Past And Present California:

A History of California and an Extended History of Los Angeles and Environs James Miller Guinn,1915

California, Its Past History, Its Present Position, Its Future Prospects G. A. Fleming,1850 The hand colored plates are of exceptional quality and the engraved frontispiece is one of the glories of Gold Rush literature Kurutz The California Gold Rush 242 Despite some bibliographical confusion as discussed by Kurutz the three plates would seem to be all the illustrations intended to have been issued with the book This guide is a perfectly serious one intended to be of actual use to an English emigrant Opening with a review of English law and regulations concerning ships carrying emigrants it soon moves to a general description of the area and its history mostly drawn from secondary sources such as Fremont and Vizetelly Written principally for the poor those for whom the mind succumbs to the stomach the author puts forth the proposition that those who can successfully practice a trade in California will ultimately prosper more than those who merely seek gold Sloan

California Bruce Zuckerman, William Deverell, Lisa Ansell, 2009 With this volume of the Casden Annual Review we continue our policy of focusing on a single topic and in this case the topic we have turned to is quite literally close to home the Jewish role in California life The aim of this volume is to stress the cultural aspects of the Jewish experience of coming to and living in the Golden State While we cannot hope to present in this limited venue a comprehensive and detailed history of Jews in California per se it is our goal to consider a number of insightful perspectives on how the Jews who settled in California helped shape the Golden State's culture and were in turn themselves molded by cultural influences that were uniquely Californian While this volume looks at the Jewish experience in California in general nonetheless particular emphasis is placed on Southern California We begin our cultural history at a crucial moment in California history the mid nineteenth century in the after glow of the California Gold Rush where we encounter a European Jewish emigrant fresh off the boat who can and did get a chance to make a fortune in the pueblo of Los Angeles and in doing so helped define what California is We conclude it with a personal meditation from one of the latest group of refugees to come to the west the Iranian Jews who were forced out of their ancient homeland some thirty years ago and who found in Southern California a particularly hospitable yet no less difficult place to transplant their cultural roots In between we are treated to a few choice snapshots of how life developed and changed for Jews in California as California itself evolved and grew We firmly believe that there is something special about the Jewish role in California and even more so in Southern California that here on the lower left coast Jews have had an Americanization experience that is significantly different from that which Jews have had elsewhere in the USA Conversely Southern California would be quite a different place without the Jews who made it their home Book jacket

Forest Fire Laboratory at Riverside and Fire Research in California Carl C. Wilson, James Bernard Davis, 1988 The need for protection from uncontrolled fire in California was identified by Abbott Kinney Chairman of the State Board of Forestry more than 75 years before the construction of the Riverside Forest Fire Laboratory With the organization of the USDA Forest Service the need for an effective fire protection organization became apparent In response a somewhat fragmented research program got under way in the 1910s Although the research was successful in reducing fire damage undermost conditions severe fire years still made it clear that a strong cohesive fire research effort headquartered at an adequate laboratory was necessary However the Fire Laboratory did not just happen It was the result of considerable organized public and private support During the 50 years prior to the dedication of the Laboratory and the 25 years since there has been an effort to balance a pragmatic approach toward dealing directly with the fire manager and also maintaining scientific excellence There are currently six research projects at the Laboratory with emphases on fire management and the beneficial use of fire forest recreation effects of air pollution on forest ecosystem and watershed management *South Fork*
