*Past Forward* Gowri Ramnarayan, 2000 Through childhood stories six of India's most renowned artists offer glimpses into their early lives and the origins of their work. The author develops these stories through a series of interviews with the artists concerned.

**Past Forward** Gowri Ramnarayan, 1997 In this unique book six of India's most renowned artists offer the reader glimpses into their lives and the origins of their work. Drawn into the world of the artists' childhood, the reader gains a profound insight into the sources of inspiration which molded each personality. Gowri Ramnarayan develops these stories through a series of conversations with the artists concerned. Written in the first person, they are personal, immediate, and idiosyncratic. The prefatory notes by the author, drawn from her interaction with the artists and her own observations, provide a background to the artists' life and work.

**Worldly Affiliations** Sonal Khullar, 2015-05-02 The purpose of art, the Paris-trained artist Amrita Sher-Gil wrote in 1936, is to create the forms of the future by drawing its inspiration from the present. Through art, new worlds can be imagined into existence as artists cultivate forms of belonging and networks of association that oppose colonialist and nationalist norms. Drawing on Edward Said's notion of affiliation as a critical and cultural imperative against empire and nation-state, *Worldly Affiliations* traces the emergence of a national art world in twentieth-century India and emphasizes its cosmopolitan ambitions and orientations. Sonal Khullar focuses on four major Indian artists: Sher-Gil, Maqbool Fida Husain, K.G. Subramanyan, and Bhupen Khakhar, situating their careers within national and global histories of modernism and modernity. Through a close analysis of original artwork, archival materials, artists' writing, and period criticism, Khullar provides a vivid historical account of the state and stakes of artistic practice in India from the late colonial through postcolonial periods. She discusses the shifting terms of Indian artists' engagement with the West, an urgent yet fraught project in the wake of British colonialism and to a lesser extent with African and Latin American cultural movements such as Négritude and Mexican muralism. Written in a lucid and engaging style, this book links artistic developments in India to newly emerging histories of modern art in Asia, Africa, and Latin America. Drawing on original research in the twenty-first-century art world, Khullar shows the persistence of modernism in contemporary art from India and compares its function to Walter Benjamin's ruin. In the work of contemporary artists from India, modernism is the ground from which to imagine futures. This richly illustrated study juxtaposes little-known, rarely seen, or previously unpublished works of modern and contemporary art with historical works, popular or mass-reproduced images, and documentary photographs. Its innovative art program renders newly visible the aesthetic and political achievements of Indian modernism.
