space telescopes to merely take photo images of the universe then who's imagination is responsible for the reality those photo images represent As we peer through this doorway to the heavens and look upon these heavenly cosmic bodies we find ourselves awed by their grandeur The pressing question becomes too large to ignore Who is responsible for all these things Could it be that we are now peering into the mind of a supreme architect with an imagination far beyond that of mere mortals Could we be peering into the mind of imagination supreme Could it be that we have been brought to this point in history unbeknownst to ourselves and given this technology by the one who extended that ancient invitation recorded by Isaiah 2700 years ago
