

Judge yourself and beware of passing judgement on others. In judging others we expend our energy to no purpose; we are often mistaken and easily sin. But if we judge ourselves our labour is always to our profit.

Passing Judgement:

Passing Judgement Helene E. Bilis, 2016-10-27 The royal judge was an archetypal character in French tragedy during the 17th century This figure impersonated the king by asserting his judicial authority and bringing order to an otherwise chaotic world In Passing Judgement H l ne Bilis examines how an overlooked character type the royal judge remained a constant of the tragic genre throughout the 17th century although the specifics of his role and position fluctuated as playwrights experimented with changing models of sovereignty onstage Her readings analyze how this royal decision maker stood at the intersection of political and theatrical debates and evolved through a process of trial and error in which certain portrayals of kingship were deemed obsolete and were discarded while others were promoted as culturally allowable and resonant In tracing the royal judge s persistent presence and transformation Bilis argues that we can better grasp the weighty political stakes of theatrical representations under the ancien r gime

Meditations on First Philosophy René

Descartes, 2008-05-08 In Descartes's *Meditations* the thinker rejects all his former beliefs in the quest for new certainties. He develops new conceptions of body and mind to create a new science of nature. This new translation includes a wide-ranging accessible introduction, notes, and full selections from the *Objections and Replies*. **The Voice of Conscience** Mika Ojakangas, 2013-07-18 In Western thought it has been persistently assumed that in moral and political matters people should rely on the inner voice of conscience rather than on external authorities, laws, and regulations. This volume investigates this concept, examining the development of the Western politics of conscience from Socrates to the present and the formation of the Western ethico-political subject. The work opens with a discussion of the ambiguous role of conscience in politics, contesting the claim that it is the best defense against totalitarianism. It then looks back at canonical authors from the Church Fathers and Luther to Rousseau and Derrida to show how the experience of conscience constitutes the foundation of Western ethics and politics. This unique work not only synthesizes philosophical and political insights but also pays attention to political theology to provide a compelling and innovative argument that the experience of conscience has always been at the core of the political Western tradition. An engaging and accessible text, it will appeal to political theorists and philosophers as well as theologians and those interested in the critique of the Western civilization. **Döderlein's Handbook of Latin**
