Passions Dawn:

Dawn's Dark Fantasies: Pick Your Passion: A First-In-Series Box Set Tessa Dawn, 2018-08-12 Passion's Vision Mary Adair, 2010-07-25 Passion's Vision James Fitz Gerald is an agent in the court of King George II James is on a mission from his King when he arrives in the village called Chota Town It does not take him long to realize there is a power beyond the King at work among the Cherokee New Moon sister to Chief Dancing Cloud is a warrior in her own right She will run through the wilds of a savage country to save the life of the man she has chosen When James arrives in her village she is reminded of the troubling vision sent to her by the Great Spirit She vows she will never choose him Passion s Vision is the story of the love that grows between an agent in the court of King George II and a Cherokee Princess Their lives are destined to be filled with adventure and triumph sometimes with loss and pain but always with passion Passions of the First Wave Feminists Susan Magarey, 2001 This work offers a new view of suffrage era feminism in Australia located in rich cultural social and political context which also presents a new view of the decades around federation Girl Behind the Fence: Anger Mozelle Martin, Ph.D., 2018-11-01 It may surprise you to know that 70% of human behavior is based on emotions not logic In fact it is very easy to get increasingly irritated at people places and things As an example does any of this scenario sound familiar It's Monday morning and you are ready to face the day Everything at home is calm pets are happy coffee is ready your hair and make up turned out great and you look and feed good You get in the car and slowly and methodically enter the parking lot otherwise known as morning rush hour You finally get some open space and as you move into the fast lane a very slow driver creeps out in front of you As you hit the brakes with required force you take a deep breath think a few unkind things but try to let it go At lunch time the retired guy in front of you is bitchin about the one too many pickles he got on his burger and now you are running late You decide to eat on the way back to the office only to find your order is completely wrong How dare that inconsiderate old man ruin your lunch over a damn pickle I bet he couldn't really taste the difference anyway With no time to go back to the restaurant you turn on the radio to invite a pleasant distraction only to hear about a highway shooter racial rant or political attack As you continue on all you can think about is how your whole day has been ruined by idiots Unfortunately a version of this story is all too common for many which makes it that much easier to feel the anger around us from our own children and spouse to our parents siblings co workers and even complete strangers Animal lovers are angry because people eat meat vegans are angry because of Monsanto dancers are angry because a non dancer was chosen for their event poster environmentalists are angry because of developers young mothers are angry over immunizations and the list goes on Yet anger which is characterized by a feeling of antagonism toward someone or something that you feel has deliberately done you wrong is not always bad In fact angry feelings often provide the motivation needed to solve social issues such as gender inequality the environment minimum or stagnant wages taxes and student loans This was the case with many historical figures such as Martin Luther King Mother Teresa and Mahatma Gandhi Science has

shown us that nothing exists without it s opposite Unfortunately science has also shown us some disturbing facts Recently through extensive research on the topic of anger The Mental Health Organization Gallup Polls Duke University National Mental Health Institute and others have openly shared these statistics 64% of the population view the world as an increasingly angry place 32% of the population has a close friend or family member with out of control anger 12% of the population admits to having trouble controlling their own anger 28% of the population admits they are worried about their current level of anger 20% of couples have ended in divorce because of the behavior of the angry partner during the outburst Only 13% of those with out of control anger have actually sought help for it 58% of angry people don t know where to seek help in their communities 84% of the population agrees that angry people should seek help for their anger 62% of those who did seek help with anger did so from counselors therapists and medical professionals not friends or family members 10% of adults have a long history of explosive anger and have access to a firearm This significantly increases the risk when anger develops 8% of adolescents up to age 12 are diagnosed with a mental illness known as intermittent explosive disorder which is three times more common in boys than girls This is usually inherited from a mother who has a history of high anxiety Without treatment this continues into adulthood Of these diagnosed adolescents 6.5% were treated for their anger while the others were treated for depression or substance abuse 80% of drivers admitted to road rage Of these 51% tailgated 45% honked 33% used angry gestures 47% yelled 24% blocked the lanes 12% cut another driver off 4% physically got out of the car to approach the other driver and 3% rammed into the other driver's vehicle Many used several of these in the same occurrence Additionally the majority of the 80% are from states with four distinct seasons Most aggressive acts are committed by males between 19 39 years old Males are three times more likely than females to act on anger One third of all deaths by firearm are homicides Regardless of age gender or geographical location anger is cumulative You may be able to control your anger 10 times but on the 11th time when something seemingly small occurs you erupt out of control While it is nice to know that research has verified these facts that help us increase our own personal and community awareness science also proves we mellow as we age In other words as our anxiety calms down so does our anger which allows us to become more conscientious agreeable accepting responsible compassionate and emotionally stable All of this information is interesting BUT do you really want to walk around another 20 30 or 40 years feeling this way Likely not That is why this book exists to help you stop sabotaging jobs relationships and happiness It takes a strong desire and willingness to do the work that can change your angry attitude and the benefits are worth it Unfortunately anger can become habitual in one s brain and that s why it is hard work The goal with this book is to share personal stories tips and tools to help you successfully make it to your elder years Once there biology will take over and do the work for you FIND OUT IF YOU COULD BENEFIT FROM RECEIVING HELP FOR YOUR ANGER 1 Do you get angry over small things or even for no obvious reason at all 2 Do you have a difficult time not thinking about whatever or whoever made you angry 3 When you feel angry do you wish to break

something or beat someone up 4 Do you easily get irritated when people do not understand you 5 Do you embarrass family friends or coworkers with angry outbursts 6 Do you get irritated when people in front of you drive the exact speed limit 7 Do you easily get irritated when people do things they shouldn't like go barefoot in the store smoke in a non smoking area or have more than 10 items in the express checkout lane 8 Do you yell or curse when irritated but not do so when you are in a good mood 9 Do you get easily frustrated when machines equipment or technology breaks or does not work as expected 10 Do you get irritated when people take advantage of you or when people are idiots incompetent The more yes answers you have the more you are struggling with anger issues Inside of this book are the stories of 18 women who just like you have felt consumed by anger Contrary to popular belief anger is neither good nor bad it is your reaction that matters most Did you know that suppressing your anger can also be destructive to your health Yet as we already viewed expressing anger constructively can be a powerful catalyst for change The personal insights tips and tools in this book can help you put the brakes on your anger just when you need it most Pursuit of Passionate Purpose Theresa M. Szczurek, 2005-01-07 In Pursuit of Passionate Purpose self help guru Theresa Szczurek reveals that the real key to a successful and happy life is in knowing what it is that you truly desire and pursuing it with determination Based on the everyday wisdom of eighty successful people from all walks of life along with the practical strategies she used to pursue her own passion Szczurek presents a proven step by step plan for effectively pursuing whatever your passionate purpose is By emulating the six strategies characteristics that almost all truly successful people share you ll discover who you really are what you really want from life and how to achieve it Girl Behind the Fence: Depression Mozelle Martin, Ph.D., 2019-10-27 You no longer have to be ne of over 300 million people struggling with depression Depression affects over 18 million adults in the United States alone and over 300 million worldwide Yet many people are too embarrassed to seek help tell themselves they are over reacting or don't know that depression is considered a serious medical disorder of the brain In fact under the umbrella of depression there are also other diagnoses such as bipolar disorder postpartum depression and post traumatic stress disorder The National Institute of Mental Health shared these shocking statistics Because of depression workers miss a combined total of 490 million work days per year which causes a combined annual economic loss for businesses of over 100 billion Bipolar Disorder affects 6 3 million people in the United States alone Depression is the leading cause of suicide with one person dying by suicide every 13 minutes Postpartum Depression affects 15% of new mothers within a month of delivering their baby Post Traumatic Stress Disorder PTSD affects 8 million adults each year Suicide is the 10th leading cause of death with an average of 1 400 000 suicide attempts each year which is an average of 3 600 people attempting to end their life each day The World Health Organization WHO rates severe depression in the same disability category as terminal cancer stating that depression is the 1 cause of disability for ages 15 44 While it s important to understand that everybody feels down at times if your down days interrupt yourself care relationships or career you are likely depressed The more you

answer yes to the included questionnaire the more likely you could be clinically diagnosed with depression Therefore inside of this book are the stories of women from around the world who have struggled with depression just like you Their personal stories tips and tools may be just what you need to help conquer the down days Gay Midlife and Maturity John Alan Lee, 1991 Aging is stressful for anyone in youth oriented Western societies Elderly people encounter difficulties and discrimination sometimes because of reduced income transportation and housing problems and failing health but often due to the persistent negative stereotypes that color others attitudes and behavior toward old people Gay men and lesbians experience these stresses as well as the numerous additional problems associated with their sexual orientation Gay Midlife and Maturity is a dynamic and positive volume that challenges the long held stereotype of the sad and lonely old homosexual A growing body of international literature much of which is featured in this book rejects this myth and illustrates that older gay men and lesbians cope well with the aging process and are comparable to younger homosexuals in social and psychological adjustment A much needed and major contribution Gay Midlife and Maturity contains an enormous amount of information for readers interested in gerontology and homosexuality Experts for the first time examine the relationship between the adjustment of gay people to later life and the age and sequence of the resolution of these typically early developmental processes raising many questions about traditional theories of gay development. The existing contradictions and debates about gay men and accelerated aging are addressed Other valuable chapters focus on a theory of successful aging a comparison of the traditional gay community pre Stonewall versus the organized gay community the vital role of communication in gay relationships the sexual attitudes and behaviors of older gay men and much more Additional interesting and worthwhile chapters of this thought provoking new book include an in depth interview with Don Bachardy about his 33 year relationship Christopher Isherwood a renowned English writer who was 30 years his senior and a review of the growing literature on gay aging The Suffering Son of David in Matthew's Passion Narrative Nathan C. Johnson, 2023-11-23 In this book Nathan C Johnson offers the first full scale study of David traditions in the Gospel of Matthew's story of Jesus's death He offers a solution to the tension between Matthew's assertion that Jesus is the Davidic messiah and his humiliating death To convince readers of his claim that Jesus was the Davidic messiah Matthew would have to bridge the gap between messianic status and disgraceful execution Johnson s proposed solution to this conundrum is widely overlooked yet refreshingly simple He shows how Matthew makes his case for Jesus as the Davidic messiah in the passion narrative by alluding to texts in which David too suffered Matthew thereby participates in a common intertextual Jewish approach to messianism Indeed by alluding to suffering David texts Matthew attempts to turn the tables of the problem of a crucified messiah by portraying Jesus as the Davidic messiah not despite but because of his suffering
