Essays in Contextual Theology Steve

Bevans, 2018-06-12 *Essays in Contextual Theology* is a collection of essays that reflect on the doing of contextual theology from several perspectives. After a general introductory essay, subsequent essays reflect on topics such as contextual theology and prophetic dialogue, criteria for orthodoxy, the nature of tradition, the role of culture, the dynamics of conversion, and the way theology is being done in World Christianity. The collection closes with an autobiographical essay tracing the author's journey to becoming a global theologian.

*Overture to Practical Theology* Jeanne Stevenson-Moessner, 2016-11-10 In *Overture to Practical Theology*, Jeanne Stevenson Moessner takes a new route to introduce theology students and others to the field of practical theology. Although she is certainly aware of relatively recent efforts to show the academic credentials of practical theology through careful definition, citing that of David Tracy, analysis of components and linkages to other disciplines within and without the overall framework of theology, she proceeds by means of a double analogy rather than abstract academic precision to illumine practical theology. Actual case studies also helpfully illumine aspects of her work. From the Foreword by James N. Lapsley: The book examines biblical foundations, historical roots, and current manifestations of social justice ministry. Stevenson Moessner shows how practical theology addresses racism, sexism, violence, anti-Semitism, ecological imbalance, and life at the margins of society, the vexing issues of today's ministry.

Reviews an extensive range of methods for studying theology in practice along with sub-disciplines in theological education such as pastoral care and preaching. Covers developments in the discipline in a range of global contexts and distinct Christian traditions. Shows how practical theology is relevant to everyday life.

**Willful Ignorance** Helen T. Boursier, 2022-04-27 Using ethnographic research, *Willful Ignorance: Overcoming the Limitations of Christian Love for Refugees Seeking Asylum* examines the attitudes of clergy and lay leaders regarding their inattention to racism as it intersects with the harsh reality of U.S. immigration policies and practices. This multi-faceted work begins with a reality check on the scope of forced migration and its intersection with the historical legacy of racism in America, including testimonies from displaced migrants and immigration advocates who help to alleviate state-inflicted suffering at the U.S.-Mexico border. Helen T. Boursier examines the rationales Christian leaders use to justify the local church's nominal response, including the discursive buffers and stall tactics they use to deflect their lack of preaching, teaching, leadership, and/or ministry with displaced migrants who are their near neighbors. The Christian church's firm foundation to embody love as social justice provides a historical rebuttal, while case studies of congregations that offer displaced migrants compassionate hospitality

model exemplary contemporary response Closing with practical suggestions for how to begin building bridges with migrants Boursier argues for a philosophy of religion that embraces resistance to racism and exclusion from asylum through a missiology of compassion that exemplifies an ecclesiology of love *Hispanic American Religious Cultures* Miguel A. De La Torre, 2009-09-10 This encyclopedia is the first comprehensive survey of Hispanic American religiosity contextualizing the roles of Latino and Latina Americans within U S religious culture Spanning two volumes *Hispanic American Religious Cultures* encompasses the full diversity of faiths and spiritual beliefs practiced among Hispanic Americans It is the first comprehensive work to provide historic contexts for the many religious identities expressed among Hispanic Americans The entries of this encyclopedia cover a range of spiritual affiliations including Christian religious expressions world faiths and indigenous practices Coverage includes historical development current practices and key individuals while additional essays look at issues across various traditions By examining the distinctive Hispanic interpretations of religious traditions *Hispanic American Religious Cultures* explores the history of Latino and Latina Americans and the impact of living in the United States on their culture **An Introduction to Theology in Global Perspective** Stephen B. Bevans, 2009 *New Pathways in Pilgrimage Studies* Dionigi Albera, John Eade, 2016-11-18 Although there has been a massive increase in the volume of pilgrimage research and publications traditional Anglophone scholarship has been dominated by research in Western Europe and North America In their previous edited volume *International Perspectives on Pilgrimage Studies* Routledge 2015 Albera and Eade sought to expand the theoretical disciplinary and geographical perspectives of Anglophone pilgrimage studies This new collection of essays builds on this earlier work by moving away from Eurasia and focusing on areas of the world where non Christian pilgrimages abound Individual chapters examine the practice of ziyarāt in the Maghreb and South Asia Hindu pilgrimage in India and different pilgrimage traditions across Malaysia and China before turning towards the Pacific islands Australia South Africa and Latin America where Christian pilgrimages co exist and sometimes interweave with indigenous traditions This book also demonstrates the impact of political and economic processes on religious pilgrimages and discusses the important development of secular pilgrimage and tourism where relevant Highly interdisciplinary international and innovative in its approach *New Pathways in Pilgrimage Studies Global Perspectives* will be of interest to those working in religious studies pilgrimage studies anthropology cultural geography and folklore studies
