Denzin, Michael D. Giardina, 2015-12-03 Denzin and Giardina have brought together the works of leading cultural critics who have given cultural studies a global framework that meets our need to examine the governing strategies of the military the economy the media and educational elites This is a must read for those who want cultural studies to really matter in the present moment Patricia Ticineto Clough Contesting Empire Globalizing Dissent Cultural Studies after 9 11 is a landmark text Leading scholars from cultural studies education gender studies and sociology reposition critical cultural studies research around the goals of moral clarity and political intervention Chapters range in focus from neoliberalism and democracy to America s war on kids and the cultural politics of national identity The Covert Sphere Timothy Melley, 2012-11-15 In December 2010 the U S Embassy in Kabul acknowledged that it was providing major funding for thirteen episodes of Eagle Four a new Afghani television melodrama based loosely on the blockbuster U S series 24 According to an embassy spokesperson Eagle Four was part of a strategy aimed at transforming public suspicion of security forces into something like awed respect Why would a wartime government spend valuable resources on a melodrama of covert operations The answer according to Timothy Melley is not simply that fiction has real political effects but that since the Cold War fiction has become integral to the growth of national security as a concept and a transformation of democracy In The Covert Sphere Melley links this cultural shift to the birth of the national security state in 1947 As the United States developed a vast infrastructure of clandestine organizations it shielded policy from the public sphere and gave rise to a new

cultural imaginary the covert sphere One of the surprising consequences of state secrecy is that citizens must rely substantially on fiction to know or imagine their nation's foreign policy The potent combination of institutional secrecy and public fascination with the secret work of the state was instrumental in fostering the culture of suspicion and uncertainty that has plagued American society ever since and Melley argues that would eventually find its fullest expression in postmodernism The Covert Sphere traces these consequences from the Korean War through the War on Terror examining how a regime of psychological operations and covert action has made the conflation of reality and fiction a central feature of both U S foreign policy and American culture Melley interweaves Cold War history with political theory and original readings of films television dramas and popular entertainments from *The Manchurian Candidate* through *24* as well as influential writing by Margaret Atwood Robert Coover Don DeLillo Joan Didion E L Doctorow Michael Herr Denis Johnson Norman Mailer Tim O'Brien and many others
