Party The National Question In China:

The Party and the National Question in China Zhiyi Zhang, 1966 The Party and the National Question in China Zhiyi Zhang, 1966 *The State, Identity, and the National Question in China and Japan* Germaine A. Hoston, 2021-02-09 The first decades of the twentieth century witnessed an explosion of nationalist sentiment in East Asia as in Europe This comprehensive work explores how radical Chinese and Japanese thinkers committed to social change in this turbulent era addressed issues concerning national identity social revolution and the role of the national state in achieving socio economic development Focusing on the adaptation of anarchism and then Marxism Leninism to non European contexts Germaine Hoston shows how Chinese and Japanese theorists attempted to reconcile a relatively new appreciation for the nation state with their allegiance to a vision of internationalist socialist revolution culminating in stateless socialism Given the influence of Western experience on Marxism Chinese and Japanese theorists found the Marxian national question to be not merely one of whether the working man has no country but rather the much more fundamental issue of the relative value of Eastern and Western cultures Marxism argues Hoston thus placed native Marxists in tension with their own heritage and national identity The author traces efforts to resolve this tension throughout the first half of the twentieth century and concludes by examining how the tension persists as Chinese and Japanese dissidents seek identity affirming modernity in accordance with the Western democratic model

The Party and the National Question in China Jiyi Zhang, 1969 **How the Communist Party of China Manages the Issue of Nationality** Shiyuan Hao, 2015-11-30 This book introduces the background of China's issue of nationality from the very beginning Throughout the country's history all the nationalities that lived and prospered on Chinese land created a pattern of cultural diversity within national unity through their interaction and integration The formation of this pattern is due not only to the geographical fact that China covers a broad expanse on the Asian continent but also to the historical fact that it is home to disparate and ancient human heritages and to culturally diverse historical sources The book's five chapters explain the evolution of the CPC's policy towards nationalities At the time of the PRC's founding the Common Program in essence an interim Constitution passed by the Chinese People's Political Consultative Congress which was composed of people from all sectors of society and all of China's nationalities not only declared that people of all China's nationalities had equal rights but also stipulated that regional national autonomy would be practiced in all areas where minority nationalities were concentrated that all nationalities had the right to develop their native languages and culture and to maintain or reform their customs and religious beliefs and also mandated that people's governments support the development of minority nationalities in the areas of politics the economy culture and education In the final section the book demonstrates that the subject of how the CPC addresses nationality related issues is a dynamic one that encompasses the past present and future and is simultaneously an answer a process and a question

Frontier Passages Xiaoyuan Liu, 2004 In this pathbreaking book Xiaoyuan Liu establishes the ways in which the history of the Chinese

Communist Party was from the Yan'an period onward intertwined with the ethnopolitics of the Chinese periphery. As a Han dominated party the CCP had to adapt to an inhospitable political environment particularly among the Hui Muslims of northwest China and the Mongols of Inner Mongolia. Based on a careful examination of CCP and Soviet Comintern documents only recently available Liu's study shows why the CCP found itself unable to follow the Russian Bolshevik precedent by inciting separatism among the non-Han peoples as a stratagem for gaining national power. Rather than swallowing Marxist Leninist dogma on the nationalities question the CCP took a position closer to that of the Kuomintang stressing the inclusiveness of the Han dominated Chinese nation Zhonghua Minzu.

De-politicization Of Ethnic Questions In China

Lizhong Xie, 2013-12-30. De-politicizing issues of ethnicity is a new theoretical approach to study ethnic questions actively propounded and elaborated by Professor Ma Rong of Sociology Department of Peking University in the past ten years. In the recent years this theoretical approach has aroused biggish responses from the academic community in Mainland China, the relevant government departments and the general public. It is likely to elicit vigorous discussions in the years ahead. The book contains eight selected chapters which represent the main contributions to the debate. The first chapter by Ma Rong is the key paper where he lays out his main ideas and arguments. The remaining chapters deal with both positive and negative responses to the first chapter and his replies to them.

Ethnicity Nathan Glazer, Daniel Patrick Moynihan, Corinne Saposs

Schelling, 1975. Deals with ethnicity in modern society.

Tibetan Nation

Warren Smith, 2019-07-31. This detailed history offers the most comprehensive account available of Tibetan nationalism, Sino-Tibetan relations and the issue of Tibetan self-determination. Warren Smith explores Tibet's ethnic and national origins, the birth of the Tibetan state, the Buddhist state and its relations with China, Tibet's quest for independence and the Chinese takeover of Tibet after 1950. Focusing especially on post-1950 Tibet under Chinese Communist rule, Smith analyzes Marxist Leninist and Chinese Communist Party nationalities theory and policy, their application in Tibet and the consequent rise of Tibetan nationalism. Concluding that the essence of the Tibetan issue is self-determination, Smith bolsters his argument with a comprehensive analysis of modern Tibetan and Chinese political histories.

Contemporary China

Bill Brugger, 2018-09-18. This book first published in 1977 sets out two models of administration and participation used in Communist China: one worked out by the CCP during the war against Japan and one imported from the Soviet Union in the 1950s. These models have given rise to different policy positions studied here and the models provide a framework within which to examine the nature and structure of the CCP state structures, the army, rural and urban policy and the incorporation of national minorities.
