Paso Local Frontiers At A Global Crossroads:

El Paso, 2004 *El Paso* Victor M. Ortíz-González, 2004 A grounded and instructive analysis of the ways globalization affects a border city Every marker of social difference can be easily interpreted in the fashionable language of borderlands and if so as Victor M Ortiz Gonzalez reveals the practical reality of the border region is often grossly misrepresented and its people woefully served He argues that amid the tantalizing abstractions generated by the sweeping reconfigurations of globalization people in cities like El Paso and Ciudad Juarez on the U S Mexican border are actually living the gritty realities of a new world order With descriptions of grassroots initiatives to confront the challenges and opportunities that NAFTA represents for the city El Paso challenges us to acknowledge and address the conceptual and sociopolitical tasks of a world in which abstract representations and nonlocal interests override concrete situations Ortiz Gonzalez also provides an indepth analysis of groups such as La Mujer Obrera Unite El Paso and the Hispanic Chamber of Commerce and their attempts to give local residents and workers more autonomy and power Balancing ethnographic detail with precise theoretical insights El Paso offers a compelling case study and a stirring call to understand both the conceptual challenge and the social urgency of the effects of globalization in local settings [Chasing World-Class Urbanism](#) Jacob Lederman, 2020-07-14 Questions increasingly dominant urban planning orthodoxies and whether they truly serve everyday city dwellers What makes some cities world class Increasingly that designation reflects the use of a toolkit of urban planning practices and policies that circulates around the globe These strategies establishing creative districts dedicated to technology and design greening the streets reinventing historic districts as tourist draws were deployed to build a globally competitive Buenos Aires after its devastating 2001 economic crisis In this richly drawn account Jacob Lederman explores what those efforts teach us about fast evolving changes in city planning practices and why so many local officials chase a nearly identical vision of world class urbanism Lederman explores the influence of Northern nongovernmental organizations and multilateral agencies on a prominent city of the global South Using empirical data keen observations and interviews with people ranging from urban planners to street vendors he explores how transnational best practices actually affect the lives of city dwellers His research also documents the forms of resistance enacted by everyday residents and the tendency of local institutions and social relations to undermine the top down plans of officials Most important Lederman highlights the paradoxes of world class urbanism for instance while the priorities identified by international agencies are expressed through nonmarket values such as sustainability inclusion and livability local officials often use market centric solutions to pursue them Further despite the progressive rhetoric used to describe urban planning goals in most cases their result has been greater social economic and geographic stratification Chasing World Class Urbanism is a much needed guide to the intersections of culture ideology and the realities of twenty first century life in a major Latin American city one that illuminates the tension between technocratic aspirations and lived experience **Shanghai Rising** Xiangming Chen, 2009 Until around 1990 Shanghai was China s

premier but sluggish industrial center Now at the beginning of the twenty first century the joint impact of global forces and state power has turned Shanghai into a dynamic megacity This collection places the city s unprecedented rise in a rare comparative examination of U S cities as well as with Asian megacities Singapore and Hong Kong providing a nuanced account of how Shanghai s politics economy society and space have been transformed by macro and micro level forces

Border Politics Nancy A. Naples, Jennifer Bickham Mendez, 2015 In the current historical moment borders have taken on heightened material and symbolic significance shaping identities and the social and political landscape Borders defined broadly to include territorial dividing lines as well as sociocultural boundaries have become increasingly salient sites of struggle over social belonging and cultural and material resources How do contemporary activists navigate and challenge these borders What meanings do they ascribe to different social cultural and political boundaries and how do these meanings shape the strategies in which they engage Moreover how do these social movements confront internal borders based on the differences that emerge within social change initiatives Border Politics edited by Nancy A Naples and Jennifer Bickham Mendez explores these important questions through eleven carefully selected case studies situated in geographic contexts around the globe By conceptualizing struggles over identity social belonging and exclusion as extensions of border politics the authors capture the complex ways in which geographic cultural and symbolic dividing lines are blurred and transcended but also fortified and redrawn This volume notably places right wing and social justice initiatives in the same analytical frame to identify patterns that span the political spectrum Border Politics offers a lens through which to understand borders as sites of diverse struggles as well as the strategies and practices used by diverse social movements in today s globally interconnected world Contributors Phillip Ayoub Renata Blumberg Yvonne Braun Moon Charania Michael Dreiling Jennifer Johnson Jesse Klein Andrej Kurnik Sarah Maddison Duncan McDuie Ra Jennifer Bickham Mendez Nancy A Naples David Paternotte Maple Razsa Raphi Rechitsky Kyle Rogers Deana Rohlinger Cristina Sanidad Meera Sehgal Tara Stamm Michelle T llez

Blockading the Border and Human Rights Timothy J. Dunn, 2010-01-01 To understand border enforcement and the shape it has taken it is imperative to examine a groundbreaking Border Patrol operation begun in 1993 in El Paso Texas Operation Blockade The El Paso Border Patrol designed and implemented this radical new strategy posting 400 agents directly on the banks of the Rio Grande in highly visible positions to deter unauthorized border crossings into the urban areas of El Paso from neighboring Ciudad Ju rez a marked departure from the traditional strategy of apprehending unauthorized crossers after entry This approach of prevention through deterrence became the foundation of the 1994 and 2004 National Border Patrol Strategies for the Southern Border Politically popular overall it has rendered unauthorized border crossing far less visible in many key urban areas However the real effectiveness of the strategy is debatable at best Its implementation has also led to a sharp rise in the number of deaths of unauthorized border crossers Here Dunn examines the paradigm changing Operation Blockade and related border enforcement efforts in the El Paso region in great detail as well as the local

social and political situation that spawned the approach and has shaped it since Dunn particularly spotlights the human rights abuses and enforcement excesses inflicted on local Mexican Americans and Mexican immigrants as well as the challenges to those abuses Throughout the book Dunn filters his research and fieldwork through two competing lenses human rights versus the rights of national sovereignty and citizenship **Border Rules** Kanishka Chowdhury,2023-04-26 This book examines both border policies and oppositional narratives of the border 2011 2021 demonstrating that the term designates not merely a line of territorial control but also a set of social relations shaped by persistent racially differentiated colonial structures and more recently by neoliberal modes of accumulation These relations are shown to determine access to wealth and or resources and to enable the management of labor the extraction of surplus and the accumulation of capital Discussion in the book is informed by the history of these policies and by the critical literature on borders Various cultural texts focusing on two border zones the US Mexico and the EU Southern Mediterranean are analyzed specifically two novels two films and two murals examined in conjunction with a music video A path to a borderless future is suggested an abolitionist refusal of border rules with an insistence on the necessity of abolition Gringolandia Matthew Hayes,2018-11-13 A telling look at today s reverse migration of white middle class expats from north to south through the lens of one South American city Even as the migration crisis from the Global South to the Global North rages on another lower key and yet important migration has been gathering pace in recent years that of mostly white middle class people moving in the opposite direction Gringolandia is that rare book to consider this phenomenon in all its complexity Matthew Hayes focuses on North Americans relocating to Cuenca Ecuador the country s third largest city and a UNESCO World Heritage Site Many began relocating there after the 2008 economic crisis Most are self professed economic refugees who sought offshore retirement affordable medical care and or a lower cost location Others however sought adventure marked by relocation to an unfamiliar cultural environment and to experience personal growth through travel illustrative of contemporary cultures of aging These life projects are often motivated by a desire to escape economic and political conditions in North America Regardless of their individual motivations Hayes argues such North South migrants remain embedded in unequal and unfair global social relations He explores the repercussions on the host country from rising prices for land and rent to the reproduction of colonial patterns of domination and subordination In Ecuador heritage preservation and tourism development reflect the interests and culture of European descendent landowning elites who have most to benefit from the new North South migration In the process they participate in transnational gentrification that marginalizes popular traditions and nonwhite mestizo and indigenous informal workers The contrast between the migration experiences of North Americans in Ecuador and those of Ecuadorians or others from such regions of the Global South in North America and Europe demonstrates that in fact what we face is not so much a global migration crisis but a crisis of global social justice

Security in the Bubble Christine Hentschel,2015-08-08 Focusing on the South African city of Durban Security in the

Bubble looks at spatialized security practices engaging with strategies and dilemmas of urban security governance in cities around the world While apartheid was spatial governance at its most brutal postapartheid South African cities have tried to reinvent space using it as a positive technique of governance Christine Hentschel traces the contours of two emerging urban regimes of governing security in contemporary Durban handsome space and instant space Handsome space is about aesthetic and affective communication as means to making places safe Instant space on the other hand addresses the crime related personal navigation systems employed by urban residents whenever they circulate through the city While handsome space embraces the powers of attraction instant space operates through the powers of fleeing In both regimes security is conceived not as a public good but as a situational experience that can No longer reducible to the after pains of racial apartheid this city s fragmentation is now better conceptualized according to Hentschel as a heterogeneous ensemble of bubbles of imagined safety

Hustle Urbanism Tatiana Thieme, 2025-03-25 Exploring hustle as a social cultural and economic phenomenon in contemporary Nairobi In Nairobi s underserved neighborhoods hustle has emerged as both a vital survival strategy and a way of life for youth Exploring the multiple meanings and manifestations of the hustle economy across different scenarios of provisioning distribution exchange learning and mobilizing Hustle Urbanism draws on more than a decade of ethnographic engagement to center the logics perspectives and inventive strategies of a group of youth who constantly navigate job scarcity inadequate basic services and climate induced harms Tatiana Thieme shows how young people develop tools of resistance against the legacies of colonial violence and uneven urban development while carving out spaces of opportunity for themselves and their peers The stories she includes bring thick ethnographic detail and longitudinal perspective to the lives and livelihoods of youth whose diverse skill sets and knowledges span from circular economies and eco activism to hip hop and local leadership Filling a significant gap in both existing scholarship and popular discussion Hustle Urbanism offers critical theorization of precarious urban environments and the affirmative modes of making life work in the city against the odds While Thieme cautions against fetishizing hustle as a form of social and economic uplift she calls for a greater recognition of the ingenuity and skill involved in hustle urbanism arguing that studying hustle narratives and practices opens up timely empirical and theoretical questions about overlapping urban struggles and possibilities that coexist in the everyday city Retail e book files for this title are screen reader friendly with images accompanied by short alt text and or extended descriptions

Turkish Berlin Annika Marlen Hinze, 2013-08-01 The integration of immigrants into a larger society begins at the local level Turkish Berlin reveals how integration has been experienced by second generation Turkish immigrant women in two neighborhoods in Berlin Germany While the neighborhoods are similar demographically the lived experience of the residents is surprisingly different Informed by first person interviews with both public officials and immigrants Annika Marlen Hinze makes clear that local integration policies often created by officials who have little or no contact with immigrants have significant effects on the assimilation of outsiders into a community and a society Focusing on

the Turkish neighborhoods of Kreuzberg and Neukölln Hinze shows how a combination of local policy making and grassroots organizing have contributed to one neighborhood earning a reputation as a hip multicultural success story and the other as a rougher neighborhood featuring problem schools and high rates of unemployment Aided by her interviews she describes how policy makers draw from their imaginations of urban space immigrants and integration to develop policies that do not always take social realities into consideration She offers useful examples of how official policies can actually exacerbate the problems they are trying to help solve and demonstrates that a powerful history of grassroots organizing and resistance can have an equally strong impact on political outcomes Employing spatial theory as a tool for understanding the complex processes of integration Hinze asks two related questions How do immigrants perceive themselves and their experiences in a new culture And how are immigrants conceived of by politicians and policy makers Although her research highlights the German Turk experience in Berlin her answers have implications that resonate far beyond the city's limits

Struggling Giants Paul Kantor, Christian Lefèvre, Asato Saito, H. V. Savitch, Andy Thornley, 2012 The struggle for governability in the world's four leading global city regions

Breaching the Colonial Contract Arlo Kempf, 2009-05-30 Almost a decade in Empire remains the 21st Century's dominant mode of cultural production and North America remains at the apex of the colonial imperative The contributors to this volume argue that far from being a post colonial world the struggle for independence of polity and culture is still alive and relevant The book brings together relevant examples of anti colonial discourse and struggle from across the US and Canada providing unique perspectives on resistance activism scholarship and pedagogy Anti colonialism is an evolving framework to which this book hopes to make a unique contribution with the range depth and analytical approach of the chapters it contains The emphasis on anti colonial resistance here is significant as it consistently reveals the personal commitment required for the undoing of domination as well as the ways in which people can collectively pursue radical politics in their aim of bringing about social justice The book examines a multitude of actions which could be termed anti colonial from student walkouts along the US Mexico border to interrogations of the relationship between indigenous and anti racist struggles in North America to analyses of the implications of anti colonialism for community unionism as well as disability rights struggles Chapters also look at the movement for Africentric schools in Toronto provide an annotated and comparative look at the myriad struggles for and by the Fourth World and Fourth World nations and analyze the creation of an anti colonial classroom in a Montreal university They also explore the colonial underpinnings of multicultural education in the US With contributions from leading thinkers such as Henry Giroux Ward Churchill and Peter McLaren as well as fresh perspectives from junior academics this book provides a diverse and varied survey of anti colonialism in the US and Canada It will be a thought provoking read for those working in a wide variety of disciplines from Sociology to Politics In daring and incisive ways Arlo Kempf's collection further positions anti colonialism as the necessary educational project for the colonizer and colonized within us all it reflectively re sets the radical education

Social Justice in the U.S.-Mexico Border Region Mark Lusk, Kathleen Staudt, Eva Moya, 2012-06-12 The U S Mexico Border Region is among the poorest geographical areas in the United States The region has been long characterized by dual development poor infrastructure weak schools health disparities and low wage employment More recently the region has been affected by the violence associated with a drug and crime war in Mexico The premise of this book is that the U S Mexico Border Region is subject to systematic oppression and that the so called social pathologies that we see in the region are by products of social and economic injustice in the form of labor exploitation environmental racism immigration militarism institutional sexism and discrimination health inequities a political economy based on low wage labor and the globalization of labor and capital The chapters address a variety of examples of injustice in the areas of environment health disparity migration unemployment citizenship women and gender violence mental health and drug violence The book proposes a pathway to development

Spaces of Law in American Foreign Relations Daniel S. Margolies, 2011-06-01 In the late nineteenth century the United States oversaw a great increase in extraterritorial claims boundary disputes extradition controversies and transborder abduction and interdiction In this sweeping history of the underpinnings of American empire Daniel S Margolies offers a new frame of analysis for historians to understand how novel assertions of legal spatiality and extraterritoriality were deployed in U S foreign relations during an era of increased national ambitions and global connectedness Whether it was in the Mexican borderlands or in other hot spots around the globe Margolies shows that American policy responded to disputes over jurisdiction by defining the space of law on the basis of a strident unilateralism Especially significant and contested were extradition regimes and the exceptions carved within them

Extradition of fugitives reflected critical questions of sovereignty and the role of the state in foreign affair during the run up to overseas empire in 1898 Using extradition as a critical lens Spaces of Law in American Foreign Relations examines the rich embeddedness of questions of sovereignty territoriality legal spatiality and citizenship and shows that U S hegemonic power was constructed in significant part in the spaces of law not simply through war or trade

Metropolitan Latinidad
A. K. Sandoval-Strausz, 2025-04-30 A wide ranging collection of essays that centers Latinos in the history of American cities and suburbs Latino urban history has been underappreciated not only in its own right but for the centrality of its narratives to urban history as a field A scholarly discipline that has long scrutinized economics politics and the built environment has too often framed race as literally Black and white This has resulted in a fundamental misunderstanding of the full social canvas of American cities since at least the early twentieth century Traversing metropolitan areas like Atlanta Chicago El Paso Fort Worth Los Angeles Miami and New York this collection of essays brings together both established and emerging scholars including long time urbanists and academics working in the fields of Latino borderlands political landscape and religious history Organized at different scales including city suburb neighborhood and hemisphere this impressive body of work challenges long standing narratives about metropolitan America The contributors Llana Barber Mauricio Castro Eduardo Contreras Sandra I Enr quez Monika Gosin Cecilia S nchez Hill Felipe Hinojosa Michael Innis Jim nez Max Krochmal Becky M Nicolaides Pedro A Regalado Iliana Yamileth Rodriguez and Thomas J Sugrue engage a diverse range of subjects such as urban rebellions the suburbanization of Latinos affordable housing labor the built environment transnationalism place making and religious life The scholars also explore race within Latino communities as well as the role that political and economic dynamics have played in creating Latino urban spaces After reading this book you will never see American cities the same way again

The Fragmented Politics of Urban Preservation
Yue Zhang, 2013-08-01 While urban preservation is almost as old as cities themselves it has become increasingly controversial in modern cities In this book Yue Zhang presents a cross national comparative analysis of the politics of urban preservation Based on comprehensive archival research and more than two hundred in depth interviews in Beijing Chicago and Paris Zhang finds that urban preservation provides a tool for diverse political and social actors to frame their propositions and advance their favored courses of action In cities from West to East divergent political and economic interests have caused urban preservation to become contested Exploring three of the world s great cities Zhang deftly navigates readers through each case study illustrating the complexities of the politics of urban preservation in each city In Beijing urban preservation was integral to promoting economic growth and enhancing the city s image during the lead up to the 2008 Olympics in Chicago it is used to increase property values and revitalize neighborhoods and in Paris it offers a channel for national and municipal governments to compete for control over urban space Although urban preservation serves various purposes in these cities Zhang explains how different types of political fragmentation have affected the implementation of preservation initiatives in predictable ways

thus generating distinct patterns of urban preservation A comparative urban politics study of unusual breadth The Fragmented Politics of Urban Preservation gives us insight into the complex policy process of urban preservation through which political institutions are intertwined with interests and inclinations fundamentally shaping the direction of urban development the physical forms of cities and the lives of citizens [Renew Orleans?](#) Aaron Schneider,2018-03-27 Urban development after disaster the fading of black political clout and the onset of gentrification Like no other American city New Orleans since Hurricane Katrina offers powerful insight into issues of political economy in urban development and in particular how a city s character changes after a disaster that spurs economic and political transition In New Orleans the hurricane upset an existing stalemate among rival factions of economic and political elites and its aftermath facilitated the rise of a globally oriented faction of local capital In Renew Orleans Aaron Schneider shows how some city leaders were able to access fragmented local institutions and capture areas of public policy vital to their development agenda Through interviews and surveys with workers and advocates in construction restaurants shipyards and hotel and casino cleaning Schneider contrasts sectors prioritized during post Katrina recovery with neglected sectors The result is a fine grained view of the way labor markets are structured to the advantage of elites emphasizing how dual development produces wealth for the few while distributing poverty and exclusion to the many on the basis of race gender and ethnicity Schneider shows the way exploitation operates both in the workplace and the community tracing working class resistance that joins struggles for dignity at home and work In the process working classes and popular sectors put forth their own alternative forms of development **The Durable Slum** Liza Weinstein,2014-04-01 In the center of Mumbai next to the city s newest and most expensive commercial developments lies one of Asia s largest slums where as many as one million squatters live in makeshift housing on one square mile of government land This is the notorious Dharavi district best known from the movie Slumdog Millionaire In recent years cities from Delhi to Rio de Janeiro have demolished similar slums at times violently evicting their residents to make way for development But Dharavi and its residents have endured for a century holding on to what is now some of Mumbai s most valuable land In The Durable Slum Liza Weinstein draws on a decade of work including more than a year of firsthand research in Dharavi to explain how despite innumerable threats the slum has persisted for so long achieving a precarious stability She describes how economic globalization and rapid urban development are pressuring Indian authorities to eradicate and redevelop Dharavi and how political conflict bureaucratic fragmentation and community resistance have kept the bulldozers at bay Today the latest ambitious plan for Dharavi s transformation has been stalled yet the threat of eviction remains and most residents and observers are simply waiting for the project to be revived or replaced by an even grander scheme Dharavi s remarkable story presents important lessons for a world in which most population growth happens in urban slums even as brutal removals increase From Nairobi s Kibera to Manila s Tondo megaslums may be more durable than they appear their residents retaining a fragile but hard won right to stay put
