Malkas,2023-05-10 About the Book The Village of Lansing and Its Airport is a history of how the Lansing Airport was developed into what it is today This story looks at the fascinating and often underappreciated ways that it served the people of the Village of Lansing and the entire Chicago Southland While the book tells the history of events in the airport s development it also provides a guided virtual tour through the pages of history and gives the reader an opportunity to participate as if they were actually reliving the experiences The book is designed to revitalize the planned development of the airport in a format not typical of a historical memoir About the Author Robert R Malkas currently resides in Lansing Illinois When he first moved there he went to sleep every night under the first ever airport rotating beacon atop Henry Ford s Hangar at the Chicago Hammond airport He came to believe he was being sent a message from Henry Ford himself about his contributions to the history of aviation in the United States Malkas accepted this challenge and became the first chairman of a village commission assigned the task of managing the Lansing Airport s growth

He was later appointed airport manager and served in that position for twenty three years until his retirement in 2008
