Passions Flight:

Flights Of Passion Simone Beaudelaire, 2022-07-04 A collection of four paranormal romance novels by author Simone Beaudelaire now in one volume Please note that the books in this collection contain graphic sex scenes and are not suitable for readers under the age of 18

Watching Over The Watcher Psychic Selene Johansen is an excellent police investigator able to determine guilt from the first handshake But while her talent for fact finding keeps her busy her personal life is lonely after all who wants to date a girl who can read minds Selene's consuming solitude dissolves when she learns longtime friend Brandon Price knows about her psychic gift and her secret love for him As their relationship heats up Selene dares let her guard down not realizing that a ruthless stalker is determined to put an end to the couple's passion and their lives

Polar Heat Polar bear shapeshifter Russell is content with his isolated life in a small Alaskan town That is until the arrival of a kindergarten teacher from the lower 48 blows Russell's comfortable world to pieces One whiff of Riley Jenkins compelling scent and Russ is a goner But how can he explain all that he is to this innocent young woman and will her own dark past prevent their fated love from turning into a happily ever after

The Naphil's Kiss Since ancient times the angelic Nephilim have protected the children of men These chaste eternal warriors stand between humanity and the Succubae daughters of Lilith who drain men of their will through seduction Until the day one Naphil Lucien encounters the succubus Sarahi That day a creature of darkness sick of the shadows lifts her face towards heaven and discovers something she never dreamed she would find love But their love is overshadowed as the long foretold war between angels and demons threatens to break over the land For prophecy states that from the mingling of these races will come a warrior who holds the key to victory or utter destruction

The Key To Eternity From the moment she arrived to California architect Lia knows her working trip to the west coast is a disaster The company that hired her seems determined to discredit both her work and her professionalism Lia's only consolation is Aiden a sexy stranger she meets on Venice Beach As mystery piles on mystery nothing remains constant Even Lia's own nature comes into question as a dark force seeks to claim her for its own evil ends But is Aiden's sexuality his only power or is he a creature from another time and place

Deleuze and the Passions Ceciel Meiborg (Ed.), Sjoerd van Tuinen, 2016 In recent years the humanities social sciences and neuroscience have witnessed an affective turn especially in discourses around post Fordist labor economic and ecological crises populism and identity politics mental health and political struggle This new awareness would be unthinkable without the pioneering work of Gilles Deleuze who replaced judgment with affect as the very material movement of thought every concept is an affective experience a becoming Besides entirely active affects the highest practice of thought there is no thought without passive affects or passions Instead of a calm and rational philosophy of passions Deleuzian thought is therefore inseparable from isolated and passionate cries that deny what everybody knows and what nobody can deny every true thought is an aggression This inseparability of reason and passion is by no means an anti intellectualist or irrationalist stance Rather it is critical since it protects reason from its self imposed

stupidity by relating it to the unthought forces that condition it And it is clinical because thought becomes possessed by a power of selection The purely active i e free floating unrecorded desire is never enough to produce a consistent relation to the future which is why we need the passions to give us an initial orientation to force and enable us to think Passions are the beliefs perceptions representations and opinions that attach us to the world they make up the very material of which our lives and thoughts are composed Instead of truth as the ultimate criterion of judgment the only principle according to which affective becomings can be selected and evaluated is the extent to which they proliferate joy Spinoza and Marx show how the recruitment of desire traditionally takes place through the tyrants and priests who inspire sad passions in us Similarly the work of Deleuze and Guattari on capitalism and schizophrenia can be read as an encyclopedia of the passions that constitute the affective infrastructure of the socius of contemporary capitalism If it takes a lot of inventiveness or imagination to be able to diagnose our present becomings this is because becomings are always composites of joyful and sad passions Capitalism could not exist if it did not also inspire happiness love courage and perhaps even beatitude That is why today we witness the spectacle of the happily dominated Fr d ric Lordon of the self entrepreneur the managerial class the flex worker the citizen consumer the bean roasting hipster and the self managed team It is within this field of contradictory and heterogeneous passions that the authors of this volume pursue the diagnosis of our past and present becomings Their contributions add up to a systematic taxonomy of the passions and indicate their importance for a thinking that reaches beyond itself

Overcoming the

Exploitation of Passion in Videogame Labor Joshua Jackson, 2023-02-06 Overcoming the Exploitation of Passion in Videogame Labor Playing with Passion examines the intersection of passion precarity and collocation to pinpoint where and how interventions can be made towards better working conditions Jackson contends that videogames and passion are inextricably linked and explores this intrinsic link where passion is expected and valorized be it in the context of play work or culture Passion Jackson argues is the connective tissue that sews together the shared experiences that people all over the world will undertake through videogames including winning close matches experiencing new worlds and forging new friendships This book interrogates the outcomes of labor videogames and passion colliding work and play become inextricably linked and suddenly a passion for games becomes an insistent and expected passion for work This Jackson ultimately posits leads to the current reality of much of the videogame production industry where passion is used as a workplace policing tool and a way to push workers to periods of extended work or crunch periods Through theorizations regarding passion bodies assembly and assemblage this text wrestles with what can be done to manifest real change in the videogame industry Scholars of media studies technology and labor studies will find this book of particular interest
