## **Party Structure And Organization In Eastcentral Europe Studies Of Communism In Transition:**

**Party Structure and Organization in East-Central Europe** Paul G. Lewis, 1996-01-01 this volume represents one of the best works written to date on party organizational development in east central Europe and is essential reading for all political scientists interested in party politics in postcommunist systems John T Ishiyama Slavonic Review *Party Structure and Organization in East Central Europe* focuses on the origin and development of new political parties within different countries in East Central Europe The book has a clear focus on party structure and organization It is one of the first books to present empirical studies of the development of political parties in Eastern Europe Whilst making a distinctive contribution it also feeds into the broader debate about party development and links with other issues of political theory *Political Parties in Post-Communist Eastern Europe* Paul Lewis, 2002-01-04 *Political Parties in Post Communist Eastern Europe* is the first textbook to survey the course of party developments in eastern Europe as a whole in the post Communist period This book relates the specifics of the post communist situation to the broader picture of the early stages of party development in western Europe and also to contemporary models of party organisation in established democracies The book includes a brief historical introduction to the context of post communist change the process of competitive party formation and democratic elections the development of independent parties their ideologies and electoral volatility the structure and level of organisation developed by new parties an analysis of stable party systems which have emerged in eastern Europe and the contribution they make to emerging democracies in the region *Party Politics in Post Communist Eastern Europe* will be a comprehensive and invaluable resource accessible to undergraduates of politics and European studies as well as the non specialist reader **Party Organization and Electoral Volatility in Central and Eastern Europe** Sergiu

Gherghina, 2014-10-17 Political parties in post communist countries have very high levels of electoral volatility In these environments political factions fail to establish long term connections with the electorate and thus regularly rise and fall from the political arena This book provides an organizational explanation for the variations in party level electoral volatility It looks comparatively at 29 political parties in six Central and Eastern European democracies between 1990 and 2008 to examine how political parties can influence their electoral environment Using empirical evidence Gherghina tests the effect of candidate selection procedures membership organizations and re nomination of incumbent MPs on voters loyalty and in doing so demonstrates how party organization greatly affects electoral stability Including case studies from Bulgaria Czech Republic Hungary Poland Romania and Slovakia this book will be of interest to students and scholars of comparative politics party politics democratization elections and Central and Eastern European politics *Post-Communist Democracies and Party Organization* Margit Tavits, 2013-06-24 Scholars of post communist politics often argue that parties in new democracies lack strong organizations sizable membership local presence and professional management because they do not need them to win elections and they may hinder a party s flexibility and efficiency in office *Post Communist Democracies and Party*

Organization explains why some political parties are better able than others to establish themselves in new democracies and why some excel at staying unified in parliament whereas others remain dominated by individuals Focusing on the democratic transitions in post communist Europe from 1990 to 2010 Margit Tavits demonstrates that the successful establishment of a political party in a new democracy crucially depends on the strength of its organization Yet not all parties invest in organization development This book uses data from ten post communist democracies including detailed analysis of parties in the Czech Republic Estonia Hungary and Poland Centre-Right Parties in Post-Communist East-Central Europe Seán Hanley,Aleks Szczerbiak,2020-09-10 This is the first book to cover the centre right in post communist Eastern Europe It makes an vital contribution to the broader research agenda on the Central and East European centre right by focusing on one specific question why strong and cohesive centre right formations have developed in some post communist states but not others It also delves into the attempts to develop centre right parties after 1989 in four nations the Czech Republic Hungary Poland and Slovakia The authors of these fresh case studies use a common analytical framework to analyse and provide fascinating insights into the varying levels of cohesion in centre right parties across the region This volume was previously published as a special issue of the Journal of Communist Studies and Transition Politics **Party Development and Democratic Change in Post-communist Europe** Paul G. Lewis,2024-02-02 This work surveys processes of party development in the context of the ten years of democratic change in post communist eastern Europe It examines the capacity of the former ruling parties to attract contemporary voters and their role in contributing to the consolidation of the new democratic regimes **The Communist Successor Parties of Central and Eastern Europe** Andras Bozoki,John T. Ishiyama,2020-07-24 What has become of the Communist parties that once held monopoly power in the east bloc A decade ago it was assumed that they would dissolve but many of them have enjoyed electoral success This book systematically examines how they have evolved In the opening section Herbert Kitschelt and Ivan Szelenyi respectively consider post communist party strategies and social democratic prospects in the transitional societies Part II presents nine case studies of the major communist and communist successor parties of the region and Part III is devoted to seven comparative studies Appendices provide comparable electoral and party membership data Organizing Democracy in Eastern Germany Stephen Padgett,2000 The emergence of interest group politics is one of the decisive factors in democratic transformation in post communist society Stephen Padgett argues that evidence from eastern Germany suggests that market transition produces rather open and fluid societies in which group interests and identities are tenuous Lacking a supportive social infrastructure interest groups operate on entrepreneurial lines a form of associational activity which falls far short of pluralist ideals With its accelerated transition to a market economy eastern Germany provides a fast forward study of an advanced post communist society which enables us to anticipate the social structures and issues shaping interest group politics in the newly democratizing states of east central Europe Examining a number of different interest groups and

comparing a number of countries across east central Europe this book may also offer a vision of the future of interest group politics in the West

**Party Politics in New Democracies** Paul Webb, Stephen White, 2007-09-20 Comparative Politics is a series for students and teachers of political science that deals with contemporary government and politics The General Editors are Professor Alfio Mastropaolo University of Turin and Kenneth Newton University of Southampton and Wissenschaftszentrum Berlin The series is published in association with the European Consortium for Political Research The sister volume to Political Parties in Advanced Industrial Democracies this book offers a systematic and rigorous analysis of parties in some of the world's major new democracies Drawing on a wealth of expertise and data the book assesses the popular legitimacy organizational development and functional performance of political parties in Latin America and postcommunist Eastern Europe It demonstrates the generational differences between parties in the old and new democracies and reveals contrasts among the latter Parties are shown to be at their most feeble in those recently transitional democracies characterized by personalistic candidate centred forms of politics but in other new democracies especially those with parliamentary systems parties are more stable and institutionalized enabling them to facilitate a meaningful degree of popular choice and control Wherever party politics is weakly institutionalized political inequality tends to be greater commitment to pluralism less certain clientelism and corruption more pronounced and populist demagoguery a greater temptation Without party democracy's hold is more tenuous

**Political Elites in East Central Europe** Nicole Gallina, 2008-10-29 This monograph is a major survey of East Central European ECE political elites and concentrates on Czech Republic Slovakia Hungary and Poland It is grounded within classic elite theory slightly adapted to ECE necessities More practically the book examines political elite composition and identifies political elite fragmentation in ECE The author questions that East Central European political elites have incorporated democratic values and conduct The main argument is that there is a significant gap between the formal democratic ECE institutions and political elite behaviour This gap has different dimensions which are relevant at the domestic level and also cause problems at the EU level Ultimately the political elite institution gap questions democratic political achievements after 1989 In providing a major analysis of ECE political elite structure and conduct the book points to the most urgent challenges of ECE political systems the reform of the political elite From the content The Importance of Analysing ECE Elites Forms of Political Elite Formation and Activity Political Elite Fragmentation in ECE Elite Formation and Reproduction in East Central Europe Patterns of Political Elite Behaviour Influencing Political Elite Behaviour Institutional Change after 1989 The Relationship between Europeanisation and Euroscepticism Elite Systems in East Central Europe Case Studies Poland Czech Republic Slovakia Hungary Implications of Elite Attitudes for Europeanisation Political Elites Incapable Europeanisers

**Political Transitions in Dominant Party Systems** Joseph Wong, Edward Friedman, 2008-10-27 Using country specific case studies top rank analysts in the field focus on the lessons that dominant parties might learn from losing and the adaptations they consequently make in order to survive

to remain competitive or to ultimately regain power      Party Structure and Organization in East-Central Europe Paul G. Lewis, 1996 This study focuses on the origins and development of new political parties within different countries in East Central Europe It looks at party structure and organization and also feeds into a broader debate about party development and links with other issues of political theory      Institutionalisation of Political Parties Robert Harmel, Lars G Svåsand, 2019-01-30 This edited collection builds directly upon the recently published book by Harmel Sv sand and Mjelde Institutionalisation and De Institutionalisation of Right Wing Protest Parties The Progress Parties in Denmark and Norway and applies their conceptual framework to a wide range of additional cases Employing a common conceptual framework throughout the chapters cover a broad range of cases and make important contributions toward building theories on why some parties succeed in institutionalising while others fail The book is primarily about the status some parties achieve as an institution the means by which parties may acquire that status and some of the obstacles that stand in their way      Radical Left Parties in Europe Luke March, 2012-03-12 What has happened to the European radical left after the collapse of the USSR How has it reacted reformed even revived This new volume is one of the first to provide an overview of the main developments in contemporary European radical left parties those defining themselves as to the left of and not merely on the left of social democracy which are now an increasingly visible phenomenon in European party politics Unlike many of the existing studies it focuses on communist and non communist parties addresses their non parliamentary and international activity and takes a pan European perspective focusing on both Eastern and Western Europe March focuses on key contemporary left parties the nature of their radicalism and their ideological and strategic positions and overall addresses their current dynamics and immediate electoral prospects The book argues that radical left parties are still afflicted by existential crises about the nature of socialism and the future of communist parties in particular is under threat The most successful left parties are no longer extremist but present themselves as defending values and policies that social democrats have allegedly abandoned focus on pragmatism rather than ideology and increasingly orientate themselves towards government Providing a significant contribution to existing literature in the field this book will be of interest to students and scholars of comparative politics political parties and radical politics      **Beyond Post-communist Studies** Terry Dee Clark, 2002 Clark seeks to correct shortcomings and oversights in democratic consolidation theory and to demonstrate how rational choice approaches can be meaningfully applied to analyzing political processes in some of the democracies of post communist Europe      Democratic Consolidation in East-Central Europe Fritz Plasser, Peter Ulram, Harald Waldrauch, 2016-07-27 The postcommunist regimes in East Central Europe are confronted with the double challenge of establishing a democratic order and a market economy The book discusses the concepts of democratic consolidation and analyzes the development of attitudes towards the political and economic system in Poland Hungary the Czech Republic Slovakia and Slovenia The study compares the political values in East Central Europe with respective attitudes in the USA

and Western Europe Special attention is given to experiences of the consolidation process in Germany Italy and Austria after 1945 as well as the more recent developments in Latin America and Southern Europe The final chapter discusses patterns and paths of democratic consolidation in the light of concepts of regime change

**Party Members and Their Importance in Non-EU Countries** Sergiu Gherghina,Alexandra Iancu,Sorina Soare,2018-05-23 Although party membership has been extensively analysed in the EU Members States from Western and Eastern Europe there is a gap in systematic data collection and analyses for the other countries in the Balkans and post Soviet region This book provides new and innovative insights in the area of party membership research to analyse the evolution of membership organizations in political parties from under investigated countries Specifically it seeks to understand the way in which political parties and the national legislation conceptualize the notion of membership within and across countries It provides original data and affords a first comprehensive comparative study of party members in the EU neighbouring countries which resonate particular interest because some of them occupy the precarious middle ground between a full fledge democracy and outright dictatorship In light of these relevant observations this systematic analysis of membership evolutions in democratizing countries brings valuable insights for the study of party politics in general This text will be of key interest to scholars and students of political parties and party systems party organisation and elections post Soviet and East European politics and more broadly to democratization studies and comparative politics
