the reality of travelling the oceans of the world The book starts with the first scheduled transatlantic crossings in the age of sail then moves on through the development of the steamers and ends in the present day when ocean liners have given way to airliners All aspects of the subject are discussed The experience of travelling by sea varied enormously from the luxury of first class travel to the often brutal conditions endured by immigrants Ship design developed in the race between competing companies to provide the most powerful ships But while technology came into the fundamental design when it came to decor for many of the great liners the interiors looked back with a romanticised view of the past It is not always realised that a great liner might have almost as many crew as passengers and this looks at all those who kept the ships running from the black gang in the engine room to the captain on the bridge The result is a rounded view of what it meant to travel on some of the greatest ships ever built

[Cretomania](#) Alexandre Farnoux,2017-07-05 Since its rediscovery in the early 20th century through spectacular finds such as those by Sir Arthur Evans at Knossos Minoan Crete has captured the imagination not only of archaeologists but also of a wider public This is shown among other things by its appearance and uses in a variety of modern cultural practices from the innovative dances of Sergei Diaghilev and Ted Shawn to public and vernacular architecture psychoanalysis literature sculpture fashion designs and even neo pagan movements to mention a few examples Cretomania is the first volume entirely devoted to such modern responses to and uses of the Minoan past Although not an exhaustive and systematic study of the reception of Minoan Crete it offers a wide range of intriguing examples and represents an original contribution to a thus far underexplored aspect of Minoan studies the remarkable effects of Minoan Crete beyond the narrow boundaries of recondite archaeological research The volume is organised in three main sections the first deals with the conscious unconscious and coincidental allusions to Minoan Crete in modern architecture and also discusses archaeological reconstructions the second presents examples from the visual and performing arts as well as other cultural practices

illustrating how Minoan Crete has been enlisted to explore and challenge questions of Orientalism religion sexuality and gender relations the third focuses on literature and shows how the distant Minoan past has been used to interrogate critically more recent Greek history **The Great Luxury Liners, 1927-1954** William H. Miller,1981-01-01 186 photos of Ile de France Normandie Leviathan Queen Elizabeth United States many others Interior and exterior views **Syren and Shipping Illustrated** ,1928 **Luxury** Peter McNeil,Giorgio Riello,2016-05-19 We live in a world obsessed by luxury Long distance airlines compete to offer first class sleeping experiences and hotels recommend exclusive suites where you are never disturbed Luxury is a rapidly changing global industry that makes the headlines daily in our newspapers and on the internet More than ever luxury is a pervasive presence in the cultural and economic life of the West and increasingly too in the emerging super economies of Asia and Latin America Yet luxury is hardly a new phenomenon Today s obsession with luxury brands and services is just one of the many manifestations that luxury has assumed In the middle ages and the Renaissance for example luxury was linked to notions of magnificence and courtly splendour In the eighteenth century luxury was at the centre of philosophical debates over its role in shaping people s desires and oiling the wheels of commerce And it continues to morph today with the growth of the global super rich and increasing wealth polarization From palaces to penthouses from couture fashion to lavish jewellery from handbags to red wine from fast cars to easy money Peter McNeil and Giorgio Riello present the first ever global history of luxury from the Romans to the twenty first century a sparkling and ever changing story of extravagance excess novelty and indulgence *The British Motor Ship* ,1926 *A Postcard History of the Passenger Liner* Christopher Deakes,2023-10-01 From around 1880 for almost a hundred years shipowners commissioned a wealth of paintings that depicted their magnificent liners as well as the routes they travelled their exotic destinations and life onboard These paintings rich in imagination and atmosphere appeared on postcards and posters of the day and were used to advertise the companies and their ships and so was born a whole genre that produced tens of thousands of paintings which formed a wonderful record of the great era of the passenger liner In 1900 there were over thirty shipping companies operating passenger liners across the North Atlantic Other oceans were similarly served But now with just a few exceptions the companies and their liners have disappeared along with the art they once inspired Little remains to recall this aspect of our maritime past except the postcards and they tell an evocative story of the vanished world of elegant ships and leisurely travel of social and political times much changed by the history of the past century Here brought vividly to life in more than 500 colourful postcards are the ships on which so many of our predecessors sailed as emigrants soldiers administrators or simply as tourists in days long past These cards which are now highly collectable show how steamships developed over the years but they are also a fine tribute to the artists who painted them This volume also includes a glossary of some 170 illustrators which forms an important reference section and advice on collecting **Ships Monthly** ,2005
