**Ritual Journeys in South Asia** Christoph Bergmann, Jürgen Schaflechner, 2019-08-09 This book focuses on the ritualized forms of mobility that constitute phenomena of pilgrimage in South Asia and establishes a new analytical framework for the study of ritual journeys. The book advances the conceptual scope of classical Pilgrimage Studies and provides empirical depth through individual case studies. A key concern is the strategies of ritualization through which actors create and re-articulate certain modes of displacement to differentiate themselves from everyday forms of locomotion. Ritual journeys are understood as being both productive of and produced by South Asia's socio-economically uneven, politically charged and culturally variegated landscapes. From various disciplinary angles, each chapter explores how spaces and movements in space are continually created, contested and transformed through ritual journeys. By focusing on this co-production of space and mobility, the book delivers a conceptually driven and empirically grounded engagement with the diverse and changing traditions of ritual journeying in South Asia. Interdisciplinary in its approach, the book is a must-have reference work for academics interested in South Asian Studies, Religious Studies, Anthropology and Human Geography, with a focus on pilgrimage and the socio-spatial ideas and practices of ritualized movements in South Asia.

**Mandalas: Mapping the Buddhist Art of Tibet** Kurt Behrendt, 2024-09-16 A mandala is a diagram of the universe, a map of true reality intended to provide a focus for Buddhist religious practice and inspire the devout. This book highlights the distinctive Tibetan approach to creating mandalas, exploring how it crossed over from India into Tibet and how continuous exchanges of art and ideas between the two cultures, led by monks and spiritual teachers, gave rise to a uniquely Tibetan style of Buddhist imagery. Featuring more than one hundred paintings, sculptures and ritual objects, this superbly illustrated volume reflects the dazzling complexities of the Tibetan imagery that has provided a foundation for mandalas through the centuries. Most notably, a mesmerizing installation by the Tibetan American artist Tenzing Rigdol, b. 1982, specially created for the accompanying exhibition and published here for the first time, offers contemporary audiences a way of interrogating and understanding their world and underscores how this ancient tradition remains a vibrant living practice.
