Modernist America Richard Pells, 2011-03-29 America's global cultural impact is largely seen as one sided with critics claiming that it has undermined other countries languages and traditions But contrary to popular belief the cultural relationship between the United States and the world has been reciprocal says Richard Pells The United States not only plays a large role in shaping international entertainment and tastes it is also a consumer of foreign intellectual and artistic influences Pells reveals how the American artists novelists composers jazz musicians and filmmakers who were part of the Modernist movement were greatly influenced by outside ideas and techniques People across the globe found familiarities in American entertainment resulting in a universal culture that has dominated the twentieth and twenty first centuries and fulfilled the aim of the Modernist movement to make the modern world seem more intelligible Modernist America brilliantly explains why George Gershwin's music Cole Porter's lyrics Jackson Pollock's paintings Bob Fosse's choreography Marlon Brando's acting and Orson Welles's storytelling were so influential and why these and other artists and entertainers simultaneously represent both an American and a modern global culture

The Film Anthologies Index Stephen E. Bowles, 1994-10 The Film Anthologies Index is a bibliographical resource essential to any person or institution interested in the study of film No publication or database currently indexes the contents of these important anthologies There are over 600 anthologies by both multiple and single authors in English that have been published through 1991 These anthologies contain over 10 000 stand alone pieces that 1 reprint articles from their original source 2 select excerpts from book length publications and 3 include original essays appearing only in a specialized anthology Without The Film Anthologies Index the researcher would have no guide to the valuable contents between the covers of these anthologies Much more than just a guide to the contents of anthologies the main section consists of 6 563 numbered entries that alphabetically list by author the contents of each piece found in the anthologies You could find for example all pieces written by a particular author which have appeared in the anthologies Additionally every author entry refers the user to all the anthologized sources which contain each specific piece For example Robert Warshow's landmark essay on Movie Chronicle The Westerner can be found in 9 different anthologies or that selected essays by Sergei Einstein appear in over 50 separate anthologies Without The Film Anthologies Index there would be no way to systematically locate these buried treasures The final section of The Film Anthologies Index consists of an extensive listing of all film titles individual names specific genres countries periods studios etc as well as all key words and phrases that appear in the titles of the included pieces There are approximately 7000 topics covered in this section The user friendly layout of this reference source makes it both a comprehensive resource for everyone from the casual movie goer who wants a deeper understanding of the medium to the dedicated film scholar who is pursuing material on
