Pastoral Jazz:

Italian Culture in the Drama of Shakespeare and His Contemporaries Michele Marrapodi, 2016-12-05 Applying recent developments in new historicism and cultural materialism along with the new perspectives opened up by the current debate on intertextuality and the construction of the theatrical text the essays collected here reconsider the pervasive influence of Italian culture literature and traditions on early modern English drama The volume focuses strongly on Shakespeare but also includes contributions on Marston Middleton Ford Brome Aretino and other early modern dramatists The pervasive influence of Italian culture literature and traditions on the European Renaissance it is argued here offers a valuable opportunity to study the intertextual dynamics that contributed to the construction of the Elizabethan and Jacobean theatrical canon In the specific area of theatrical discourse the drama of the early modern period is characterized by the systematic appropriation of a complex Italian iconology exploited both as the origin of poetry and art and as the site of intrigue vice and political corruption Focusing on the construction and the political implications of the dramatic text this collection analyses early modern English drama within the context of three categories of cultural and ideological appropriation the rewriting remaking and refashioning of the English theatrical tradition in its iconic thematic historical and literary aspects

Jazz Matters David Andrew Ake, 2010 Ake offers an engaging and eclectic alternative to much jazz studies fare by examining seldom considered subjects and reading familiar ones through unconventional means I came away from *Jazz Matters* knowing that I had learned something new regarding the practices of writing about listening to and playing jazz Eric Porter author of *What Is This Thing Called Jazz* Smart interesting engaging thoughtful and stimulating this book opens up a lot of what we often take for granted about jazz A fitting sequel to *Jazz Cultures* *Jazz Matters* will no doubt be just as important to jazz scholarship Gabriel Solis author of *Monk's Music* Thelonious Monk and *Jazz History in the Making* *Jazz Matters* is intellectually stimulating as much as emotionally involving It deals with sides of the acts of creating jazz and listening to it that were hitherto little or no discussed and does it with first hand knowledge empathy and a wide range of references to literature philosophy and art adding something deeply valuable at the vast literature on jazz currently available

Religion and Art in the Heart of Modern Manhattan Aaron Rosen, 2017-07-28 When you're in New York the sculptor Louise Nevelson once said you're in perpetual resurrection She might have said the same thing about St Peter's Lutheran Church set in the heart of midtown Manhattan In the 1970s the church made a radical move scrapping its neo gothic building for a sleek modern structure in the shadow of a skyscraper The transformation was not just architectural Inside Nevelson created a shimmering chapel while over the years artists and designers such as Willem de Kooning Kiki Smith and Massimo and Lella Vignelli produced works for the sanctuary This

fusion of modern art architecture and design was complemented by an innovative jazz ministry including funerals for Billy Strayhorn and John Coltrane and performances by Duke Ellington and other jazz legends For the first time this volume examines the astounding cultural output of this single church Just as importantly the story of St Peter s serves as a springboard for wider reflections on the challenges and possibilities which arise when religion and art intersect in the modern city Working from a wide range of disciplines including art history theology musicology and cultural studies a distinguished group of scholars demonstrate that this church at the center of New York City deserves an equally central place in contemporary scholarship

The Living Church ,1955 Pat Metheny Mervyn Cooke,2017 The guitarist and composer Pat Metheny ranks among the most popular and innovative jazz musicians of all time In *Pat Metheny The ECM Years 1975 1984* Mervyn Cooke offers the first in depth account of Metheny s early creative period during which he recorded eleven stunningly varied albums for the pioneering European record label ECM Edition of Contemporary Music This impressive body of recordings encompasses both straight ahead jazz playing with virtuosic small ensembles and the increasingly complex textures and structures of the Pat Metheny Group a hugely successful band also notable for its creative exploration of advanced music technologies which were state of the art at the time Metheny s music in all its shapes and forms broke major new ground in its refusal to subscribe to either of the stylistic poles of bebop and jazz rock fusion which prevailed in the late 1970s Through a series of detailed analyses based on a substantial body of new transcriptions from the recordings this study reveals the close interrelationship of improvisation and pre composition which lies at the very heart of the music Furthermore these analyses vividly demonstrate how Metheny s music is often conditioned by a strongly linear narrative model both its story telling characteristics and atmospheric suggestiveness have sometimes been compared to those of film music a genre in which the guitarist also became active during this early period The melodic memorability for which Metheny s compositions and improvisations have long been world renowned is shown to be just one important element in an unusually rich and flexible musical language that embraces influences as diverse as bebop free jazz rock pop country western Brazilian music classical music minimalism and the avant garde These elements are melded into a uniquely distinctive soundworld which above all directly reflects Metheny s passionate belief in the need to refashion jazz in ways which can allow it to speak powerfully to each new generation of youthful listeners
