Public Policy And The Aesthetic Interest:

Public Policy and the Aesthetic Interest Ralph Alexander Smith, Ronald Berman, 1992 **Philosophical Dimensions of Public Policy** William Galston, 2017-07-12 At the mid point of the twentieth century many philosophers in the English speaking world regarded political and moral philosophy as all but moribund Thinkers influenced by logical positivism believe that ethical statements are merely disguised expressions of individual emotion lacking propositional force or that the conditions for the validation of ethical statements could not be specified or that their content however humanly meaningful is inexpressible *Philosophical Dimensions of Public Policy* presents thirty four articles written by research scholars numerous fields philosophy political theory medicine law biology economics ecology and sociology treating a broad range of topics in practical philosophy The Institute for Philosophy and Public Affairs has been home for these ideas pioneering a distinctive method of conducting inquiry into the moral dimensions of public life and contributing to public discussion and deliberation Members of the Institute reject the idea that public philosophy means reaching into the philosopher s tool kit and applying prefabricated theories to particular problems They set in motion a dialogue between the distinctive moral features of practical problems and the more general moral theories or considerations that seem most likely to elucidate these problems The volume is divided into five areas Politics Civic Life and Moral Education Diversity Identity and Equal Opportunity Human Rights Development Ethics and International Justice Biotechnology Genetic Research and Health Policy and Natural Environment Human Communities *Philosophical Dimensions of Public Policy* presents empirical data and philosophical arguments with the intention of informing public policy and public deliberation Scholars as well as graduate and undergraduate students are certain to find it useful to their research work *Handbook of Research and Policy in Art Education* Elliot W. Eisner, Michael D. Day, 2004-04-12 The *Handbook of Research and Policy in Art Education* marks a milestone in the field of art education Sponsored by the National Art Education Association and assembled by an internationally known group of art educators this 36 chapter handbook provides an overview of the remarkable progress that has characterized this field in recent decades Organized into six sections it profiles and integrates the following elements of this rapidly emerging field history policy learning curriculum and instruction assessment and competing perspectives Because the scholarly foundations of art education are relatively new and loosely coupled this handbook provides researchers students and policymakers both inside and outside the field an invaluable snapshot of its current boundaries and rapidly growing content In a nutshell it provides much needed definition and intellectual respectability to a field that as recently as 1960 was more firmly rooted in the world of arts and crafts than in scholarly research *The Public Life of the Arts in America* Joni Maya Cherbo, Margaret Jane Wyszomirski, 2000 Despite its size quality and economic impact the arts community is not articulate about how they serve public interests and few citizens have an appreciation of the myriad of public policies that influence American arts and culture The contributors to this volume argue that U S policy can and should support the

arts and that the arts in turn serve a broad rather than an elite public By encouraging policy makers to systematically start investigating the crucial role and importance of all of the arts in the United States The Arts and Public Purpose moves the field forward with fresh ideas new concepts and important new data Learning in and Through Art Stephen M. Dobbs,1998 This Handbook provides a practical straightforward guide to the theory and practice of discipline based art education This comprehensive approach to art education has transformed the way students create and understand art it also offers opportunities for relating art to other subjects as well as to the personal interests and abilities of young learners This completely revised edition explains how DBAE draws content from the disciplines of art making art criticism art history and aesthetics and shows how the practice of DBAE in schools over the past several years has influenced how art is taught today

Citizenship and Cultural Policy Denise Meredyth,Jeffrey Minson,2001-07-30 With the growth of interest in the debates about what culture is and who owns it questions of cultural policy have moved to the forefront of wider discussions of citizenship This book unpicks the significance of culture for citizenship Among the topics explored are the strengths and weaknesses of the civilizing mission of museums the moralism of Third Way politics the proper base for funding culture and the arts the impact of globalization on culture and citizenship the fantasies of freedom in Internet use the tensions between human rights advocacy and citizenship and the place of citizen ideals in governance What emerges is a superb resource for analyzing the meaning of cultural policy in contemporary society It both summarizes the state of the field and innovates new ways of thinking about culture and citizenship Autobiographical Lectures of Leaders in Art Education, 2001-2021

Stephanie Autumn Baer,Katherine Coy Smith,Stephanie Harvey Danker,2024-03-29 This scholarly collection is a continuation of a lecture series highlighting the essential nature of biography in the history of art education The editors feature 16 prominent art educators organized into one of three chronological sections spanning the past two decades The contributing art educators explore influences that shaped their beliefs about art education and the arts describe their career paths explain their philosophy of art education and its development and advise predict or speculate about the future Every chapter concludes with essential questions and instructional resources to guide readers in their reflection In reading these lectures art education faculty students and any adjacent professional to the arts and art history can learn the importance of biographical and autobiographical study to research Beyond research readers can use the lectures to consider and question teaching and mentoring relationships the power of influence and what qualities may contribute to the recognition of exemplary success for art educators **The New Handbook of Research on Music Teaching and Learning** Richard

Colwell,Carol Richardson,2002-04-18 Featuring chapters by the world s foremost scholars in music education and cognition this handbook is a convenient collection of current research on music teaching and learning This comprehensive work includes sections on arts advocacy music and medicine teacher education and studio instruction among other subjects making it an essential reference for music education programs The original Handbook of Research on Music Teaching and

Learning published in 1992 with the sponsorship of the Music Educators National Conference MENC was hailed as a welcome addition to the literature on music education because it serves to provide definition and unity to a broad and complex field Choice This new companion volume again with the sponsorship of MENC explores the significant changes in music and arts education that have taken place in the last decade Notably several chapters now incorporate insights from other fields to shed light on multi cultural music education gender issues in music education and non musical outcomes of music education Other chapters offer practical information on maintaining musicians health training music teachers and evaluating music education programs Philosophical issues such as musical cognition the philosophy of research theory curriculum and educating musically are also explored in relationship to policy issues In addition to surveying the literature each chapter considers the significance of the research and provides suggestions for future study Covering a broad range of topics and addressing the issues of music education at all age levels from early childhood to motivation and self regulation this handbook is an invaluable resource for music teachers researchers and scholars

The Politics of Memory Andreza Aruska de Souza Santos, 2019-11-20 Who decides which stories about a city are remembered How do interpretations of the past shape a city's present and future In this book Andreza Aruska de Souza Santos discusses notions of power and national identity by examining how nation states negotiate the preservation of urban spaces and how a city interprets resists and consents to the functions and meanings that it has inherited and that it reinvents for itself Looking at the Brazilian city of Ouro Preto de Souza Santos applies fine grained ethnography and historical analysis to discuss the limits of Brazil's imagery of social harmony and participatory democracy amid continuous inequality

Earthcare David Clowney, Patricia Mosto, 2009-11-16 This anthology designed for use in undergraduate courses in environmental ethics includes new and classic readings by leading writers in the field full length case studies and many short discussion cases Introductions and discussion questions are provided for all the essays with each chapter introduced by a summary of the issues and appropriate philosophic historical and scientific background Exploring ethical theory environmental ethics science and the environmental movement Earthcare also offers suggestions for students on how to think about ethics and the environment Through many worldviews religions and philosophical perspectives this collection grapples with environmental ethics issues from valuing nature concerns about the atmosphere water land animals and human population as well as the interlocking and often problematic interests of business consumption energy and sustainability This book also features examples of a wide variety of environmentally engaged individuals giving students a way of seeing the connections between the material studied and what they themselves might accomplish
