Everyday Heroism: Victorian Constructions of the Heroic Civilian John Price, 2014-01-16 Heroism in the 19th and early 20th centuries is synonymous with military endeavours imperial adventures and the great men of history There was however another prominent and influential strand of the idea which has until now been largely overlooked This book seeks to address this oversight and establish new avenues of study by revealing and examining everyday heroism acts of life risking bravery undertaken by otherwise ordinary individuals largely in the course of their daily lives and within quotidian surroundings Adopting an interdisciplinary approach John Price charts and investigates the growth and development of this important discourse presenting in depth case studies of The Albert Medal and the Carnegie Hero Fund alongside a nationwide analysis of heroism monuments and an exploration of radical approaches to the concept Unlike its military and imperial counterparts everyday heroism embraced the heroine and this study reflects that with an examination of female heroism Discovering why certain individuals or acts were accorded the status of being heroic also

provides insights into those that recognized them Heroism is a flexible and malleable constellation of ideas shaped or constructed along different lines by different people so if you want to identify the characteristics of a group or society much can be learnt by studying those it holds up as heroic Consequently Everyday Heroism Victorian Constructions of the Heroic Civilian provides valuable and revealing evidence for a wide range of social and cultural topics including class gender identity memory celebrity and literary and visual culture Remembering the South African War Peter McIntosh Donaldson,2013 The first comprehensive survey of the memorialisation process in Britain in the aftermath of the South African War uncovering the themes and myths that underpinned the interpretations of the war as well as shifting patterns in how the war was represented and conceived **Victorian Jamaica** Tim Barringer, Wayne Modest,2018-04-19 Victorian Jamaica explores the extraordinary surviving archive of visual representation and material objects to provide a comprehensive account of Jamaican society during Queen Victoria s reign over the British Empire from 1837 to 1901 In their analyses of material ranging from photographs of plantation laborers and landscape paintings to cricket team photographs furniture and architecture as well as a wide range of texts the contributors trace the relationship between black Jamaicans and colonial institutions contextualize race within ritual and performance and outline how material and visual culture helped shape the complex politics of colonial society By narrating Victorian history from a Caribbean perspective this richly illustrated volume featuring 270 full color images offers a complex and nuanced portrait of Jamaica that expands our understanding of the wider history of the British Empire and Atlantic world during this period Contributors Anna Arabindan Kesson Tim Barringer Anthony Bogues David Boxer Patrick Bryan Steeve O Buckridge Julian Cresser John M Cross Petrina Dacres Belinda Edmondson Nadia Ellis Gillian Forrester Catherine Hall Gad Heuman Rivke Jaffe O Neil Lawrence Erica Moiah James Jan Marsh Wayne Modest Daniel T Neely Mark Nesbitt Diana Paton Elizabeth Pigou Dennis Veerle Poupeye Jennifer Raab James Robertson Shani Roper Faith Smith Nicole Smythe Johnson Dianne M Stewart Krista A Thompson Memory and Modern British Politics Matthew Roberts,2023-12-14 This edited collection explores absence presence and remembrance in British political culture and memory studies Comprehensive in its scope it covers the entire modern period bringing together the 19th and 20th centuries as well as Britain Ireland and the Atlantic World As the first comparative and in depth study to explore the central and contested place of memory and the invention of tradition in modern British politics chapters include memorialisation statue mania anniversaries and on the wider impact and invoking of dead generations In doing so this book provides a new exciting and accessible way of engaging with the history of British political culture **The Sculpture Journal** ,2004 Memory, Heritage, and Preservation in 20th-Century England David Strittmatter,2023-03-09 This book explores commemoration practices and preservation efforts in modern Britain focusing on the years from the end of the First World War until the mid 1960s The changes wrought by war led Britain to reconsider major historical episodes that made up its national narrative Part of this process was a reassessment of heritage sites because such places carry socio

political meaning as do the memorials that mark them This book engages the four way intersection of commemoration preservation tourism and urban planning at some of the most notable historic locations in England The various actors in this process from the national government and regional councils to private organizations and interested individuals did nothing less than engineer British national memory The author presents case studies of six famous British places namely battlefields Hastings and Bosworth political sites Runnymede and Peterloo and world s fairgrounds the Crystal Palace and Great White City In all three genres of heritage sites one location developed through commemorations and tourism while the other anti sites simultaneously faltered as they were neither memorialized nor visited by the masses Ultimately the book concludes that the modern social and political environment resulted in the revival creation or erasure of heritage sites in the service of promoting British national identity A valuable read for British historians as well as scholars of memory public history and cultural studies the book argues that heritage emerged as a discursive arena in which British identity was renegotiated through times of transitions both into a democratic age and an era of geopolitical decline Children, Childhood and Youth in the British World Simon Sleight, Shirleene Robinson, 2016-10-06 Age was a critical factor in shaping imperial experience yet it has not received any sustained scholarly attention This pioneering interdisciplinary collection is the first to investigate the lives of children and young people and the construction of modes of childhood and youth within the British world

Chopin in Britain Peter Willis, 2017-12-14 In 1848 the penultimate year of his life Chopin visited England and Scotland at the instigation of his aristocratic Scots pupil Jane Stirling In the autumn of that year he returned to Paris The following autumn he was dead Despite the fascination the composer continues to hold for scholars this brief but important period and his previous visit to London in 1837 remain little known In this richly illustrated study Peter Willis draws on extensive original documentary evidence as well as cultural artefacts to tell the story of these two visits and to place them into aristocratic and artistic life in mid nineteenth century England and Scotland In addition to filling a significant hole in our knowledge of the composer s life the book adds to our understanding of a number of important figures including Jane Stirling and the painter Ary Scheffer The social and artistic milieux of London Manchester Glasgow and Edinburgh are brought to vivid life
