**Glen Allan Omans**

## **Passion In Poe The Development Of A Critical Term:**

**Passion in Poe** Glen Allan Omans, 1986      A History of English Critical Terms Jeremiah Wesley Bray, 1898      *Poe Studies/dark Romanticism*, 1996      A Companion to Poe Studies Eric W. Carlson, 1996-10-21 Edgar Allan Poe has firmly established himself as one of the most studied 19th century American writers a pioneer in the theory of the short story and a hauntingly lyrical poet whose works continue to capture the imagination of modern readers Because of his preeminence in the world of letters Poe has generated a tremendous amount of scholarship and critics continue to engage in disputes over his varied writings Through chapters written by expert contributors this reference synthesizes the vast body of material about Poe's works and addresses topics of central importance to Poe studies Best known as the author of poems such as *The Raven* and short stories such as *The Fall of the House of Usher* Edgar Allan Poe is now firmly established as one of the most significant 19th century American writers Since 1845 when his work was recognized in France by Baudelaire his critical reception has endured a history of fluctuation and controversy During the last 50 years research on Poe has grown so much that it now rivals or possibly exceeds the renaissance of interest in Emerson Melville and Henry James His work has been adapted for popular consumption through several films and early editions of his works printed in small quantities continue to command high prices This reference companion the third in a series with others on Melville and Henry James is a guide to the tremendous amount of scholarship Poe has generated Through chapters written by expert contributors this volume reviews and represents Poe biography criticism aesthetics philosophy and influence The first section of the book includes chapters on Poe's life and discusses the problems confronting Poe's biographers The second section primarily offers textual criticism of his individual works while the third and fourth sections treat broad topics related to his philosophical views and aesthetic theory The fifth section consists of chapters on the legacy of Poe as a world author and his lasting influence on literature popular culture and fine arts Chapters include extensive documentation and a bibliography at the end of the volume lists the most significant resources for the study of Poe      **A Glossary of John Dryden's Critical Terms** H. James Jensen, 1969-02-19 A Glossary of John Dryden's Critical Terms was first published in 1969 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions Although John Dryden is as Samuel Johnson described him the father of modern criticism his critical writings are difficult for twentieth century readers to understand and appreciate Part of the problem lies in the fact that many of the critical terms which Dryden used have changed or expanded in meaning since his time By providing a series of glosses of seventeenth century critical terms this volume clarifies and illuminates Dryden's work for modern readers and scholars Professor Jensen has catalogued every important word that Dryden used in discussing critical matters whether about art literature or music In addition to covering all of Dryden's works the glossary encompasses works of other important seventeenth century critics among them John Milton Ben Johnson and Thomas Rymer The structure of the

glossary is simple under each word there is a general definition and if needed an essay on the word's origin history and general usage Then the various particular meanings of the word are given and under each definition are listed the critics the works the editions and the page numbers where the word is used with that particular meaning Selected quotations abound substantiating the text The book will be useful for students and teachers in seventeenth and eighteenth century literature courses and for scholars doing advanced research Students will gain an understanding of the development of critical thought by reading the essays in the Glossary Modern scholars of Restoration literature will find new ideas here as well as confirmation of some older conjectures about Dryden

**The Publishers' Trade List Annual**, 1883

**On Poe** Louis J. Budd, Edwin Harrison Cady, 1993 From 1929 to the latest issue American Literature has been the foremost journal expressing the findings of those who study our national literature The journal has published the best work of literary historians critics and bibliographers ranging from the founders of the discipline to the best current critics and researchers The longevity of this excellence lends a special distinction to the articles in American Literature Presented in order of their first appearance the articles in each volume constitute a revealing record of developing insights and important shifts of critical emphasis Each article has opened a fresh line of inquiry established a fresh perspective on a familiar topic or settled a question that engaged the interest of experts
