Before Jim B. Tucker, M.D., 2021-04-13. A fully updated 2 in 1 edition with a new introduction by the author combining Dr. Jim B. Tucker's bestselling books about children who remember past lives, *Return to Life* and *Life Before Life*. These two books contain first person accounts of Jim B. Tucker's experiences with a number of extraordinary children with memories of past lives and expands on the international work started by Tucker's University of Virginia colleague Ian Stevenson. Tucker's work has been lauded by the likes of parapsychologist Carol Bowman and Deepak Chopra and has been described by some as quantum physics. His goal in each case of a child reporting memories of previous lives is to determine what happened, what the child has said, how the parents have reacted, whether the child's statements match the life of a particular deceased person and whether the child could have learned such information through normal means. Tucker has found case studies that provide persuasive evidence that some children do in fact possess memories of previous lives. Thought provoking and captivating, the stories in *Before* urge readers, skeptics and supporters alike to think about life, death and reincarnation and to reflect about their own consciousness and spirituality.
