Past Is The Past And Getting It Together:

Ronald J. Greer, 2010-09-01 A timely discussion on the impact and importance of integrity Author Ronald J Greer People today want to live with more depth and authenticity to be true to who God created them to be There is a desire to get it right to live lives of integrity There is a sense that living with integrity would be to experience greater meaning purpose and fulfillment But what does integrity mean What does it involve And how do we go about doing it This book is designed to address the issue of integrity in a thoughtful practical way It is written from my vantage as a Christian a minister and a pastoral counselor It is for those who want to understand what integrity means how it can benefit them and how to apply it to their lives *The Presence of the Past* Roy Rosenzweig, David Paul Thelen, 1998 Rosenzweig and Thelen analyze results from a unique and comprehensive survey in which they polled 1 500 Americans about their connection to the past and its continuing influence on their present as well as their hopes for the future **The Voice of the Past** Paul

Thompson, 2017-02-24 Oral history gives history back to the people in their own words And in giving a past it also helps them towards a future of their own making Oral history and life stories help to create a truer picture of the past and the changing present documenting the lives and feelings of all kinds of people many otherwise hidden from history It explores personal and family relationships and uncovers the secret cultures of work It connects public and private experience and it highlights the experiences of migrating between cultures At the same time it can bring courage to the old meaning to communities and contact between generations Sometimes it can offer a path for healing divided communities and those with traumatic memories Without it the history and sociology of our time would be poor and narrow In this fourth edition of his pioneering work fully revised with Joanna Bornat Paul Thompson challenges the accepted myths of historical scholarship He discusses the reliability of oral evidence in comparison with other sources and considers the social context of its development He looks at the relationship between memory the self and identity He traces oral history through its own past and weighs up the recent achievements of a movement which has become international with notably strong developments in North America Europe Australia Latin America South Africa and the Far East despite resistance from more conservative academics This new edition combines the classic text of *The Voice of the Past* with many new sections including especially the worldwide development of different forms of oral history and the parallel memory boom as well as discussions of theory in oral history and of memory trauma and reconciliation It offers a deep social and historical interpretation along with succinct practical advice on designing and carrying out a project *The Voice of the Past* remains an invaluable tool for anyone setting out to use oral history and life stories to construct a more authentic and balanced record of the past and the present **VOICES PAST**

The Past as Present in the Drama of August Wilson

Harry Justin Elam,2009-05-21 Pulitzer prizewinning playwright August Wilson author of *Fences* *Ma Rainey s Black Bottom* and *The Piano Lesson* among other dramatic works is one of the most well respected American playwrights on the contemporary stage The founder of the Black Horizon Theater Company his self defined dramatic project is to review twentieth century African American history by creating a play for each decade Theater scholar and critic Harry J Elam examines Wilson s published plays within the context of contemporary African American literature and in relation to concepts of memory and history

culture and resistance race and representation Elam finds that each of Wilson's plays recaptures narratives lost ignored or avoided to create a new experience of the past that questions the historical categories of race and the meanings of blackness Harry J Elam Jr is Professor of Drama at Stanford University and author of *Taking It to the Streets The Social Protest Theater of Luis Valdez and Amiri Baraka* The University of Michigan Press *The Presented Past* B. L. Molyneux, P. G. Stone, 2003-09-02 *The Presented Past* is concerned with the differences between the comparatively static well understood way in which the past is presented in schools museums and at historic sites compared to the approaches currently being explored in contemporary archaeology It challenges the all too frequent representation of the past as something finished understood and objective rather than something that is constructed and therefore open to co existing interpretations and constant re interpretation Central to the book is the belief that the presentation of the past in school curricula and in museum and site interpretations will benefit from a greater use of non documentary sources derived from archaeological study and oral histories The book suggests that a view of the past incorporating a larger body of evidence and a wider variety of understanding will help to invigorate the way history is taught *The Presented Past* will be of interest to teachers archaeologists cultural resource managers in fact anyone who is concerned with how the past is presented Signatures of the Past Marc Maufort, Caroline De Wagter, 2008 In the last decades of the twentieth century North American drama has powerfully enacted the problematic notions of cultural memory and identity as the essays assembled in this critical anthology demonstrate Echoing Derrida's non essentialist interpretation of the term signature this collection provides an innovative focus on North American theatre and drama as a site of latent cultural memories In this volume the concept of cultural memory offers a privileged vantage point from which to redefine issues of diasporic identities exilic predicaments and multi ethnic subject positions at the dawn of a new century Playwrights examined here include noted Canadian and US artists such as Marie Clements Eva Ensler Lorraine Hansberry Tomson Highway Cherr e Moraga Djanet Sears Guillermo Verdecchia August Wilson and Chay Yew to cite but a few In the process of remembering North American dramatists develop new aesthetic modes in which the signatures of the past merge with the present and foreshadow an imagined future

Dialogue with the Past Glenn Whitman, 2004-09-15 Oral history is a marvelous force for empowering young people with a love of history But educators today may wonder how they might use it to inspire their students while still teaching the necessary curriculum and meeting standards In Dialogue with the Past Glenn Whitman addresses these concerns from his own rich experience and that of many other teachers and students He helps readers understand the background and methodology of oral history guides them in creating and conducting an oral history project in the classroom and directly addresses the issue of meeting standards Peppered with useful tips examples from students and teachers and reproducible forms along with a comprehensive bibliography this book will be a vital and inspirational tool for anyone working with secondary students Visit the authors web page [FREEDOM from BAGGAGE](#) Ramesh Vaish, Do you realize how much baggage you are carrying in your life Things which are no longer necessary possessions which have no purpose now the never ending stress and strain in your daily life the suffering and pain from the past and the worry and anxiety for the future Raj a young lawyer and his wife Aparna a medical doctor face these questions and find their answers in a very practical way Freedom from Baggage is their story and this may well be your own story This book will change the way you think about and respond to these issues in your own life **The Past Coming to Roost in the Present** Adrian Knapp, 2006-10-07 Since the final demise of apartheid in 1994 South Africa has undergone dramatic changes in the political social and economic sphere It is not surprising that these changes have also resulted in contentious reassessments of recent history Many contemporary South African writers have taken up the challenge and created works offering new ways of critically re imagining the country s violent past While Andr P Brink s Imaginings of Sand and Zakes Mda s Ways of Dying constitute renegotiations of the past during the period of transition J M Coetzee s Disgrace and Phaswane Mpe s Welcome to our Hillbrow represent deliberations of a past that has been hampered in its change by a flawed transition Just as history can never be taken at face value and

never constitutes a finite all inclusive narration of the past the historical accounts provided in these texts often present a one sided picture of history when considered only on their representational level On the metafictional level however these texts often put such misreadings into perspective and in doing so open up an otherwise monochrome reflection of South Africa s rainbow

Taming the Past Robert W. Gordon, 2017-06-09 Lawyers and judges often make arguments based on history on the authority of precedent and original constitutional understandings They argue both to preserve the inspirational heroic past and to discard its darker pieces such as feudalism and slavery the tyranny of princes and priests and the subordination of women In doing so lawyers tame the unruly ugly embarrassing elements of the past smoothing them into reassuring tales of progress In a series of essays and lectures written over forty years Robert W Gordon describes and analyses how lawyers approach the past and the strategies they use to recruit history for present use while erasing or keeping at bay its threatening or inconvenient aspects Together the corpus of work featured in Taming the Past offers an analysis of American law and society and its leading historians since 1900
