among minority cultures in North America and the role of women in church history Ellingsen's careful and critical eye ranges over the entire panorama of modern church history He provides balanced theological analyses of major movements and figures as well as the interactions between them Ellingsen presents church history as an opportunity to enter into a dialogue with the church's richly diverse heritage He sees the role of church history as Community builder teaching the faithful their heritage Safety patrol sensitizing church leaders to the errors of the past that they must still confront Liberating instrument learning to look at reality from the perspective of the other no longer chained to one's own suppositions and cultural biases and Source of theological creativity providing access to the stimulating insights of the great theological minds of the past This thought provoking book offers readers a sympathetic exposure to a variety of credible scholarly interpretations of major figures and encourages them to make their own judgments with the help of suggested primary source readings Ellingsen closes each chapter with questions that lead readers to ponder the deeper meanings of various events in the history of Christianity

**A Sacred Space Is Never Empty** Victoria Smolkin, 2018-05-22 When the Bolsheviks set out to build a new world in the wake of the Russian Revolution they expected religion to die off Soviet power used a variety of tools from education to propaganda to terror to turn its vision of a Communist world without religion into reality Yet even with its monopoly on ideology and power the Soviet Communist Party never succeeded in overcoming religion and creating an atheist society A Sacred Space Is Never Empty presents the first history of Soviet atheism from the 1917 revolution to the dissolution of the Soviet Union in 1991 Drawing on a wealth of archival material and in depth interviews with those who were on the front lines of Communist ideological campaigns Victoria Smolkin argues that to understand the Soviet experiment we must make sense of Soviet atheism Smolkin shows how atheism was reimagined as an alternative cosmology with its own set of positive beliefs practices and spiritual commitments Through its engagements with religion the Soviet leadership realized that removing religion from the sacred spaces of Soviet life was not enough Then in the final years of the Soviet experiment Mikhail Gorbachev in a stunning and unexpected reversal abandoned atheism and reintroduced religion into Soviet public life A Sacred Space Is Never Empty explores the meaning of atheism for religious life for Communist ideology and for Soviet

politics     **Reclaiming Our Roots -- Volume 2** Mark Ellingsen, 2000-01-01 The most inclusive church history text on the market today it pays special attention to Christianity in the southern hemisphere Eastern Orthodoxy the church among minority cultures in North America and the role of women in church history     **Buddhism** Panikkar, Raimon , 2017-12-14

The Theological Method of Karl Rahner Anne E. Carr, 1977     **The Ecumenist** , 1965     Atheists Finding God Jana S. Harmon, 2023-02-28 In a Western culture of increasing skepticism towards conservative Christianity what motivates intellectually driven atheists to believe in the reality of God and become passionate followers of Christ Review of social science literature confirms a predominant functional approach to religious conversion effectively reducing a complex substantive phenomenon to a partial functional explanation In response the chief focus of this book is to take a broader look at religious conversion to determine the precursors and pathways from atheistic disbelief to belief in God and Christianity within an educated population Findings are drawn from PhD based research evaluating a broad range of functional and substantive variables influencing religious conversion Data was collected through both survey and interview of fifty educated skeptical atheists in the contemporary West who once held belief God and Christianity as implausible unattractive and irrelevant Yet they became utterly convinced that the Christian faith was true and good worth personal life commitment These former atheists not only experienced a change of their worldview but also a dramatic transformation of their whole world In depth narrative analysis revealed the integrated transformative nature of religious conversion in areas of sense making identity experience meaning and purpose community language and spirituality Overall this book advances the case for using an inclusive transformational perspective in future description conception and modeling for religious conversion of atheists to conservative forms of Christianity     **The Assurance of Things Hoped for** Avery Dulles, 1996-09 Faith since the earliest Christian theologians has been regarded as the fundamental Christian virtue the prerequisite for hope charity and good works In this book Avery Dulles examines the biblical foundations and history of theological reflection on faith from the Greek and Latin fathers to such modern giants as Tillich Rahner and Lonergan Further Dulles presents his own systematic synthesis reflecting on such topics as the nature and object of faith the certitude of faith the birth growth and loss of faith and faith and salvation The result is a refreshingly relevant theology of faith for our day     **Religion, Society and Politics in France since 1789** Frank Tallett, 1991-07-01 This book has been carefully planned to give a coherent account of the impact of religion in France over the last two hundred years Most books in English dealing with the subject are now dated and in any case concentrate on institutional questions of church state relations rather than on the wider influence of religion throughout France These essays summarise recent French research and provide a concise up to date introduction to the history of modern French Catholicism
