Passion For The Impossible A John D Caputo In Focus:

A Passion for the Impossible Mark Dooley, 2012-02-01 Presenting the first systematic appraisal of the thought of John D Caputo one of America's most respected and controversial continental thinkers this book brings together internationally renowned philosophers theologians and cultural critics One highlight of the work is an interview with Jacques Derrida in which Derrida talks candidly about his reaction to Caputo's writings and spells out the implications for religion and the question of God after deconstruction Caputo responds to the concerns expressed by his interlocutors in the same humorous erudite and challenging spirit for which he is known The result is a lively and stimulating debate covering themes in the philosophy of religion deconstruction political philosophy feminism and hermeneutics as well as issues surrounding the work of Aquinas Nietzsche Kierkegaard Heidegger Foucault Derrida and Rorty

The Adventure of Weak Theology Štefan Štofaník, 2018-10-16 In this distinctive exploration of John D Caputo's work Štefan Štofaník traces Caputo's journey of philosophical discovery from his earlier more conventional academic writings to his later almost confessional works of weak theology and his deep engagement with Derrida Štofaník draws upon Caputo's life story to help explain sudden shifts in Caputo's thinking offers intricate readings of philosophical passages that have all too often been taken for granted and joins in Caputo's effort to find a theology that can be trusted and that does not rely upon dogmatic and hierarchical authority At the same time Štofaník subtly disagrees with aspects of Caputo's view and turns to the work of Antoine de Saint-Exupéry as a way to suggest that one cannot take leave of the tradition of theology as easily as Caputo thinks At times *The Adventure of Weak Theology* reads like a letter to Caputo and Štofaník's own passion for theology his deep understanding of Caputo's work and his gift for writing makes this an immensely appealing book for both admirers and critics of Caputo

The Essential Caputo B. Keith Putt, 2018-02-10 This landmark collection features selected writings by John D Caputo one of the most creative and influential thinkers working in the philosophy of religion today B Keith Putt presents 21 of Caputo's most significant contributions from his distinguished 40 year career Putt's thoughtful editing and arrangement highlights how Caputo's multidimensional thought has evolved from radical hermeneutics to radical theology A guiding introduction situates Caputo's corpus within the context of debates in the Continental philosophy of religion and exclusive interview with him adds valuable information about his own views of his work

Divine Multiplicity Chris Boesel, S. Wesley Ariarajah, 2013-11-11 The essays in this volume ask if and how trinitarian and pluralist discourses can enter into fruitful conversation with one another Can trinitarian conceptions of divine multiplicity open the Christian tradition to more creative and affirming visions of creaturely identities difference and relationality including the specific difference of religious plurality Where might the triadic patterning evident in the Christian theological tradition have always exceeded the boundaries of Christian thought and experience Can this help us to inhabit other religious traditions' conceptions of divine and or creaturely reality The volume also interrogates the possibilities of various discourses on pluralism by putting them in a concrete pluralist context

and asking to what extent pluralist discourse can collect within itself a convergent diversity of orthodox heterodox postcolonial process poststructuralist liberationist and feminist sensibilities while avoiding irruptions of conflict competition or the logic of mutual exclusion

On Race and Racism in America Roy Martinez, 2010 On Race and Racism in America offers a variety of perspectives on American Philosophy's relative blindness to issues of race **via media philosophy** L. Bryan Williams, 2009-03-26 This book via media philosophy Holiness unto Truth Conversations between Wesleyan and Roman Catholic Voices records the first formal philosophical conversations between Wesleyan and Roman Catholic philosophers and theologians Although the Methodist community has developed numerous points of intersection with Roman Catholic counterparts authors from smaller Wesleyan Holiness groups along with Roman Catholic writers now offer new philosophical conversations This book begins that conversation with a review of Pope John Paul II's call in *Fides et Ratio* Faith and Reason for adequate dialogue by philosophers on crucial areas of mutual concern Important bridges between the two communities are developed within each chapter Examples of via media practices in the lives of Rev John Wesley and Cardinal John Henry Newman are highlighted An editorial thread of other via media practices is offered after each chapter A special contribution by Marquette Professor D Stephen Long Performing the Truth closes this conversation with a call for holiness unto truth to be made present in the world This book strives to facilitate early steps along a via media to a holy relationship unto truth between Wesleyan and Roman Catholic voices

Rupturing Eschatology Eric J. Trozzo, 2014-04-01 The modern and contemporary legacy of Luther's theology is a vital topic of continuing investigation assessment and construction Rupturing Eschatology is Eric Trozzo's constructive retrieval of Luther's theology of the cross for the purpose of establishing a contemporary Lutheran and emerging account of the cross silence and eschatology Seeking to overcome a tendency toward extrinsic notions of divine glory and transformation the author explores Luther's early construction of the theology of the cross and divine hiddenness in concert with the work of the Lutheran mystical tradition and modern Lutheran theology such as Jürgen Moltmann Paul Tillich and John Caputo Trozzo argues for an intra historical and intra worldly account of divine possibility oriented around a contemporary theology of the cross marked by reclamation of the biblical and mystical practice of silence as the space that creates hope

Marion and Derrida on The Gift and Desire: Debating the Generosity of Things Jason Alvis, 2016-01-13 This book examines the various encounters between Jean Luc Marion and Jacques Derrida on the gift considers their many differences on desire and demonstrates how these topics hold the keys to some of phenomenology's most pressing structural questions especially regarding deconstructive approaches within the field The book claims that the topic of desire is a central lynchpin to understanding the two thinkers conflict over the gift for the gift is reducible to the desire to give which initiates a turn to the topic of generosity To what degree might loving also imply giving How far might it be suggested that love is reducible to desire and intentionality It is demonstrated how Derrida the generative father of deconstruction rejects the possibility of any potential relation between the gift and desire on the account

that desire is bound to calculative repetition economical appropriation and subject centered interests that hinder deconstruction Whereas Marion a representative of the phenomenological tradition demands a unique union between the gift and desire which are both represented in his reduction to givenness and erotic reduction The book is the first extensive attempt to contextualize the stark differences between Marion and Derrida within the phenomenological legacy Husserl Heidegger Kant supplies readers with in depth accounts of the topics of the gift love and desire and demonstrates another means through which the appearing of phenomena might be understood namely according to the generosity of things

Derrida Wordbook Maria-Daniella Dick,2013-02-27 A glossary of words associated with Jacques Derrida accommodating the far reaching implications of his work This cornucopia of words and definitions intervenes at crucial points of tension across the entire range of Derrida's publications including those published posthumously It offers sustained expository engagement with a series of 67 key words from Aporia to Yes having significance throughout Derrida's thought and writing Touching on the literary as well as on political aesthetic phenomenological and psychoanalytic discourses and tracing how Derrida's own practice of close reading shadows faithfully the texts he reads before producing a breaking point in the logical limits of a given text each word the essays illustrate is not a final word Instead each shows itself through close reading that places the terms figures tropes and motifs in their broader contexts to be a gateway opening on to innumerable interconnected concerns that inform the work of Jacques Derrida

Heidegger on Science Trish Glazebrook,2012-02-23 Although Martin Heidegger is well known for his work on technology he is not often discussed in the context of science broadly speaking This volume is the first to showcase diverse perspectives on Heidegger's assessments of the sciences looking at a number of different ways that Heidegger's writings contribute to questions concerning how we understand the world through science With particular attention to quantum theory natural science technoscience and a section devoted specifically to investigating what Being and Time has to say about science the book will be of interest to scholars in a wide range of disciplines and traditions It closes with consideration of questions about sustainability and ethics raised by Heidegger's engagement with the sciences

Key Theological Thinkers Svein Rise,2016-04-22 The 20th and 21st Centuries have been characterized by theologians and philosophers rethinking theology and revitalizing the tradition This unique anthology presents contributions from leading contemporary theologians including Rowan Williams Fergus Kerr Aidan Nichols G R Evans and Tracey Rowland who offer portraits of over fifty key theological thinkers in the modern and postmodern era Distinguished by its broad ecumenical perspective this anthology spans arguably one of the most creative periods in the history of Christian theology and includes thinkers from all three Christian traditions Protestant Catholic and Orthodox Each individual portrait in this anthology includes a biographical introduction an overview of theological or philosophical writing presentation of key thoughts and contextual placing of the thinker within 20th Century religious discourse Overview articles explore postmodern theology radical orthodoxy ecumenical theology feminist theology and

liberation theology A final section includes portraits of important thinkers who have influenced Christian thought from other fields not least from Continental philosophy and literature **Derrida's Marrano Passover** Agata

Bielik-Robson,2022-12-15 In this first ever monograph on Jacques Derrida s Toledo confession where he portrayed himself as sort of a Marrano of the French Catholic culture Agata Bielik Robson shows Derrida s marranismo to be a literary experiment of auto fiction She looks at all possible aspects of Derrida s Marrano identification in order to demonstrate that it ultimately constitutes a trope of non identitarian evasion that permeates all his works just as Marranos cannot be characterized as either Jewish or Christian so is Derrida s universal Marranism an invitation to think philosophically politically and last but not least metaphysically without rigid categories of identity and belonging By concentrating on Derrida s deliberate choice of marranismo Bielik Robson shows that it penetrates deep into the very core of his late thinking constantly drawing on the literary works of Kafka Celan Joyce Cixous and Val ry and throws a new light on his early works most of all Of Grammatology Dissemination and Diff rance She also offers a completely new interpretation of many of Derrida s works only seemingly non related to the Marrano issue like Glas Given Time Counterfeit Money Death Penalty Seminar and Specters of Marx In these new readings this book demonstrates that the Marrano Derrida is not a marginal auto biographical figure overshadowed by Derrida the Philosopher it is one and the same thinker who discovered marranismo as a literary trope of openness offering up a new genre of philosophical story telling which centers around Derrida s Marrano auto fable **Derrida and Theology**

Steven Shakespeare,2009-08-25 Derrida and Theology is an invaluable guide for those ready to ride the leading wave of contemporary theology It gives theologians the confidence to explore the major elements of Derrida s work and its influence on theology without dumbing it down or ignoring its controversial aspects **Transcendence and Beyond** John D.

Caputo,Michael J. Scanlon,2007 A benchmark volume at the intersection of philosophy and religion The Way of Nature and the Way of Grace Vernon W. Cisney,Jonathan Beever,2016-06-15 Amid all the controversy criticism and celebration of Terrence Malick s award winning film The Tree of Life what do we really understand of it The Way of Nature and the Way of Grace thoughtfully engages the philosophical riches of life culture time and the sacred through Malick s film This innovative collection traverses the relationships among ontological moral scientific and spiritual perspectives on the world demonstrating how phenomenological work can be done in and through the cinematic medium and attempting to bridge the gap between narrow theoretical works on film and their broader cultural and philosophical significance Exploring Malick s film as a philosophical engagement this readable and insightful collection presents an excellent resource for film specialists philosophers of film and film lovers alike *Isotopography* Niels Wilde,2024-08-19 While the concept of place remains undertheorized in Kierkegaard research this study argues that place is at the center of Kierkegaard s thinking The first part of the book shows that Kierkegaard s notion of situatedness as being placed in a socio historical situation conditioned by a situation prior to situatedness points to a realist position and a flat ontology Secondly the book develops a detailed analysis of

the ontological structure of the existential place the place we ourselves are and concrete places the places where we are Place opens a qualified space within bounds the existence sphere an atmosphere of elemental attunement and attuned elementality Finally the book collects the dots from part one and two in a topological realist approach to Kierkegaard s theology and three main definitions of God God is love God is that everything is possible and God is the middle term The book concludes that Kierkegaard s existential topography reveals a realist position where we are is never exhausted by being the place where we are

Saramago's Philosophical Heritage

Carlo Salzani,Kristof K. P. Vanhoutte,2018-07-16 The past decades have seen a growing philosophical interest in a number of authors but strangely enough Saramago s oeuvre has been left somewhat aside This volume aims at filling this gap by providing a diverse range of philosophical perspectives and expositions on Saramago s work The chapters explore some possible issues arising from his works from his use of Plato s allegory of the cave to his re readings of Biblical stories from his critique and reinvention of philosophy of history to his allegorical exploration of alternative histories from his humorous approach to our being towards death to the revolutionary political charge of his fiction The essays here confront Saramago s fiction with concepts theories and suggestions belonging to various philosophical traditions and philosophers including Plato Pascal Kierkegaard Freud Benjamin Heidegger Lacan Foucault Pato ka Derrida Agamben and i ek

Dialogic Ethics

Ronald C. Arnett,François Cooren,2018-06-14 Dialogic Ethics offers an impressionistic picture of the diversity of perspectives on this topic Daily we witness local regional national and international disputes each propelled by contention over what is and should be the good propelling communicative direction and action Communication ethics understood as an answer to problems often creates them If we understand communication ethics as a good protected and promoted by a given set of communicators we can understand how acts of colonialism and totalitarianism could move forward legitimized by the assumption that I am right This volume eschews such a presupposition recognizing that we live in a time of narrative and virtue contention We dwell in an era where the one answer is more often dangerous than correct

Derrida and the Future of the Liberal Arts

Mary Caputi,Vincent J. Del Casino, Jr.,2013-06-06 Derrida and the Future of the Liberal Arts highlights the Derridean assertion that the university must exist without condition as a bastion of intellectual freedom and oppositional activity whose job it is to question mainstream society Derrida argued that only if the life of the mind is kept free from excessive corporate influence and political control can we be certain that the basic tenets of democracy are being respected within the very societies that claim to defend democratic principles This collection contains eleven essays drawn from international scholars working in both the humanities and social sciences and makes a well grounded and comprehensive case for the importance of Derridean thought within the liberal arts today Written by specialists in the fields of philosophy literature history sociology geography political science animal studies and gender studies each essay traces deconstruction s contribution to their discipline

explaining how it helps keep alive the unconditional contrapuntal mission of the university The book offers a forceful and persuasive corrective to the current assault on the liberal arts
