Past And Future Of Medieval Studies:

The Past and Future of Medieval Studies John Van Engen, John H. Van Engen, 1994 **Past Future Medieval Studies** John Van Engen, 1994-02-28 **Past and Future** Maarten J. F. M. Hoenen, Karsten Engel, 2021 There was a time not so long ago when Medieval Studies constituted a major pillar for the understanding of the history of human civilization Today things are different While the medieval contribution to the project of humanity remains beyond doubt the challenges facing those interested in history have changed definitively Currently different responses to the new situation are under discussion each with its own potential and challenges e g global medievalism digital humanities comparative history rethinking the cultural narrative In this volume specialists from the fields of Digital Humanities History Literary Studies Philosophy and Theology share with the readers their views about the possible futures of Medieval Studies They evince the vitality and multi perspectivism characteristic of the field today showing that Medieval Studies looks to a future that while different from the past promises to be at least as rich and creative The papers collected here were first presented and discussed at the 6th European Congress of Medieval Studies of the Federation Internationale des Instituts d Etudes Medievales FIDEM which was held at the University of Basel Switzerland 2 5 September 2018 *Medievalism and Reception* Dr Ellie Crookes, Ika Willis, Ellie Crookes, 2024-12-03 The relationship between medievalism and reception explored via a rich variety of case studies At the intersection of the twin fields of medievalism and reception studies is the timely and fascinating question of how a contested past is deployed in the context of a conflicted and contradictory present Despite their shared roots and a fundamental orientation towards the entanglement of past and present the term reception is rarely taken up in medievalist scholarship and they have developed along parallel but divergent lines evolving their own emphases problematics sensibilities vocabularies and critical tools This book is the first to reunite these two fields Its introduction and first chapter clearly set out their tangled intellectual and disciplinary histories The ten essays that follow reflect upon the relationship between medievalism and reception in theory and in practice through thematically temporally and geographically expansive case studies engaging with theories of translation postcolonialism fan studies persona studies and Indigenous studies Individual topics examined include the cultural impact of Robin Hood the Tulsa race massacre the crusades in the nineteenth century later representations of Chaucer s works Victorian representations of Anne Boleyn and media such as Star Wars and Game of Thrones As a whole this collection models and demonstrates the value of a new and self aware approach to medievalism enriched by a conscious and critical redeployment of reception theories and methodologies *The Legitimacy of the Middle Ages* Andrew Cole, D. Vance Smith, 2010-02-08 A collection of theoretical essays arguing that theorists of modernity must reckon with the medieval which is not as some have asserted completely separate or different from the modern **Imagined Histories** Anthony Molho, Gordon S. Wood, 2018-06-05 This collection of essays by twenty one distinguished American historians reflects on a peculiarly American way of imagining the past At a time when history writing

has changed dramatically the authors discuss the birth and evolution of historiography in this country from its origins in the late nineteenth century through its present more cosmopolitan character In the book s first part concerning recent historiography are chapters on exceptionalism gender economic history social theory race and immigration and multiculturalism Authors are Daniel Rodgers Linda Kerber Naomi Lamoreaux Dorothy Ross Thomas Holt and Philip Gleason The three American centuries are discussed in the second part with chapters by Gordon Wood George Fredrickson and James Patterson The third part is a chronological survey of non American histories including that of Western civilization ancient history the middle ages early modern and modern Europe Russia and Asia Contributors are Eugen Weber Richard Saller Gabrielle Spiegel Anthony Molho Philip Benedict Richard Kagan Keith Baker Joseph Zizak Volker Berghahn Charles Maier Martin Malia and Carol Gluck Together these scholars reveal the unique perspective American historians have brought to the past of their own nation as well as that of the world Formerly writing from a conviction that America had a singular destiny American historians have gradually come to share viewpoints of historians in other countries about which they write The result is the virtual disappearance of what was a distinctive American voice That voice is the subject of this book **The Shock of Medievalism** Kathleen Biddick,1998 An attempt to disrupt critique and question the practices and assumptions of medieval studies in light of recent theoretical debates in postmodern queer feminist and post colonial theory *Medieval Studies in North America* Francis G. Gentry,Christopher Kleinhenz,1982 Medievalism in England II Leslie J. History and Memory in the Carolingian World Rosamond McKitterick, 2004-07-29 The writing and reading of history in the early Middle Ages form the key themes of this 2004 book The primary focus is on the remarkable manifestations of historical writing in relation to historical memory in the Frankish kingdoms of the eighth and ninth centuries It considers the audiences for history in the Frankish kingdoms the recording of memory in new genres including narrative histories cartularies and Libri memoriales and thus particular perceptions of the Frankish and Christian past It analyses both original manuscript material and key historical texts from the Carolingian period a remarkably creative period in the history of European culture Presentations of the past developed in this period were crucial in forming an historical understanding of the Greco Roman and Judaeo Christian past and in subsequent centuries of early medieval Europe They also played an extraordinarily influential role in the formation of political ideologies and senses of identity within Europe

Integrity and Historical Research Tony Gibbons, Emily Sutherland, 2012-03-12 There have been serious debates between historians novelists and filmmakers as to how best present historical narratives When writers and filmmakers talk of using historical research with integrity what exactly do they mean Integrity and Historical Research examines this question in detail The first chapter discusses the concept of integrity The chapters that follow reflect on this philosophical treatment in the light of fiction and film that deals with history in a number of ways How should writers and filmmakers use lives Can and may people who are now dead and who may have lived long ago be defamed The authors include academics historians social historians medievalists oral historians literary theorists historical novelists and script writers They examine the theoretical influences and practical choices that involve and concern writers and filmmakers who rely on historical research The desire to be accurate may often conflict with the need to produce a work that goes beyond the mere depiction of events in order to excite the interest of readers and to hold that interest At the same time there is a developing emphasis on historians to write well in clear accessible prose which may involve using the novelists techniques How much license may be given to writers of fiction and filmmakers in their depiction of historical characters and events This book begins to answer this question while inviting further discussion

Syriac Christian Culture Aaron Michael Butts, Robin Darling Young, 2021-01-08 Syriac Christianity developed in the first centuries CE in the Middle East where it continued to flourish throughout Late Antiquity and the Medieval period while also spreading widely as far as India and China Today Syriac Christians are found in the Middle East in India as well in diasporas scattered across the globe Over this extended time

period and across this vast geographic expanse Syriac Christians have built impressive churches and monasteries crafted fine pieces of art and written and transmitted a sizable body of literature Though often overlooked neglected and even persecuted Syriac Christianity has been and continues to be an important part of the humanistic heritage of the last two millennia The present volume brings together fourteen studies that offer fresh perspectives on Syriac Christianity especially its literary texts and authors The timeframes of the individual studies span from the second century Syriac translation of the Hebrew Bible up to the thirteenth century with the end of the Syriac Renaissance Several studies analyze key authors from Late Antiquity such as Aphrahat Ephrem Narsai and Jacob of Serugh Others investigate translations into Syriac both from Hebrew and from Greek while still others examine hagiography especially its formation and transmission Reflecting a growing trend in the field the volume also devotes significant attention to the Medieval period during which Syriac Christians lived under Islamic rule The studies in the volume are united in their quest to explore the richness diversity and vibrance of Syriac Christianity

The Future of Philology Hannes Bajohr, Benjamin R. Dorvel, Vincent Hessling, 2014-06-19 Philology master science of the nineteenth century has changed so radically over the course of the twentieth century that it is hardly recognizable in the twenty first Its scope has been transformed its methodology contested and its legitimacy called into doubt Does it still make sense to speak institutionally and epistemologically of philology Does this venerable title continue to signify a truly coherent field and not a multitude of scattered currents and competing genealogies differing national characteristics and inconsistent methodologies This volume collects answers by a range of young philologists given at the 11th Annual Columbia University German Graduate Student Conference They show that philology in its practices and theories continues to be the fundament of the ever expanding field of literature and language studies and that a discipline whose very core is the care for the text wields competencies that are indispensable for neighboring fields In conversation with Brecht and George Hamann and Rilke Nietzsche and Heidegger these essays confront questions of materiality epistemology and ontology that define as Sheldon Pollock put it the fate of a soft science in a hard world

The Artful Mind Mark Turner, 2006-10-26 All normal human beings alive in the last fifty thousand years appear to have possessed in Mark Turner's phrase irrepressibly artful minds Cognitively modern minds produced a staggering list of behavioral singularities science religion mathematics language advanced tool use decorative dress dance culture art that seems to indicate a mysterious and unexplained discontinuity between us and all other living things This brute fact gives rise to some tantalizing questions How did the artful mind emerge What are the basic mental operations that make art possible for us now and how do they operate These are the questions that occupy the distinguished contributors to this volume which emerged from a year long Getty funded research project hosted by the Center for Advanced Study in the Behavioral Sciences at Stanford These scholars bring to bear a range of disciplinary and cross disciplinary perspectives on the relationship between art broadly conceived the mind and the brain Together they hope to provide directions for a new field of research that can play a significant role in

answering the great riddle of human singularity
