Guide to Russian Literature Neil Cornwell,2013-12-02 First Published in 1998 This volume will surely be regarded as the standard guide to Russian literature for some considerable time to come It is therefore confidently recommended for addition to reference libraries be they academic or public *Boileau and the Nature of Neoclassicism* Gordon Pocock,1980-06-19 Boileau has traditionally been regarded as the spokesman of French neo classicism but some elements of scholarship have discounted the importance of neo classical doctrine in general and of Boileau s particular contribution to it Many critical approaches have stressed instead the liveliness and wit of Boileau s poems his love of language and his passionate temperament Mr Pocock uses these critical approaches to demonstrate in detail how Boileau s verve love of contrasts and essentially dramatic imagination animate the major poems But he also argues that such approaches do not in themselves suffice to explain Boileau s special qualities Neo classicism was an important element in the intellectual life of Europe in the most critical period of the decline of Christianity and the rise of rationalism and science Mr Pocock proposes a reformulation of those views which take account not only of modern criticism but also of Boileau s commitment to neo classicism and his embodiment of it in his work **Literature and Musical Adaptation** ,2016-08-09 It can safely be said that when literary

texts are utilized or adapted by a musician to create a new work of art it is seldom that a diminished or lessened product results Rather such a merging usually enlarges and enhances both text and tune perhaps significantly changing the message of the original Discovering exactly what the new form has to offer and how it relates to the text or melody that preceded it is often a daunting task requiring a close examination of both the author s and the composer s intent The essays in this collection offer an analysis of several adaptations some successful some not so successful and attempt to assess just what the musicians or writers have modified or changed from to the original as they re form it into an altogether different media Ranging from Pasternak s appropriation of Tchaikovsky to Britten s operatic versions of Billy Budd and the Turn of the Screw from Celan s use of fugal technique in his Todesfuge to the way that the musicianship of several women writers found voice in their writing a broad spectrum of collaborations is examined As readers examine an author s respect for a long dead musician Hopkins admiration of Purcell or as they discover how John Harbison worked to transform Fitzgerald s musicality in

The Great Gatsby it will be evident that musical adaptations often provide a richness that the originals did not possess and that the potential for greatness is heightened when the arts intersect *Molière: A Playwright and His Audience* W. D. Howarth, 1982-07 This study explores the evolution of Molière's comedy as a careful amalgamation of comedy and philosophical satire *The Routledge Encyclopedia of Jewish Writers of the Twentieth Century* Sorrel Kerbel, 2004-11-23 Now available in paperback for the first time Jewish Writers of the Twentieth Century is both a comprehensive reference resource and a springboard for further study This volume examines canonical Jewish writers less well known authors of Yiddish and Hebrew and emerging Israeli writers includes entries on figures as diverse as Marcel Proust Franz Kafka Tristan Tzara Eugene Ionesco Harold Pinter Tom Stoppard Arthur Miller Saul Bellow Nadine Gordimer and Woody Allen contains introductory essays on Jewish American writing Holocaust literature and memoirs Yiddish writing and Anglo Jewish literature provides a chronology of twentieth century Jewish writers Compiled by expert contributors this book contains over 330 entries on individual authors each consisting of a biography a list of selected publications a scholarly essay on their work and suggestions for further reading **Intersections and Transpositions** Andrew Wachtel, 1998 This collection serves as an introduction to the great variety of approaches being used by Slavists and historians to situate music and literature in the Russian cultural imagination Part I focuses on music in art The nine essays in this section explore the complex interaction of literary and musical texts in the nineteenth and twentieth centuries Contributors discuss such writers as Pushkin Chekhov and Pasternak and composers including Musorgsky Prokofiev Shostakovich and Blok Part II centers on music in life Its five essays address music as a cultural form as presented and enjoyed in the home the theater and the opera house This book provides a unique window on The musical literary and social interactions that have been typical of modern Russian culture Contributing to this volume are Thomas P Hodge Caryl Emerson Jennifer Fuller Justin Weir Alexander Burry James Morgan Andrew Baruch Wachtel Tim Langen Jesse Langen Richard Stites Ilya Vinitsky Julie Buckler Rosamund Bartlett Boris Gasparov Nicholas Glossop and Amy Nelson The 20th Century O-Z Frank N. Magill, 2013-05-13 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who's who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual's life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual's place in history All entries conclude with a fully annotated bibliography **The Cambridge History of Russian Literature** Charles Moser, 1992-04-30 An updated edition of this comprehensive narrative history first published in 1989 incorporating a new chapter on the latest developments in Russian literature and additional bibliographical information The individual chapters are by well known specialists and provide chronological coverage from the medieval period on giving particular attention to the nineteenth and twentieth

centuries and including extensive discussion of works written outside the Soviet Union The book is accessible to students and non specialists as well as to scholars of literature and provides a wealth of information **The Time Before Death**

Constantin V. Ponomareff,2013 This collection of fifteen essays deals with the literary memoirs of major twentieth century writers and focuses on the spiritual physical and moral devastation of 20th century life They are comparative and cross cultural There is no other collection of essays with this range brought under one cover *Snapshots of the Soul* Molly

Thomasy Blasing,2021-07-15 Snapshots of the Soul considers how photography has shaped Russian poetry from the early twentieth century to the present day Drawing on theories of the lyric and the elegy the social history of technology and little known archival materials Molly Thomasy Blasing offers close readings of poems by Boris Pasternak Marina Tsvetaeva Joseph Brodsky and Bella Akhmadulina as well as by the late and post Soviet poets Andrei Sen Sen kov Arkadii Dragomoshchenko and Kirill Medvedev to understand their fascination with the visual language representational power and metaphorical possibilities offered by the camera and the photographic image Within the context of long standing anxieties about the threat that visual media pose to literary culture Blasing finds that these poets were attracted to the affinities and tensions that exist between the lyric or elegy and the snapshot Snapshots of the Soul reveals that at the core of each poet s approach to writing the photograph is the urge to demonstrate the superior ability of poetic language to capture and convey human experience Open Access edition funded by the National Endowment for the Humanities [The Facts on File Companion to World Poetry](#)

R. Victoria Arana,2008 The Facts On File Companion to World Poetry 1900 to the Present is a comprehensive introduction to 20th and 21st century world poets and their most famous most distinctive and most influential poems *Two French*

Moralists Odette de Mourgues,2010-06-10 Professor de Mourgues study examines the works of La Rochefoucauld and La Bruy re in regards to the term moralist *Poets of Modern Russia* Peter France,1982 A serious and detailed study of

modern Russian poetry aimed at readers with little or no Russian *Cold Fusion* Gennady Barabtarlo,2000-05-01 While historical and political aspects of the Russo German relationship over the past three to four centuries have received due attention from scholars the range of the far more diverse important and peculiar cultural relations still awaits full assessment This volume shows how enriching these cultural influences were for both countries affecting many spheres of intellectual and daily life such as philosophy and religion education and ideology sciences and their application arts and letters custom and language The German Russian relationship has always been particularly intense Oscillating as it has between infatuation and contempt it has always been marked by a singular paradox a German cultural presence in Russia resulting either in a more or less complete fusion as in the case of Russified German or in a pronounced mutual repulsion accompanied by the denigration of each other s culture as inferior It is this curious paradox that determines the perspectives of the articles that were specially written for this volume providing it with a unifying focus
