Poetry and Theology in the Modernist Period Anthony Domestico, 2017-10-17 What if the religious themes and allusions in modernist poetry are not just metaphors Following the religious turn in other disciplines literary critics have emphasized how modernists like Woolf and Joyce were haunted by Christianity s cultural traces despite their own lack of belief In Poetry and Theology in the Modernist Period Anthony Domestico takes a different tack arguing that modern poets such as T S Eliot W H Auden and David Jones were interested not just in the aesthetic or social implications of religious experience but also in the philosophically rigorous dogmatic vision put forward by contemporary theology These poets took seriously the truth claims of Christian theology for them religion involved intellectual and emotional assent doctrinal articulation and ritual practice Domestico reveals how an important strand of modern poetry actually understood itself in and through the central theological questions of the modernist era What is transcendence and how can we think and write about it What is the sacramental act and how does its wedding of the immanent and the transcendent inform the poetic act How can we relate kairos holy time to chronos clock time Seeking answers to these complex questions Domestico examines both modernist institutions the Criterion and specific works of modern poetry Eliot s Four Quartets and Jones s The Anathemata The book also traces the contours of what it dubs theological modernism a body of poetry that is both theological and modernist In doing so this book offers a new literary history of the modernist period one that attends both to the material circulation of texts and to the broader intellectual currents of the time

The Carmina of Caius Valerius Catullus Gaius Valerius Catullus, 1894 **China** John Lagerwey, 2010-12-01 Over the last 40 years our vision of Chinese culture and history has been transformed by the discovery of the role of religion in Chinese state making and in local society The Daoist religion in particular long despised as superstitious has recovered its place as the native higher religion But while the Chinese state tried from the fifth century on to construct an orthodoxy based on Confucianism Daoism and Buddhism local society everywhere carved out for itself its own geomantically defined space and organized itself around local festivals in honor of gods of its own choosing gods who were often invented and then represented by illiterate mediums Looking at China from the point of view of elite or popular culture therefore produces very different results John Lagerwey has done extensive fieldwork on local society and its festivals This book represents a first attempt to use this new research to integrate top down and bottom up views of Chinese society culture and history It should be of interest to a wide range of China specialists students of religion and popular culture as well as participants in the ongoing interdisciplinary dialogue between historians and anthropologists John Lagerwey is professor of Daoist history at the cole Pratique des Hautes tudes and of Chinese studies at the Chinese University of Hong
