The Way of Passion Andrew Harvey, 2013-07-23 A modern mystic and religious scholar presents a stunning collection of Rumi poems and reveals how the Sufi poet's words can guide us through spiritual and ecological crisis The minds of two mystics intermingle in a work of inspired vision and clarity Jalalud Din Rumi enlightened spiritualist poet of Sufism has been venerated by Moslems everywhere since his death in 1273 No other poet in history not even Shakespeare or Dante has made so exalted and comprehensive an impact on his own civilization In the latter part of the 20th century he has become for people of every race and creed the poet of the new mystical Renaissance that is slowly but surely coming to its flowering No one has done more than Andrew Harvey to spread popular awareness of Rumi's message Himself a charismatic mystic he has spent the last 20 years of his life in search of the essential truths that could transform the spiritual barrenness at the heart of modern Western civilization In his books *Love's Fire* and *Speaking Flame* he has re created Rumi's poems with a brilliance that speaks

eloquently to us today The Way of Passion draws on the poems to present a guide to the contemporary spiritual and ecological crisis Each chapter Harvey tells us is a dance a dance of mirrors in which essential spiritual themes return to be reflected in different constellations and harmonies a dance around Rumi and that mystery of Love he lived and expressed so completely Inspired by Rumi's voice and by his own startling ability to see into the innermost heart of life Harvey urges us to change to have faith and to act through Love to transform this time of Apocalypse into the time of Resurrection The passion of his words shines from the pages with an intensity that can embrace and inspire us all **Two Voices in One** Chan Sin-wai, Laurence Wong, 2014-07-03 Two Voices in One Essays in Asian and Translation Studies is a collection of papers by eight scholars of international standing Concentrating on what really makes Asian and Translation Studies fascinating and worth one's while it opens the reader's eyes to new horizons horizons not found in collections or monographs that look at either discipline in isolation In going through the collection the reader will see how a translation problem can rear a yellow ochre head why a Chinese garden can become a source language text and in what way a commentary can shine with Multiflorate Splendour Emerging from the surreal world the reader must be prepared first to have his/her breath taken away by a translation project on a truly grand scale then to see the difference between the page and the stage and finally to be amazed by the speed at which computer aided translation has been developing With equal amazement the reader will learn that Chinese can sometimes be more effectively taught not through Chinese but through translation and that the Greek philosopher Aristotle and the Chinese philosopher Mencius are linked not only by philosophy but also by translation
