Red Tree, White Tree Wendy Berg, 2010 The most important and challenging book on Arthurian and Grail tradition for many a long year Gareth Knight The relationship between human and Faery lies at the very core of the Arthurian stories In this radical re-evaluation of the Grail legends Wendy Berg brings the ancient mythology of the British Isles into sharp focus centred around the marriage of King Arthur to the Faery Gwenivere and the origin and destiny of the Grail Hallows Drawing upon numerous Arthurian sources and other related texts from the Book of Genesis to The Lord of the Rings she explores the magical ritual underpinning of the legends and their connection to the ancient stellar deities of Britain When these stories are read with the additional level of understanding that they are for the most part a record of the lives and relationships of Faeries and humans working together about the Round Table they immediately become not only a great deal more interesting but also acquire a new and vivid relevance for the present day

Inventiones Monika Otter, 2000-11-09 Combining literary theory and historiography Monika Otter explores the relationship between history and fiction in the Latin literature of twelfth-century England The beginnings of fiction have commonly been associated with vernacular romance but Otter demonstrates that writers of Latin historical narratives also employed the self-referential techniques characteristic of fiction Beginning with *inventiones* a genre dealing with the discovery of saints' relics Otter reveals how exploring the fundamental problems of writing history and the nature of truth itself leads monastic or clerical Latin writers to a budding awareness of fictionality According to Otter accounts of conquests treasure hunts descents into underground worlds and efforts usually unsuccessful to retrieve subterranean objects serve as self-referential metaphors for the problems of accessing and retrieving the past they are thus designed to shake the reader's faith in historical representation and highlight the textuality of the historical account Otter traces this self-conscious use of fictional elements within historical narrative through the works of William of Malmesbury Geoffrey of Monmouth Gerald of Wales Walter Map and William of Newburgh Originally published in 1996 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback

The Tournament in England, 1100-1400 Juliet R. V. Barker, 2003 A survey of the tournament in England from its first emergence in the 12th century to the beginning of the 15th when technical changes altered its very nature Juliet Barker surveys the tournament in England from its first emergence in the twelfth century to the beginning of the fifteenth when it was revolutionised by the emergence of technical changes which altered its very nature The original publication of this study deriving from Juliet Barker's PhD thesis supervised by Maurice Keen reestablished the importance of the tournament at the heart of medieval chivalric culture The first serious scholarly publication for over half a century it dramatically reawakened interest in the historical context of tournaments and is especially valuable for its detailed evidence on the early years Tournaments are shown as far more than just sport They had wide political social and military implications in England their potential as a political instrument was quickly realised for the disaffected they became a means of rebellion and feuding but for the king and court they were a powerful propaganda machine Participation in tournaments was also a way to earn a coveted reputation for chivalry the passion for tourneying could bring knights lasting fame Military demands accounted for the increasing sophistication of armour and weapons partly in response to the demands of the tourneyers who needed military training that reflected their role in actual combat This wide ranging study looks at the tournament from all these angles and in so doing produces an exemplary history of the first three hundred years of their development JULIET BARKER is a well known broadcaster and writer whose other books include *The Brontës* and *Wordsworth A Life in Letters*

Spirited Performance Nienke van der Heide, 2008 Legends of Arthur, 2001 The image of Arthur has haunted the

poets and writers of western Europe for nearly nine centuries and there is no sign of an end to the reign of the once and future king in the world of literature The Arthurian epic is as popular a subject now as it was when it was first fashioned and the stories about Arthur and the heroes associated with him come in a bewildering number of guises The sheer variety of the legends both in style and content is extraordinary and this collection attempts to present in a small space something of this diversity Sir Thomas Malory half a millennium ago plundered a whole range of sources to create his masterpiece Le Morte Darthur but he did so to weld them together within the framework of Arthur's own career Legends of Arthur draws on different sources but emphasizes the way in which writers have created new stories around the great heroes or have told the stories in different ways So there are two versions of each hero's exploits Arthur is shown as emperor and warlord and as the triumphant and tragic king of the romances betrayed by Lancelot and Guinevere Gawain is the central figure of the wonderful adventures of a Dutch romance and the courtly and subtle hero of the English masterpiece Sir Gawain and the Green Knight Tristan appears as the single minded lover of Iseult in the original version of his story and then as a knight of the Round Table whose devotion to chivalry is almost as great as his passion for his beloved In these differing versions we can see how the Arthurian romances held the medieval world spellbound for so long in all their color and variety
