**Not Passion's Slave** Robert C. Solomon,2003-01-30 The idea that we are in some significant sense responsible for our emotions is an idea that Robert Solomon has developed for almost three decades Here in a single volume he traces the development of this theory of emotions and elaborate it in detail Two themes run through his work the first presents a cognitive theory of emotions in which emotions are construed primarily as evaluative judgments The second proposes an existentialist perspective in which he defends the idea that as we are responsible for our emotions Indeed sometimes it even makes sense to say that we choose them While the first claim has gained increasing currency in the literature his claim about responsibility for emotions has continued to meet with considerable resistance and misinterpretation The new emphasis on evolutionary biology and neurology has mistakenly reinforced the popular prejudice that emotions happen to us and are entirely beyond our control This volume is also a kind of intellectual memoir of Solomon's own development as a thinker The essays written in the 1980s elaborate the themes of the intentionality of emotion and the claim that emotions are judgments in this period he is also increasingly preoccupied with how emotions vary and are identified in a variety of cultures In the 1990 s his interests evolve to consider the social and political role of emotions and theories about emotion The final section presents his current philosophical position on the seeming passivity of the passions Despite his own critical assessment of his earlier work he continues to argue that in the final analysis we are responsible for our emotions and existential quality of our lives

**Christiantown, USA** Richard Stellway,2019-03-19 Are Christian families more or less strong than other families How important is sexual satisfaction to marital happiness What impact does the arrival of children have on a marriage How does income affect marital satisfaction What pressures confront employed wives and their families and how content are these women with their marriages To accurately assess the influence of religion on the marriages of churchgoers this book first published in 1990 considers the significance of other important

**Mark and the Elijah-Elisha Narrative** Adam Winn,2010-08-01 In this monograph Adam Winn proposes that the ancient Greco Roman literary practice of imitation can and should be used when considering literary relationships between biblical texts After identifying the imitative techniques found in Virgil s Aeneid Winn uses those techniques as a window into Mark s

use of the Elijah Elisha narrative of 1 and 2 Kings Through careful comparisons between numerous pericopes of both respective narratives Winn argues that the Markan evangelist has at many points clearly and creatively imitated the Elijah Elisha narrative and has relied on this narrative as a primary source Digital Games and Mental Health Rachel Kowert, Christopher J.
