Pasionate Intellect The Poetry Of Charles Tomlinson:

Passionate Intellect Michael Kirkham, 1999-01-01 This critical study looks at the first four decades of Charles Tomlinson's poetic career and is the only published full scale exclusive treatment of his poetry Tomlinson is a major British poet whose work has received more recognition in North America and continental Europe than it has in his own country where still in some quarters its character is misunderstood and therefore misjudged The purpose of Kirkham's study is to increase understanding and appreciation of the exceptional achievement of Tomlinson's poetry emphasising both the startling originality of his vision a unified vision of a natural human world and the subtlety of his poetic art The study is a reading of the poems which aims to show what they yield to close scrutiny and to remove misconceptions Known for its analytical rendering of sense impressions and its avoidance of the personal pronoun the objectivism of Tomlinson's poetry is not an exercise in asceticism but a means of enlarging the circumference of the perceiving self an expansion of self which is not at the same time an inflation of the self regarding ego Its theme is not objects as such but relations the relation of the perceiving self to the other of the human to the non human world Its reputation for cool detachment is based on a misreading it is a poetry of energy and excitement which combines self restraint with passionate conviction *The Poetry of Charles Tomlinson* Judith P. Saunders, 2003 Throughout Charles Tomlinson's fifty year career borders have served him as setting topic theme leitmotif metaphor and formal principle Encompassing discussion of more than two hundred individual poems this study offers a coherent framework for understanding the body of work created by a major late twentieth century poet The borders he explores are spatial temporal perceptual and ideological thus they comprehend a wide range of concerns from the ecological to the sociopolitical the philosophical the ethical and the aesthetic The poems focus on places literal and figurative where disparate realms converge e g sites of political and cultural displacement of theological or economic confrontation Defining what lies on either side of a given boundary Tomlinson's work invites a back and forth process of comparison and contrast hence it fosters a dynamic and multifaceted awareness A commitment to principles of juxtaposition and counterpoint influences the prosodical workings of the poetry as well manifesting itself in structural patterns in figurative usage in deployment of rhyme in line in syntax and in diction Passionate Intellect Michael Kirkham, 1999-04-01 This critical study looks at the first four decades of Charles Tomlinson's poetic career and is the only published full scale exclusive treatment of his poetry Tomlinson is a major British poet whose work has received more recognition in North America and continental Europe than it has in his own country where still in some quarters its character is misunderstood and therefore misjudged The purpose of Kirkham's study is to increase understanding and appreciation of the exceptional achievement of Tomlinson's poetry emphasising both the startling originality of his vision a unified vision of a natural human world and the subtlety of his poetic art The study is a reading of the poems which aims to show what they yield to close scrutiny and to remove misconceptions Known for its analytical rendering of sense impressions and its avoidance of the
