Boles, Randal L. Hall, 2010-08-31 Thomas Jefferson's ideas have been so important in shaping the character and aspirations of the United States that it has proven impossible to think about the state of the nation at almost any moment without implicit or explicit reference to his words and actions In similar fashion each generation has understood Jefferson in the context of the central issues of its time Jefferson has for better or for worse been a man for all seasons The essays in this collection seek to update and reevaluate several key aspects of Jefferson's attitudes and policies in light of the newest research and at the same time take care to consider his ideas about such controversial topics as race gender and religion in the context of his own time and place Simultaneously the contributing authors analyze the relevance of Jefferson for our own age conscious of how contemporary judgments about slavery religion and Native Americans for example shape our coming to terms with the nation's history Here is no simple search for a usable past but instead a tough minded but fair examination of a complex man who in fundamental ways represents both the promise and the problems of the American experience Contributors John B. The Wild Vine Todd Kliman,2010-05-04 A rich romp through untold American history featuring fabulous characters The Wild Vine is the tale of a little known American grape that rocked the fine wine world of the nineteenth century and is poised to do so again today Author Todd Kliman sets out on an epic quest to unravel the mystery behind Norton a grape used to make a Missouri wine that claimed a prestigious gold medal at an international exhibition in Vienna in 1873 At a time when the vineyards of France were being ravaged by phylloxera this grape seemed to promise a bright future for a truly American brand of wine making earthy and wild And then Norton all but vanished What happened The narrative begins more than a hundred years before California wines were thought to have put America on the map as a wine making nation and weaves together the lives of a fascinating cast of renegades We encounter the suicidal Dr Daniel Norton tinkering in his experimental garden in 1820s Richmond Virginia Half on purpose and half by chance he creates a hybrid grape that can withstand the harsh New World climate and produce good drinkable wine thus succeeding where so many others had failed so fantastically before from the Jamestown colonists to Thomas Jefferson himself Thanks to an influential Long Island New York seed catalog the grape moves west where it is picked up in Missouri by German immigrants who craft the historic 1873 bottling Prohibition sees these vineyards burned to the ground by government order but bootleggers keep the grape alive in hidden backwoods plots Generations later retired Air Force pilot Dennis Horton who grew up playing in the abandoned wine caves of the very winery that produced the 1873 Norton brings cuttings of the grape back home to Virginia Here dot com millionaire turned vintner Jenni McCloud on an

improbable journey of her own becomes Norton's ultimate champion deciding against all odds to stake her entire reputation on the outsider grape. Brilliant and provocative, *The Wild Vine* shares with readers a great American secret: resuscitating the Norton grape and its elusive inky drink and forever changing the way we look at wine in America and long-cherished notions of identity and reinvention.

Thomas Jefferson Lowell Catlett, 2004. *Thomas Jefferson: A Free Mind* is a collection of essays about the talented third president. Thomas Jefferson's impact on the United States and world was large when he was alive over 200 years ago, but his impact today is even larger. As we celebrate the 200th anniversary of the Lewis and Clark expedition, Jefferson's contribution to America becomes more evident. As America deals with terrorists in the 21st century, we are reminded that Thomas Jefferson was the first president to confront with military force the Barbary pirate terrorists in the early 1800s. The twenty-two essays cover not only the Corps of Discovery and the Barbary pirates but Jefferson's impacts on architecture, law, political thinking, wine, and the French revolution, just to name a few. Thomas Jefferson was interested in almost everything, and this book of essays traverses many of his life-long pursuits. We are enriched today because of Jefferson's stubborn persistence in the belief of public education. Our university grounds are all modeled after his stunningly beautiful campus concept for his University of Virginia. Many of the rights we take for granted today are rooted in Thomas Jefferson's early arguments as a new lawyer for natural rights. The more we know of Jefferson, the more we find his fingerprints on modern-day culture, style, and life.

Inventing Wine: A New History of One of the World's Most Ancient Pleasures Paul Lukacs, 2013-10-21. Meticulously researched, history looks at how wine and Western civilization grew up together. Dave McIntyre, *Washington Post*. Because science and technology have opened new avenues for vintners, our taste in wine has grown ever more diverse. Wine is now the subject of careful chemistry and global demand. Paul Lukacs recounts the journey of wine through history: how wine acquired its social cachet, how vintners discovered the twin importance of place and grape, and how a basic need evolved into a realm of choice.

Jefferson Davis, Napoleonic France, and the Nature of Confederate Ideology, 1815-1870 Jeffrey Zengrowski, 2020-01-06. In this highly original study of Confederate ideology and politics, Jeffrey Zengrowski suggests that Confederate president Jefferson Davis and his supporters saw Bonapartist France as a model for the Confederate States of America. They viewed themselves as struggling not so much for the preservation of slavery but for antebellum Democratic ideals of equality and white supremacy. The faction dominated the Confederate government and deemed Republicans a coalition controlled by pro-British abolitionists championing inequality among whites. Like Napoleon I and Napoleon III, pro-Davis Confederates desired to build an industrial nation-state capable of waging Napoleonic-style warfare with large conscripted armies. States' rights, they believed, should not preclude the national government from exercising power. Anglophile anti-Davis Confederates, in contrast, advocated inequality among whites, favored radical states' rights, and supported slavery in the abstract theories that were dismissive of white supremacy. Having opposed pro-Davis Democrats before the war, they preferred decentralized guerrilla warfare to Napoleonic

campaigns and hoped for support from Britain. The Confederacy they avowed would willingly become a de facto British agricultural colony upon achieving independence. Pro Davis Confederates wanted the Confederacy to become an ally of France and protector of sympathetic northern states. Zengrowski traces the origins of the pro Davis Confederate ideology to Jeffersonian Democrats and their faction of War Hawks who lost power on the national level in the 1820s but regained it during Davis' term as secretary of war. Davis used this position to cultivate friendly relations with France and later warned northerners that the South would secede if Republicans captured the White House. When Lincoln won the 1860 election, Davis endorsed secession. The ideological heirs of the pro British faction soon came to loathe Davis for antagonizing Britain and for offering to accept gradual emancipation in exchange for direct assistance from French soldiers in Mexico. Zengrowski's important new interpretation of Confederate ideology situates the Civil War in a global context of imperial competition. It also shows how anti Davis ex Confederates came to dominate the postwar South and obscure the true nature of Confederate ideology. Furthermore, it updates the biographies of familiar characters: John C. Calhoun who befriended Bonapartist officers; Davis who was as much a Francophile as his namesake Thomas Jefferson; and Robert E. Lee who as West Point's superintendent mentored a grand nephew of Napoleon I.
