## **Past Present Personal:**

**The Present Personal** Hagi Kenaan, 2005 Hagi Kenaan argues that philosophy's concern with abstract forms of linguistic meaning and the objective propositional nature of language has obscured the singular human voice. In this strikingly original work, Kenaan explores the ethical and philosophical implications of recognizing and responding to the individual presence in language. *The Present Personal* fuses phenomenology and aesthetics and the traditions of Continental and Anglo American philosophy drawing on Wittgenstein, J. L. Austin, Kant, Kierkegaard, and Heidegger, as well as literary works by Kafka, Kundera, and others.

**Identity, Personal Identity and the Self** John Perry, 2002-06-15 This volume collects a number of Perry's classic works on personal identity as well as four new pieces: *The Two Faces of Identity*, *Persons and Information*, *Self Notions*, and *The Self and The Sense of Identity*. Perry's Introduction puts his own work and that of others on the issues of identity and personal identity in the context of philosophical studies of mind and language over the past thirty years.

**Personal and Organizational Excellence through Servant Leadership** Sen Sendjaya, 2015-04-29 This book provides an evidence-based actionable framework and measure of servant leadership to help management practitioners build effective and ethical workplaces. It explains the reasons why the best workplaces such as Starbucks, Southwest Airlines, Ritz Carlton, and ServiceMaster apply servant leadership. Servant leadership is an intellectually compelling and emotionally satisfying theory of leadership with relevance and application to the workplace settings. Based on multiple rigorous studies in the Western and Eastern contexts, the book outlines the six dimensions of servant leadership and the impacts they have on key outcomes such as citizenship behaviors, job satisfaction, team creativity, and innovation and organizational performance. The book outlines a measurement instrument that can be used for leadership assessment, selection, and training purposes and to develop strategies to leverage the six behavioral dimensions of servant leadership at the personal, team, and organizational level.

*Solipsism, Physical Things and Personal Perceptual Space* Safak Ural, 2019-09-30 Solipsism indicates an epistemological position that denies the existence of others by asserting that the self is the only thing that can be known to exist. For sophist philosophers, the belief that we can not know anything and even if we do so we cannot communicate it is central to this theory. However, until now there has been little academic scholarship that has tried to provide answers to the pressing issues raised by solipsism. In *Solipsist Ontology: Physical Things and Personal Perceptual Space*, Ural aims to redefine solipsism by analyzing and elaborating on traditional philosophical problems such as empiricism and rationalism, as well as discussing problems of language, communication, and meaning. Ural reveals where solipsism has been previously ignored; pseudo problems have arisen that disguise the sources of the problems with prejudices that concern the philosophical problems in question. Notably, many current as well as traditional problems of ontology, epistemology, and language are bound up in discourses of solipsism. Ural argues that discarding solipsism as a philosophical discourse hinders new interpretations of traditional philosophical thought. This book offers a fresh perspective to solipsism by defining it in relation to concepts

such as physical things personal perceptual space and identity Importantly Ural proposes that an understanding of identity is not necessary in order to redefine solipsism By building a logical system that fashions communication and solipsism as interrelated it is possible to reject identity as a useless concept and thus overcome the classic solipsist dilemma of we are not able to communicate This original piece of research is an important and timely contribution to the field of philosophy that will be of great interest to teachers researchers and students

**Beyond Personal Identity** Gereon Kopf,2012-12-06 Applies Dogen Kigen s religious philosophy and the philosophy of Nishida Kitaro to the philosophical problem of personal identity probing the applicability of the concept of non self to the philosophical problems of selfhood otherness and temporality which culminate in the conundrum of personal identity

Counseling Across the Lifespan Cindy L Juntunen,Donald R Atkinson,2002 Counseling Across the Lifespan expands the perimeters of counseling with its emphasis on preventive techniques for adjustment problems in the lifespan of a normal individual This cogent work focuses on counseling intervention strategies from the unique perspective of an individual s lifespan placing techniques in the proper development context By concentrating on life stages from childhood through old age the authors identify the nature and origin of various psychological issues such as self identity and healthy lifestyle development in adolescents family violence in young adults or retirement transitions for older adults The intervention tools needed to confront these issues are presented through succinct pedagogical features including case examples checklists for evaluating clients and exercises
