*Experiments in Film Appreciation* Alessandro Monti,Carole Rozzonelli,2015-10-17 Experiments in Film Appreciation is the fruit of academic collaboration between India Banaras Hindu University Italy University of Turin and France University Lyon 2 It involves both scholars and research students the latter from BHU and the Department of Oriental Studies Turin Its articles deal with social and gender issues in Indian contemporary society communalism Kashmir female foeticide national identity transgender a Hindu anthropology of food educational cinema problematic conjugality and more The multicultural approaches are mostly seen through the earnest view of young researchers the volume stands also as a suggestion of India in the coming *Value Crisis The Happy Family through Family Communion* Soodursun Jugessur,2014-04-30 The book Value Crisis analyses how a lack of basic moral education starting in the family with adequate parental responsibility has led to a world where violence and social evils affect peace and harmony The family as a cell of the society is the nursery for values that can sustain a development that is in harmony with nature and where the spirit of trust and sharing is primordial Modern development has stressed too much on materialist living where greed and exploitation have led to multiple crises The book highlights how universal values can be brought back in our lives **Empowering Visions** Christiane Brosius,2005 Illustrated throughout with over 80 full colour images Empowering Visions explores the role of images and mass media in Hindutva the cultural nationalist movement that moved to the forefront of politics in India in the late 1980s and early 1990s The author investigates when why and in what way the moving image and videos in particular came to play a central role in the process of self representation and self constitution of Hindu nationalist groups and organizations in the overlapping domains of politics religion and economics The videos analysed here have been included in massive public political spectacles such as election rallies and patriotic pilgrimages They have also been employed for in house indoctrination and emotive mobilization of militant cadres for temporary often violent agitation With the help of these media different political and cultural religious organizations subsumed under the umbrella of Hindutva have attempted to constitute notions of Indianness as Hinduness to challenge and provoke both the government in power and specific minority groups such as the Muslims in India How this was done who stood behind the making of the videos and how they were made up and distributed are

questions that lie at the heart of this study At a time when public attention is focused on transnational and mostly Islamicist movements Empowering Visions argues that both transnationalism and nationalism have to be treated with equal attention and to some extent ought to be seen as intertwined processes This book is unique in its presentation and discussion of profound ethnographic data through interviews with a variety of spokesmen for the Hindutva movement It also offers an in depth analysis of visual and audio visual material that has so far been unrecognized and unexplored in scholarly works

*What is Para-Consciousness* Vipin Gupta,2021-05-31 What is Para Consciousness The Potential Beyond What We Know shakes the very foundations of the modern knowledge based theories and economic models Have you ever realized that the present reality zeros the value of experience derived consciousness Unless you wish to reproduce and relive your or somebody else s past it makes no sense to use that experience If we exclude you the person making a decision when to use or not use the experience then the ideal you use to create the consciousness of what you should do in the present akin to religious fervor is quantum gravity It overshadows your potential to be spontaneous joyful and divine A self luminous element guides your ability to decide when to activate experience instead of improvising based on the situation s needs A self luminous element is like an astrological element it has an innate power to predict the future of everything since it mirrors the present of everybody The present astrological chart shows your correlation as a person with each of the planetary bodies Each planetary body signifies a unique group of entities in your life such as the self the spouse the siblings the father the mother the ancestors the kin the kith the foe the leaders the followers and the material wealth Your network of relationships at present shapes your workforce in the future It also shapes the exchange of your experience with the future mood spontaneity joyful destiny and behavioral divinity Stronger the network entanglement the weaker your self luminosity Dependence on the borrowed consciousness limits your potential to live a fresh life free of the limits of everybody s experiences
