stimulating case studies as disparate as Leni Riefenstahl s films and Black Nationalist aesthetics the Dead Kennedys and Jeffersonian architecture *The Anthology of Rap* Adam Bradley,Andrew DuBois,2010-11-02 From the school yards of the South Bronx to the tops of the Billboard charts rap has emerged as one of the most influential cultural forces of our time This pioneering anthology brings together more than 300 lyrics written over 30 years from the old school to the present day
