Pastoral Care And Pastoral Theology:

Pastoral Care in Context John Patton, 2005-02-18 An expert in the field of pastoral care John Patton demonstrates that pastoral care is a ministry of the church He focuses on the community of faith as an authorizer and source of care and upon the relationship between the pastor and a caring community Patton identifies and compares three paradigms of pastoral care the classical the clinical pastoral and the communal contextual This third paradigm emphasizes the caring community and the various contexts for care rather than focusing on pastoral care as the work of the ordained pastor Pastoral Care Dr. John Patton, 2010-09-01 The essentials of pastoral care involve the pastor's distinctive task of caring for those who are estranged the lost sheep Taken from the biblical image of the shepherd the pastor by virtue of his or her professional calling cultivates wise judgment in order to hear the hurting and offer guidance reconciliation healing sustaining presence and empowerment to those in need This book will outline the quintessential elements pastors need to wisely minister in today's context by discussing four major kinds of loss grief illness abuse and family challenges The purpose of the Abingdon Essential Guides is to fulfill the need for brief substantive yet highly accessible introductions to the core disciplines in biblical theological and religious studies Drawing on the best in current scholarship written with the need of students foremost in mind addressed to learners in a number of contexts Essential Guides will be the first choice of those who wish to acquaint themselves or their students with the broad scope of issues perspectives and subject matters within biblical and religious studies **Pastoral Theology in an Intercultural World** Emmanuel Y. Lartey, 2013-03-13 In today's world the challenge of care is how to respond to people's emotional as well as their economic circumstances How can we be respectful of the individual and the community in ways that affirm both How are we to live respectfully with difference and ambiguity Where shall we find our models of life and care from the dominant Western or else some kind of global perspective that includes indigenous knowledge In our theologies do we continue to privilege the study of abstract conceptual theory or do we give place to pragmatic aesthetic and nonverbal forms In the face of increasing extremism terrorism and violence is it possible to make a sensible choice between radical relativism and absolute essentialism Are we to be drawn towards the various expressions of religion or to the opportunities and ambiguities of spirituality as it is called upon in many societies today With the scarce resources available or allocated to health care in many national budgets across the world shall we give greater attention to the eradication of disease through increasingly advanced technologies and therapeutic strategies or to the promotion of health through primary health care and public health education *Pastoral Theology in an Intercultural World* presents practical theological resources for the broad vision deep passion and thoughtful action needed for pastoral care in the twenty first century *Pastoral Theology and Care* Nancy J. Ramsay, 2018-03-19 Leading pastoral theologians explore a wide variety of themes related to pastoral practice *Pastoral Theology and Care Critical Trajectories in Theory and Practice* offers a collection of essays by leading pastoral theologians that represent emerging trajectories in the fields of pastoral

theology and care The topics explored include qualitative research and ethnography advances in neuroscience care across pluralities and intersections in religion and spiritualities the influence of neoliberal economics in socio economic vulnerabilities postcolonial theory and its implications the intersections of race and religion in caring for black women and the usefulness of intersectionality for pastoral practice Each of the essays offers a richly illustrated review of a practice of pastoral care relationally and in the public domain The contributions to this volume engage seven critical directions emerging in the literature of pastoral theology in the United States and internationally among pastoral and practical theologians While coverage of these topics does not exhaust important points of activity in the field it does represent especially promising resources for theory and practice This important work Offers unique coverage of new directions in the field Includes contributions from an exceptional group of experts who are noted leaders in their areas of study Introduces the newest perspectives on pastoral care and offers constructive proposals Filled with case illustrations that make chapters pedagogically useful Pastoral Theology and Care is essential reading for faculty seminarians and students in advanced degree programs and pastors

The Pastoral Care Case Donald Capps, Gene Fowler, 2010-03-01 The case study method is popular and effective in the pastoral care of individuals This book outlines a method for using the case study approach on a congregational level offering guidelines for analyzing and refining such aspects of ministry as worship preaching and Christian education

Pastoral Theology Thomas C. Oden, 1983-05-25 This much needed book fully integrates principles of pastoral care leadership and theology to restore to ministers a clearly defined pastoral identity Moving from a critique of inadequate models for ministry from community organizer to T V evangelist Oden develops a more classical model rich in its references to the past and compatible both with Christian faith and theology through the ages and with current needs Reconciling classical tradition with practice Pastoral Theology will be a standard resource and reference in the field Oden distills the best ideas of the two millennia of ecumenical Christian thinking concerning what pastors are and do Pastoral Theology provides the foundational knowledge of the pastoral office requisite to the practice of ministry It will be of interest to persons preparing for ordination in its review of key issues at the same time Pastoral Theology will appeal to all those who have considered entering the ministry those who want to know more about what clergy do and why and those ministers who want to review their ongoing work in the light of a systematic reflection on the pastoral gifts and tasks

Spiritual Dimensions of Pastoral Care David Willows, John Swinton, 2000 Written by significant researchers and practitioners within the field this unique collection of key texts introduces the reader to practical theology It critically explores the way in which the spiritual dimension of pastoral care has entered into constructive dialogue with other disciplines and ways of thinking including psychiatry psychology counselling intercultural studies educational methodology narrative theory and political studies Set within this multidisciplinary context the individual contributions a selection of articles from a leading journal of pastoral theology Contact The Interdisciplinary Journal of Pastoral Studies cover a wide range of practical and theological

issues that alert the reader to the spiritual dimension of pastoral care such as bereavement sexuality ethics learning disabilities infertility the meaning of pain sickness and suffering and the nature of theology as a practical discipline The book is an invaluable resource for practitioners researchers students and all who have an interest in the ways in which a spiritual dimension can enhance caring practices within a multidisciplinary context *Moving Beyond Individualism in Pastoral Care and Counseling* Barbara J McClure, 2011-10-27 Despite astute critiques and available resources for alternative modes of thinking and practicing individualism continues to be a dominating and constraining ideology in the field of pastoral psychotherapy and counseling Philip Rieff was one of the first to highlight the negative implications of individualism in psychotherapeutic theories and practices As heirs and often enthusiasts of the Freudian tradition of which Rieff and others are critical pastoral theologians have felt the sting of his charge and yet the empirical research that McClure presents shows that pastoral counseling practitioners resist change Their attempts to overcome an individualistic perspective have been limited and ineffective because individualism is embedded in the field's dominant theological and theoretical resources practices and organizational arrangements Only a radical reappraisal of these will make possible pastoral counseling practices in a post individualistic mode McClure proposes several critical transformations broadening and deepening the operative theologies used to guide the healing practice expanding the role of the pastoral counselor reimagining the operative anthropology reclaiming sin and judgment nuancing the particular against the individual rethinking the ideal outcome of the practices and reimagining the organizational structures that support the practices Only this level of revisioning will enable this ministry of the church to move beyond its individualistic limitations and offer healing in more complex effective and socially adequate ways *A History of Pastoral Care* G. R. Evans, 2000-05-01 A history of pastoral care is a history of the Christian church in action But if any sense is to be made of the centuries of Christian work and effort not only the practicalities of making the message of the Gospel a reality on earth but also the ideas which have shaped the attempt century by century must be examined This is the history of 2000 years of thought and practice in Christian pastoral ministry Until comparatively late in that story the bulk of the formative thinking took place in the Middle East and in Europe and this forms the background for recent developments in understanding human nature and the ways in which that understanding has influenced our thinking in pastoral care Subjects covered range from the Biblical foundations to the sects and new religious movements from the Fathers the monks the Friars the Templars to the changes at the end of the twentieth century **A History of Pastoral Care in America** E. Brooks Holifield, 2005-11-01 Here for the first time the development of pastoral care as a discipline has been documented Dr Holifield details the shift in emphasis from saving souls to supporting individuals in self realization and in the process raises thought provoking questions about the preoccupation with psychological methodology evident in modern society and clergy Every pastor wittingly or unwittingly adopts some theory of pastoral counseling whether it be derived from the seventeenth century or from the twentieth says Dr Holifield From colonial

America's intellectual approach to today's therapeutic self culture he explores those theories. Theological, social, economic and psychological threads are interwoven with fascinating conversational examples to show how Protestantism helped to form and was influenced by changing social orders. Broad in scope, scholarly in detail yet immensely readable, this is an important book for clinical pastoral educators, students, professionals, everyone interested in church and social history.

Reconstructing Pastoral Theology Andrew Purves, 2004-09-20. In *Pastoral Care in the Classical Tradition*, Andrew Purves argued that pastoral care and theology has long ignored Scripture and Christian doctrine and pastoral practice has become secularized in both method and goal, the fiefdom of psychology and the social sciences. He builds further on this idea here presenting a christological basis for ministry and pastoral theology.

Pastoral Care Donald Capps, 2003-09-26. *Pastoral Care: A Thematic Approach* offers a much needed development of the thematic approach in the study of personality as a theoretical basis for pastoral care. This approach, which includes the personality theories of Henry Murray, Robert White, Robert J. Lifton, and especially Erik H. Erikson, is notable for its emphasis on personal and institutional change. The book emphasizes the role that pastoral care can play as a change agent in the local parish, pastoral counseling as a model for change, and the role of pastoral care in effecting change through personal and institutional crises. Selected case studies illustrate how the thematic approach applies to pastoral care situations. Primarily a contribution to pastoral psychology, it also touches on problems and issues in pastoral theology.

Theological Context for Pastoral Caregiving William M. Clements, Howard W. Stone, 2013-09-05. In *Theological Context for Pastoral Caregiving*, Howard W. Stone helps his fellow pastors and worship leaders provide effective and faithful pastoral care and counseling through the study of the correlation between pastoral care and theology. You will learn that in order for pastoral care to be effective, it must have a theological base to shape the caregiving experience. At the same time, theology must be informed by the needs and experiences of the people being served and by the ministry of pastoral care. By relating these two issues, you gain a unique viewpoint not offered by books with simply a psychological focus. The author draws from his day-to-day clinical practice of pastoral care and counseling to show how pastoral care and theology can be brought together. Through Howard Stone's work, the reader learns of an overview of pastoral care and counseling today, how to provide a pastoral assessment of the persons served, the author's theological understanding of the ministry of pastoral care and counseling, methods for correlating theology and pastoral care, how spiritual direction as a discipline can help pastoral care and counseling ministry regain a solid theological base, theological themes that might be more explicitly and intentionally related to pastoral care. *Theological Context for Pastoral Caregiving* provides useful information for parish pastors, people in training to be parish pastors, and specialists in the field of pastoral care counseling. As one of the easiest to read books on this subject, it can also be used as a text for graduate-level classes in courses such as Theology and Pastoral Care, Pastoral Theology, and Practical Theology. With this book, seminary students will finally be able to relate the practical things learned in pastoral counseling classes with what is learned in

theology classes *The Meaning of Pastoral Care* Carroll A. Wise, 1966 The author contends that the focus of pastoral care should be on helping people become themselves what God intended them to become through a deep and personal relationship between pastor and person rather than by doling out theological or ethical formulas for particular problems Pastoral care should denote the relationship of the pastor to his people in all activities not merely in dealing with persons in crises **Pastoral Theology in the Classical Tradition** Andrew Purves, 2001-11-01 Too often pastoral care is uninformed by historical practice and is overly influenced by psychological theory and practice according to Andrew Purves At least one consequence of this is that it is often disaffiliated from the church's theological heritage Purves examines Christian writers from the past who represent the classical tradition in pastoral theology classical in the sense that they and their texts have shaped the minds and practices of pastors in enduring ways He reflects on texts from Gregory Nazianzus John Chrysostom Gregory the Great Martin Bucer and Richard Baxter He includes a brief biography of each author introduces the major themes in the writer's theology and discusses the issues arising for pastoral work *The Practice of Pastoral Care* Carrie Doehring, 2014-12-05 *The Practice of Pastoral Care* has become a popular seminary textbook for courses in pastoral care and a manual for clinical pastoral education In it Doehring encourages counselors to view their ministry through a trifocal lens that incorporates premodern modern and postmodern approaches to religious and psychological knowledge Doehring describes the basic ingredients of a caregiving relationship shows how to use the caregiver's life experience as a source of authority and demonstrates how to develop the skill of listening and establishing the actual relationship This new edition elaborates on and expands the author's previous work adding an intercultural perspective that gives more attention to religious pluralism in the pastoral care setting It offers a road map for using a step by step narrative relational embodied approach to spiritual care that respects the unique ways people live out their values and beliefs especially in coping with stress loss and violence Readers will be able to confidently and professionally offer pastoral care and counseling to members of their congregations or other places of ministry **Pastoral Theology for Public Ministry** Stephen Burns, 2015-10-01 What does it mean to be engaged in Christian ministry in a shifting spiritual and religious landscape Stephen Burns invites readers to think anew about the distinctiveness of public practices of pastoral presence Rather than narrowly defining pastoral care and pastoral theology pastoral counseling preaching youth groups visits to elders etc and theological academic categories history pastoral theology liturgy ethics and contemporary sociology he argues for a new imagination and practice of pastoral presence a presence that is representative public integrated and expansive Study guide included *The Professionalization of Pastoral Care* T. Dale Johnson, 2020-07-21 When the organization and structure of the church in America was altered in the early 1900s to meet modern demands the role of the pastorate became more specialized to adapt to the burdens of the new efficient structure In 1920 Gaines Dobbins utilized the business efficiency model at Southern Baptist Theological Seminary to formulate a distinct ecclesiology Discontent with traditional methods of instruction in

theological education Dobbins sought to implement theories and methodologies from modern educationalists He adopted a psychologized educational methodology and utilized the psychology of religion as an empirical measure of the soul human nature and human behavior Use of the social sciences seemed to grant Dobbins as a practitioner academic respectability within the realm of theological education Both the professionalization that resulted from Dobbins s efficiency standards and a working theory of human nature derived from psychological models were synthesized into a specialized system of pastoral care Dobbins followed the new shape of pastoral theology in America adopting Clinical Pastoral Education CPE as the model for pastoral training As a result CPE became an integral part of the curriculum at Southern Baptist Theological Seminary for over sixty years and spread to influence many other SBC entities

A Roman Catholic Theology of Pastoral Care Regis A. Duffy OFM, 2010-05-01 Drawing upon the long history of care in the sacramental mission of the clergy especially since the reforms of Vatican II Father Duffy offers a new model that can stimulate both Catholic and Protestant pastoral care to fresh thinking and imaginative reconstruction The model derives from the catechumenate that lengthy process of study and service which down through the ages has preceded baptism and guided Christian formation Reflecting a judicious use of interdisciplinary insights and praxis theology Father Duffy s vision represents an ecumenical contribution to sharpened focus and strengthened identity for pastoral care and practice

Images of Pastoral Care Robert C Dykstra, 2005-01-01 This book is an edited volume of works that have predominated over the past several decades in contemporary pastoral theology Through the writings of nineteen leading voices in the history of pastoral care Dykstra shows how each contributor developed a metaphor for understanding pastoral care Such metaphors include the solicitous shepherd the wounded healer the intimate stranger the midwife and other tangible images Through these works the reader gains a sense of the varied identities of pastoral care professionals their struggles for recognition in this often controversial field and insight into the history of the discipline Includes readings by Anton T Boisen Alastair V Campbell Donald Capps James E Dittes Robert C Dykstra Heije Faber Charles V Gerkin Brita L Gill Austern Karen R Hanson Seward Hiltner Margaret Zipse Kornfeld Bonnie J Miller McLemore Jeanne Stevenson Moessner Henri J M Nouwen Gaylord Noyce Paul W Pruyser Edward P Wimberly
