Bowker Company. Department of Bibliography, R.R. Bowker Company. Publications Systems Department, 1983 **AB Bookman's Weekly** ,1992

Imagining Native America in Music Michael V Pisani, 2008-10-01 This book offers a comprehensive look at musical representations of native America from the pre colonial past through the American West and up to the present The discussion covers a wide range of topics from the ballets of Lully in the court of Louis XIV to popular ballads of the nineteenth century from eighteenth century British American theater to the musical theater of Irving Berlin from chamber music by Dvořák to film music for Apaches in Hollywood Westerns Michael Pisani demonstrates how European colonists and their descendants were fascinated by the idea of race and ethnicity in music and he examines how music contributed to the complex process of cultural mediation Pisani reveals how certain themes and metaphors changed over the centuries and shows how much of this Indian music which was and continues to be largely imagined alternately idealized and vilified the peoples of native America

Book Review Digest ,1910 *Geographies of Travel* Susan L. Roberson, 2025-05-01 Travel writing was the most popular genre of writing in the nineteenth century Initially published in newspapers and journals as dispatches from the road these works allowed readers to join in on fabulous adventures by becoming armchair tourists second hand voyeurs of the peoples and places the writer visited In order to take readers along on their journeys travel writers typically recorded miles covered and dates of travel in a log or diary They also documented key details of the experience itself describing the conditions of the road the people they met and their accommodations food and clothing The nineteenth century specifically offered a form of travel writing that commented on the ruined environment that ran afoul of the century's ethos of progress with voices such as Henry David Thoreau John Muir and John James Audubon exploring a newfound environmental consciousness *Geographies of Travel* is organized geographically by region with essays examining local journeys in the Northeast Midwest Far West and the South This regional arrangement allows readers to consider the geographic imagination of each region and the kinds of travel it invited as well as providing valuable insight on the ways in which Americans reacted to both natural and social regional landscapes Each region is treated chronologically so as to interrogate not only individual narratives but also the ways that travel tourism and modes of transportation evolved over time The work concludes with an examination of Henry James's *The American Scene* in a coda that brings together his astute observations of the Northeast and the South at the turn of the century Occasional interludes point to the ways that travel reverberates in the artistic work of some of the authors making connections between travel and the imagination **Catalog of Copyright Entries, Third**
