Producing Public Television, Producing Public Culture Barry Dornfeld, 2021-02-09 From 1989 to 1991 Barry Dornfeld had an unusual double role on the crew of the major PBS documentary series Childhood As a researcher for the series he investigated the relationship between children and media As an anthropologist however his subject was the television production process itself examining for example how producers developed the series negotiated with their academic advisors and shaped footage shot around the world into seven programs He presents the results of his fieldwork in this groundbreaking study one of the first to take an ethnographic approach to the production of a television show as opposed to its reception Dornfeld begins with a broad discussion of public television s role in American culture and goes on to examine documentaries as a form of popular anthropology Drawing on his observations of Childhood he considers the documentary form as a kind of imagining in which both producers and viewers construct understandings of themselves and

others revealing their conceptions of culture and history and their ideologies of cultural difference and universality He argues that producers of culture should also be understood as consumers who conduct their work through an active envisioning of the audience Dornfeld explores as well how intellectual media professionals struggle with the institutional and cultural forces surrounding television that promote entertainment at the expense of education The book provides a rare glimpse behind the scenes of a major documentary and demonstrates the value of an ethnographic approach to the study of media production

Brown V. Board and the Transformation of American Culture Ben Keppel, 2016-01-11 Brown v Board of Education which ended legally sanctioned segregation in American public schools brought issues of racial equality to the forefront of the nation's attention Beyond its repercussions for the educational system

the decision also heralded broad changes to concepts of justice and national identity *Brown v Board and the Transformation of American Culture* examines the prominent cultural figures who taught the country how to embrace new values and ideas of citizenship in the aftermath of this groundbreaking decision Through the lens of three cultural first responders Ben Keppel tracks the creation of an American culture in which race class and ethnicity could cease to imply an inferior form of citizenship Psychiatrist and social critic Robert Coles in his Pulitzer Prize winning studies of children and schools in desegregating regions of the country helped citizens understand the value of the project of racial equality in the lives of regular families both white and black Comedian Bill Cosby leveraged his success with gentle family centric humor to create televised spaces that challenged the idea of whiteness as the cultural default Public television producer Joan Ganz Cooney designed programs like Sesame Street that extended educational opportunities to impoverished children while offering a new vision of urban life in which diverse populations coexisted in an atmosphere of harmony and mutual support Together the work of these pioneering figures provided new codes of conduct and guided America through the growing pains of becoming a truly pluralistic nation In this cultural history of the impact of *Brown v Board* Keppel paints a vivid picture of a society at once eager for and resistant to the changes ushered in by this pivotal decision Political Controversy Robert D. Spector, 1992-02-28 This work provides the first full scale examination of the eighteenth century periodical *Political Controversy* and of the essay sheets reprinted therein *North Briton* and *Monitor* These essay sheets were published in England at the end of the Seven Years War with France in support of and in opposition to Lord Bute's proposed terms in the treaty negotiations *Political Controversy* reprinted the essay sheets weekly along with the editor's annotations material from other publications and original contributions from readers The journal provides modern readers with a good example of eighteenth century propaganda techniques and is a guide to the issues revolving around the war the struggle for governmental control the British Empire and the liberty of the press This book provides a clear analysis of the methods used in the political propaganda of the journal and the essay sheets including the writings of three significant authors Tobias Smollett Arthur Murphy and John Wilkes The work opens with a discussion of the essay sheets and their relationship to one another and follows with two chapters devoted to *Political Controversy* The final chapter covers the most significant case for freedom of the press in England up to that time *North Briton* No 45 This book will be of interest to scholars and students concerned with journalism history political science and literature *Democracy without Journalism?* Victor Pickard, 2019-11-01 Victor Pickard shows that the modern journalism crisis is the culmination of long term historical tensions and structural contradictions such as an over reliance on advertising revenue monopoly control over media infrastructures and a lack of independent oversight He looks to alternative media institutions that first evolved during the Progressive and New Deal Eras as well as public media models around the world to imagine a new kind of journalism
