Passion For Justice Emotions And The Origins Of The Social Contract:

A Passion for Justice Robert C. Solomon, 1995 This text argues that justice is a virtue which everyone shares a function of personal character and not just of government or economic planning It uses examples from Plato to Ivan Boesky to document how we live and how we feel

A Passion for Justice Robert C. Solomon, 1990 **Virtuous Emotions** Kristján

Kristjánsson, 2018-04-26 Many people are drawn towards virtue ethics because of the central place it gives to emotions in the good life Yet it may seem odd to evaluate emotions as virtuous or non virtuous for how can we be held responsible for those powerful feelings that simply engulf us And how can education help us to manage our emotional lives The aim of this book is to offer readers a new Aristotelian analysis and moral justification of a number of emotions that Aristotle did not mention awe grief and jealousy or relegated at best to the level of the semi virtuous shame or made disparaging remarks about gratitude or rejected explicitly pity understood as pain at another person s deserved bad fortune Kristj n Kristj nsson argues that there are good Aristotelian reasons for understanding those emotions either as virtuous or as indirectly conducive to virtue *Virtuous Emotions* begins with an overview of Aristotle s ideas on the nature of emotions and of emotional value and concludes with an account of Aristotelian emotion education

Justice and Harmony Joshua Mason, 2022-08-16 Justice and harmony have long been two of the world s most treasured ideals but much of modern moral and political philosophy puts them on opposite sides of the divide between liberal theories of the right and communitarian theories of the good Joshua Mason argues that the encounter with their Chinese counterparts zhengyi and hexie can overcome this opposition revealing a pattern that reframes justice and harmony as mutually interdependent concepts in a three part framework of root harmony benhe harmonic justice heyi and just harmony zhenghe Broadly surveying the histories of western and Chinese moral and political philosophies *Justice and Harmony Cross Cultural Ideals in Conflict and Cooperation* explores our cross cultural conceptual inventories and develops a comparative framework that can overcome entrenched binary oppositions and reconcile these grand global values

Forgiveness Matthew Ichihashi Potts, 2022-11-22 A deeply researched and poignant reflection on the practice of forgiveness in an unforgiving world In this sensitive and probing book Matthew Ichihashi Potts explores the complex moral terrain of forgiveness which he claims has too often served as a salve to the conscience of power rather than as an instrument of healing or justice Though forgiveness is often linked with reconciliation or the abatement of anger Potts resists these associations asserting instead that forgiveness is simply the refusal of retaliatory violence through practices of penitence and grief It is an act of mourning irrevocable wrong of refusing the false promises of violent redemption and of living in and with the losses we cannot recover Drawing on novels by Kazuo Ishiguro Marilynne Robinson Louise Erdrich and Toni Morrison and on texts from the early Christian to the postmodern era Potts diagnoses the real dangers of forgiveness yet insists upon its enduring promise Sensitive to the twenty first century realities of economic inequality colonial devastation and racial strife and considering the role of forgiveness in the New Testament the Christian tradition philosophy and contemporary literature this book heralds the arrival of a new and creative theological voice

Leadership by Resentment Ruth Capriles, 2012-01-01 What do such disparate events as Occupy Wall Street Iran s Islamic revolution and Venezuela s socialist revolution have in common Often resentment based on past grievances or shortcomings seems to emerge from the depths of individual and collective psyches over the course of such emotionally charged movements This resentment and the related philosophical concept of ressentiment can have a profound impact on the course of history and on the role of leadership within societies Expanding on the concept of ressentiment this book addresses the importance of emotions in historical events The author explores the conditions that foster the development of ressentiment the role of leaders and followers and the phases of the phenomenon as it encourages destructive behaviors such as murder and suicide Often considered an incurable disease with destructive social and political repercussions it is a core motive for acts of terrorism revolutions social upheavals and processes of toxic leadership The author puts forth a model that helps to describe certain historical processes led by ressentiment like some revolutions and

terrorist acts and to distinguish them from other movements that are usually treated as similar e.g independence revolutions The book then tackles a seemingly impossible question Can we find a cure for this powerful and destructive impulse With care and deliberation the author demonstrates the power of ethical leadership recognition and redemption as positive unifying forces during human conflicts A philosophical endeavor to understand events from the Boston Tea Party to Occupy Wall Street from the French revolution to Hugo Chavez's revolution in Venezuela this book will be fascinating reading for scholars and students of the social sciences and humanities and those with a particular interest in leadership

Disorienting Neoliberalism Benjamin L. McKean,2020-09-25 In the world neoliberalism has made the pervasiveness of injustice and the scale of inequality can be so overwhelming that meaningful resistance seems impossible *Disorienting Neoliberalism* argues that combatting the injustices of today's global economy begins with reorienting our way of seeing so that we can act more effectively Within political theory standard approaches to global justice envision ideal institutions but provide little guidance for people responding to today's most urgent problems Meanwhile empirical and historical research explains how neoliberalism achieved political and intellectual hegemony but not how we can imagine its replacement *Disorienting Neoliberalism* argues that people can and should become disposed to solidarity with each other once they see global injustices as a limit on their own freedom Benjamin L McKean reorients us by taking us inside the global supply chains that assemble clothes electronics and other goods revealing the tension between neoliberal theories of freedom and the hierarchical coercive reality of their operations In this new approach to global justice he explains how neoliberal institutions and ideas constrain the freedom of people throughout the supply chain from worker to consumer Rather than a linked set of private market exchanges supply chains are political entities that seek to govern the rest of us Where neoliberal institutions train us to see each other as competitors McKean provides a new orientation to the global economy in which we can see each other as partners in resisting a shared obstacle to freedom and thus be called to collective action Drawing from a wide range of thinkers from Hegel and John Rawls to W E B Du Bois and Iris Marion Young *Disorienting Neoliberalism* shows how political action today can be meaningful and promote justice moving beyond the pity and resentment global inequality often provokes to a new politics of solidarity

Theory, Justice, and Social Change

Christopher R. Williams, Bruce A. Arrigo, 2012-09-22 Throughout history social and intellectual crises have given rise to compelling suggestions for reform steeped in various progressive sensibilities For example within the discipline of criminology particularly during the 1980 s and 1990 s a number of unconventional theoretical perspectives emerged that sought to challenge many of the assumptions embedded within its own mainstream discourse and to propose alternative solutions for meaningful sustainable change Conceived of as critical in overarching orientation these efforts to rethink the foundations of criminological verstehen can be traced to several specific theoretical and methodological strands of inquiry e g anarchism peacemaking chaos theory postmodernism Though distinct in some respects these emerging models are linked paradigmatically by their shared discontent with conventional criminological thought and by their radicalized posture toward existing and previously unexamined epistemic crises Collectively this is an agenda for reform that seeks to establish a more humane and just social order particularly as citizens and society confront the institutional and communal problems posed by crime delinquency and deviance

Justice Matters

Mona Sue Weissmark, 2004-01-29 In the fall of 1992 in a small room in Boston MA an extraordinary meeting took place For the first time the sons and daughters of Holocaust victims met face to face with the children of Nazis for a fascinating research project to discuss the intersections of their pasts and the painful legacies that history has imposed on them Taking that remarkable gathering as its starting point **Justice Matters** illustrates how the psychology of hatred and ethnic resentments is passed from generation to generation Psychologist Mona Weissmark herself the child of Holocaust survivors argues that justice is profoundly shaped by emotional responses In her in depth study of the legacy encountered by these children Weissmark found not surprisingly that in the face of unjust treatment the natural response is resentment and deep anger and in most cases an overwhelming need for revenge Weissmark argues that while legal systems offer a structured means for

redressing injustice they have rarely addressed the emotional pain which left unresolved is then passed along to the next generation leading to entrenched ethnic tension and group conflict In the grim litany of twentieth century genocides few events cut a broader and more lasting swath through humanity than the Holocaust How then would the offspring of Nazis and survivors react to the idea of reestablishing a relationship Could they talk to each other without open hostility Could they even attempt to imagine the experiences and outlook of the other Would they be willing to abandon their self definition as aggrieved victims as a means of moving forward Central to the perspectives of each group Weissmark found were stories searing anecdotes passed from parent to grandchild from aunt to nephew which personalized with singular intensity the experience She describes how these stories or legacies transmit moral values beliefs and emotions and thus freeze the past into place For instance cdxmerged that most children of Nazis reported their parents told them stories about the war whereas children of survivors reported their parents told them stories about the Holocaust The daughter of a survivor said I didn t even know there was a war until I was a teenager I didn t even know fifty million people were killed during the war I thought just six million Jews were killed While the daughter of a Nazi officer recalled I didn t know about the concentration camps until I was in my teens First I heard about the Nazi party Then I heard stories about the war about bombs falling or about not having food At a time when the political arena is saturated with talk of justice tribunals reparations and revenge management Justice Matters provides valuable insights into the aftermath of ethnic and religious conflicts around the world from Rwanda to the Balkans from Northern Ireland to the Middle East The stories recounted here and the lessons they offer have universal applications for any divided society determined not to let the ghosts of the past determine the future
