Phillips, Gordon J. Schochet**

Passions And Constraints On The Theory Of Liberal Democracy:

Passions and Constraint Stephen Holmes, 1995-06 Holmes argues that the aspirations of liberal democracy including individual liberty the equal dignity of citizens and a tolerance for diversity are best understood in relation to two central themes of classical liberal theory the psychological motivations of individuals and the necessary constraints on individual passions provided by robust institutions Paradoxically Holmes argues such institutional restraints serve to enable rather than limit or dilute effective democracy Liberal Democracies and the Torture of Their Citizens Cynthia Banham, 2017-02-09 This book analyses and compares how the USA's liberal allies responded to the use of torture against their citizens after 9/11 Did they resist tolerate or support the Bush Administration's policies concerning the mistreatment of detainees when their own citizens were implicated and what were the reasons for their actions Australia the UK and Canada are liberal democracies sharing similar political cultures values and alliances with America yet they behaved differently when their citizens caught up in the War on Terror were tortured How states responded to citizens human rights claims and predicaments was shaped in part by demands for accountability placed on the executive government by domestic actors This book argues that civil society actors in particular were influenced by nuanced differences in their national political and legal contexts that enabled or constrained human rights activism It maps the conditions under which individuals and groups were more or less likely to become engaged when fellow citizens were tortured focusing on national rights culture the domestic legal and political human rights framework and political opportunities Cuba and the Politics of Passion Damián J. Fernández, 2010-01-01 Cuban politics has long been remarkable for its passionate intensity and yet few scholars have explored the effect of emotions on political attitudes and action in Cuba or elsewhere This book thus offers an important new approach by bringing feelings back into the study of politics and showing how the politics of passion and affection have interacted to shape Cuban history throughout the twentieth century Damián Fernández characterizes the politics of passion as the pursuit of a moral absolute for the nation as a whole While such a pursuit rallied the Cuban people around charismatic leaders such as Fidel Castro Fernández finds that it also set the stage for disaffection and disconnection when the grand goal never fully materialized At the same time he reveals how the politics of affection taking care of family and friends outside the formal structures of government has paradoxically both undermined state regimes and helped them remain in power by creating an informal survival network that provides what the state cannot or will not *Poisoning the Minds of the Lower Orders* Donald Herzog, 2021-04-13 Conservatism was born as an anguished attack on democracy So argues Don Herzog in this arrestingly detailed exploration of England's responses to the French Revolution *Poisoning the Minds of the Lower Orders* ushers the reader into the politically lurid world of Regency England Deftly weaving social and intellectual history Herzog brings to life the social practices of the Enlightenment In circulating libraries and Sunday schools deferential subjects developed an avid taste for reading in coffeehouses alehouses and debating societies they boldly dared to argue

about politics Such conservatives as Edmund Burke gaped with horror fearing that what radicals applauded as the rise of rationality was really popular stupidity or worse Subjects insisted conservatives ought to defer to tradition and be comforted by illusions Urging that abstract political theories are manifest in everyday life Herzog unflinchingly explores the unsavory emotions that maintained and threatened social hierarchy Conservatives dished out an unrelenting diet of contempt But Herzog refuses to pretend that the day s radicals were saints Radicals he shows invested in contempt as enthusiastically as did conservatives Hairdressers became newly contemptible even a cultural obsession Women workers Jews and blacks were all abused by their presumed superiors Yet some of the lowly subjects Burke had the temerity to brand a swinish multitude fought back How were England s humble subjects transformed into proud citizens And just how successful was the transformation At once history and political theory absorbing and disquieting **Poisoning the Minds of the Lower Orders** challenges our own commitments to and anxieties about democracy **Routledge Handbook of Illiberalism** András Sajó, Renáta Uitz, Stephen Holmes, 2021-11-29 The Routledge Handbook of Illiberalism is the first authoritative reference work dedicated to illiberalism as a complex social political cultural legal and mental phenomenon Although illiberalism is most often discussed in political and constitutional terms its study cannot be limited to such narrow frames This Handbook comprises sixty individual chapters authored by an internationally recognized group of experts who present perspectives and viewpoints from a wide range of academic disciplines Chapters are devoted to different facets of illiberalism including the history of the idea and its competitors its implications for the economy society government and the international order and its contemporary iterations in representative countries and regions The Routledge Handbook of Illiberalism will form an important component of any library s holding it will be of benefit as an academic reference as well as being an indispensable resource for practitioners among them journalists policy makers and analysts who wish to gain an informed understanding of this complex phenomenon **The Dark Side of the Left** Richard J. Ellis, 1998 Political correctness idealizing the oppressed and an affinity for authoritarian and charismatic leaders are all parts of what Ellis calls the dark side of the left **The Oxford Handbook of Populism** Cristóbal Rovira Kaltwasser, Paul A. Taggart, Paulina Ochoa Espejo, Pierre Ostiguy, 2017-11-09 Populist forces are becoming increasingly relevant across the world and studies on populism have entered the mainstream of the political science discipline However so far no book has synthesized the ongoing debate on how to study the populist phenomenon This handbook provides state of the art research and scholarship on populism and lays out not only the cumulated knowledge on populism but also the ongoing discussions and research gaps on this topic The Oxford Handbook of Populism is divided into four sections The first presents the main conceptual approaches on populism and points out how the phenomenon in question can be empirically analyzed The second focuses on populist forces across the world and includes chapters on Africa Australia and New Zealand Central and Eastern Europe East Asia India Latin America the Post Soviet States the United States and Western Europe The third reflects on the interaction between populism and various

relevant issues both from a scholarly and political point of view Amongst other issues chapters analyze the relationship between populism and fascism foreign policy gender nationalism political parties religion social movements and technocracy Finally the fourth part includes some of the most recent normative debates on populism including chapters on populism and cosmopolitanism constitutionalism hegemony the history of popular sovereignty the idea of the people and socialism The handbook features contributions from leading experts in the field and is indispensable positioning the study of populism in political science

Lord Sumption and the Limits of the Law Richard Ekins, Paul Yowell, NW Barber, 2016-02-25 In *Lord Sumption and the Limits of the Law* leading public law scholars reflect on the nature and limits of the judicial role and its implications for human rights protection and democracy The starting point for this reflection is Lord Sumption's lecture *The Limits of the Law* which grounds a wide ranging discussion of questions including the scope and legitimacy of judicial law making the interpretation of the European Convention on Human Rights and the continuing significance and legitimacy or otherwise of the European Court of Human Rights Lord Sumption ends the volume with a substantial commentary on the responses to his lecture

Foundations of Public Law Martin Loughlin, 2012-09-27 *Foundations of Public Law* offers an account of the formation of the discipline of public law with a view to identifying its essential character explaining its particular modes of operation and specifying its unique task Building on the framework first outlined in *The Idea of Public Law* OUP 2003 the book conceives public law broadly as a type of law that comes into existence as a consequence of the secularization rationalization and positivization of the medieval idea of fundamental law Formed as a result of the changes that give birth to the modern state public law establishes the authority and legitimacy of modern governmental ordering Public law today is a universal phenomenon but its origins are European Part I of the book examines the conditions of its formation showing how much the concept borrowed from the refined debates of medieval jurists Part II then examines the nature of public law Drawing on a line of juristic inquiry that developed from the late sixteenth to the early nineteenth centuries extending from Bodin Althusius Lipsius Grotius Hobbes Spinoza Locke and Pufendorf to the later works of Montesquieu Rousseau Kant Fichte Smith and Hegel it presents an account of public law as a special type of political reason The remaining three Parts unpack the core elements of this concept state constitution and government By taking this broad approach to the subject Professor Loughlin shows how rather than being viewed as a limitation on power law is better conceived as a means by which public power is generated And by explaining the way that these core elements of state constitution and government were shaped respectively by the technological bourgeois and disciplinary revolutions of the sixteenth century through to the nineteenth century he reveals a concept of public law of considerable ambiguity complexity and resilience

Prospects for Constitutionalism in Post-Communist Countries Levent Gönenç, 2002-06-18 The last decade of the 20th century saw radical changes in Eastern Europe and the former USSR Most of these countries made a transition from totalitarianism or authoritarianism to democracy and from central planning to a market economy Adding to the latter a

number of national entities gained their independence after the disintegration of the federative states of the USSR Yugoslavia and Czechoslovakia Many recent studies have focused on these double in some cases triple transitions and scholars from different fields analyzed the so called 1989 Revolution from different perspectives Rather less scholarly attention has been paid to the future of post communist constitutions and prospects for constitutionalism in these countries The main questions dealt with throughout this study can be formulated as follows Will liberal democratic constitutionalism take root in these countries Will new constitutions in Eastern Europe and the former USSR perish or survive This study also aims at contributing to the construction of a general constitutional theory by studying the causes and dynamics of constitutional change in general Such constitutional change is not only on the East European but also on the West European agenda The purpose of this study is not to introduce a general theory about constitutional in stability but studying post communist constitutions will help us to understand the causes and dynamics of constitutional change from a broader perspective

Global Governmentality Wendy Larner, William Walters, 2004-08-02 Foucault s thoughts on governmentality have made a significant impact on the studies of power and governance in modern societies However most studies of governmentality confine themselves to the exploration of power within nation states Global Governmentality extends Foucault s political thought towards international studies exploring the governance of the global the international the regional and many other extra domestic spaces Combining historical and contemporary outlooks this book offers innovative interdisciplinary explorations of such issues as international peacekeeping refugees political rationalities of security and neoliberalism the spatiality of globalization the genealogy of development and the ethical governance of corporate activity At a time when many of the geopolitical and economic certainties which framed international affairs are in flux Global Governmentality is suggestive of new territories and lines for international analysis It will be of interest to students and researchers of both governmentality and international studies

Eternity Clauses in Democratic Constitutionalism Silvia Suteu, 2021 Comparative constitutional law has a long and distinguished history in intellectual thought and in the construction at public law Political actors and the people who create or modify their constitutional orders often wish to learn from the experience and learning of others This cross fertilization and mutual interaction has only accelerated with the onset of globalization which has transformed the world into an interconnected web that facilitates dialogue and linkages across international and regional structures Oxford Comparative Constitutionalism seeks to publish scholarship of the highest quality in constitutional law that deepens our knowledge of local national regional and global phenomena through the lens of comparative public law Book jacket

Michel Foucault David Owen, 2017-05-15 Michel Foucault was one of the twentieth century s most influential thinkers whose work has unsettled and transformed the field of social philosophy and the social sciences The essays and articles selected for this volume are written by many of the most important of Foucault s interpreters and interlocutors and show the range of Foucault s influence and the debates it has

provoked about Foucault's own approaches and in relation to substantive areas of social philosophy and social science such as power critique enlightenment law governance ethics and truthfulness This volume provides a comprehensive introduction to and overview of the development of Foucault's thought and demonstrates its enduring significance on our understanding of how we have become what we are

Carl Schmitt's Critique of Liberalism John P. McCormick, 1997 This is the first in depth critical appraisal in English of the political legal and cultural writings of Carl Schmitt perhaps this century's most brilliant critic of liberalism It offers an assessment of this most sophisticated of fascist theorists without attempting either to apologise for or demonise him Schmitt's Weimar writings confront the role of technology as it finds expression through the principles and practices of liberalism Contemporary political conditions such as disaffection with liberalism and the rise of extremist political organizations have rendered Schmitt's work both relevant and insightful John McCormick examines why technology becomes a rallying cry for both right and left wing intellectuals at times when liberalism appears anachronistic and shows the continuities between Weimar's ideological debates and those of our own age

In the Name of Liberalism Desmond S. King, 1999 Why have British and North American governments adopted illiberal social policies during this century *In the Name of Liberalism* investigates examples of social policy in Britain and the United States that conflict with liberal democratic ideals The book examines the use of eugenic arguments in the 1920s and 1930s the use of work camps in the 1930s as a response to mass unemployment and the introduction of work for welfare programs since the 1980s The book argues that existing accounts of American and British political development neglect how illiberal social policies are intertwined in the creation of modern liberal democratic institutions Such policies are paradoxically justified in terms of the liberal democratic framework itself In the light of the book's research the author suggests that there is a need to know more about the internal workings of democracies to justify the claim that liberal democracy represents the most attractive set of political institutions

Leadership, Populism, and Resistance Kristin M.S. Bezio, George R. Goethals, 2020-02-28 *Leadership Populism and Resistance* draws upon the study of history politics policy media virtue and heroism to examine the ways in which populism and popular movements have evolved what we have learned and failed to learn from them how we depict and discuss them through popular media and the press and finally how we can understand virtue and heroism as a consequence or reaction to populism and popularity

Popular Sovereignty in Early Modern Constitutional Thought Daniel Lee, 2016-02-18 Popular sovereignty the doctrine that the public powers of state originate in a concessive grant of power from the people is the cardinal doctrine of modern constitutional theory placing full constitutional authority in the people at large rather than in the hands of judges kings or a political elite This book explores the intellectual origins of this influential doctrine and investigates its chief source in late medieval and early modern thought the legal science of Roman law Long regarded the principal source for modern legal reasoning Roman law had a profound impact on the major architects of popular sovereignty such as François Hotman Jean Bodin and Hugo Grotius Adopting the juridical language of obligations

property and personality as well as the classical model of the Roman constitution these jurists crafted a uniform theory that located the right of sovereignty in the people at large as the legal owners of state authority In recovering the origins of popular sovereignty the book demonstrates the importance of the Roman law as a chief source of modern constitutional thought

The Moralization of the Markets Christoph Henning, 2017-07-12 Nothing affects the modern economy and society more than decisions made in the market place especially but not only decisions made by consumers Although it is not startling to suggest that decisions made in production are affected by choices consumers make consumers have long been viewed not only by academic economists as individual isolated rational actors that make or refrain from purchases purely on the basis of narrow financial considerations Markets are not and never were morally neutral Market relations have always had an often taken for granted moral underpinning The moralization of the markets refers to the dissolution and replacement of the conventional moral underpinnings of market conduct for example in the music market financial markets and corporate governance It further implies not only the heightened importance of new ethical precepts but the significant change in the role of moral ideals in market behavior These profound transformations of economic conduct are accompanied and co determined by societal conflicts The moralization of markets represents thus a new stage in the social evolution of markets The book is divided into four parts in which the twelve chapters written by contributors from different social science disciplines deal with the context of the moralization of the markets the major social institutions and present case studies that examine European and American attitudes and behavior towards tobacco and GMO expansion of the private and ethics in business and how workers respond to the new corporate norms This volume will be of interest to sociologists economists social scientists and the general consumer alike

Publius and Political Imagination Jason Frank, 2013-12-05 Jason Frank's *Publius and Political Imagination* is the first volume of the Modernity and Political Thought series to take as its focus not a single author but collaboration between political thinkers in this very special case the collective known by the pseudonym Publius Frank's revisionist reading of *The Federalist Papers* perhaps the most canonical text in American political thought counters familiar realist and deliberativist interpretations and demonstrates the neglected importance of political imagination to both Publius's arguments and to the republic he was invented to found

Questions of Tradition Mark Salber Phillips, Mark Phillips, Gordon J. Schochet, 2004-01-01 Tradition is a central concern for a wide range of academic disciplines interested in problems of transmitting culture across generations Yet the concept itself has received remarkably little analysis A substantial literature has grown up around the notion of invented tradition but no clear concept of tradition is to be found in these writings since the very notion of invented tradition presupposes a prior concept of tradition and is empty without one this debunking usage has done as much to obscure the idea as to clarify it In the absence of a shared concept the various disciplines have created their own vocabularies to address the subject Useful as they are these specialized vocabularies of which the best known include hybridity canonicity diaspora paradigm and contact zones separate the

disciplines and therefore necessarily create only a collection of parochial and disjointed approaches Until now there has been no concerted attempt to put the various disciplines in conversation with one another around the problem of tradition Combining discussions of the idea of tradition by major scholars from a variety of disciplines with synoptic synthesizing essays Questions of Tradition will initiate a renewal of interest in this vital subject

Passions And Constraints On The Theory Of Liberal Democracy Book Review: Unveiling the Power of Words

In a world driven by information and connectivity, the energy of words has been more evident than ever. They have the ability to inspire, provoke, and ignite change. Such is the essence of the book **Passions And Constraints On The Theory Of Liberal Democracy**, a literary masterpiece that delves deep into the significance of words and their effect on our lives. Written by a renowned author, this captivating work takes readers on a transformative journey, unraveling the secrets and potential behind every word. In this review, we shall explore the book's key themes, examine its writing style, and analyze its overall effect on readers.

Passions And Constraints On The Theory Of Liberal Democracy Introduction

In the digital age, access to information has become easier than ever before. The ability to download *Passions And Constraints On The Theory Of Liberal Democracy* has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download *Passions And Constraints On The Theory Of Liberal Democracy* has opened up a world of possibilities. Downloading *Passions And Constraints On The Theory Of Liberal Democracy* provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading *Passions And Constraints On The Theory Of Liberal Democracy* has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download *Passions And Constraints On The Theory Of Liberal Democracy*. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading *Passions And Constraints On The Theory Of Liberal Democracy*. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading *Passions And Constraints On The Theory Of Liberal Democracy*, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves,

individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Passions And Constraints On The Theory Of Liberal Democracy has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Passions And Constraints On The Theory Of Liberal Democracy Books

1. Where can I buy Passions And Constraints On The Theory Of Liberal Democracy books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Passions And Constraints On The Theory Of Liberal Democracy book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Passions And Constraints On The Theory Of Liberal Democracy books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Passions And Constraints On The Theory Of Liberal Democracy audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible,

LibriVox, and Google Play Books offer a wide selection of audiobooks.

8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Passions And Constraints On The Theory Of Liberal Democracy books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
