Casid, 2015-01-01 Theorizing vision and power at the intersections of the histories of psychoanalysis media scientific method and colonization Scenes of Projection poaches the prized instruments at the heart of the so called scientific revolution the

projecting telescope camera obscura magic lantern solar microscope and prism From the beginnings of what is retrospectively enshrined as the origins of the Enlightenment and in the wake of colonization the scene of projection has functioned as a contraption for creating a fantasy subject of discarnate vision for the exercise of reason Jill H Casid demonstrates across a range of sites that the scene of projection is neither a static diagram of power nor a fixed architecture but rather a pedagogical setup that operates as an influencing machine of persistent training Thinking with queer and feminist art projects that take up old devices for casting an image to reorient this apparatus of power that produces its subject Scenes of Projection offers a set of theses on the possibilities for felt embodiment out of the damaged and difficult pasts that haunt our present **Vermeer's Family Secrets** Benjamin Binstock, 2013-03-07 Johannes Vermeer one of the greatest Dutch painters and for some the single greatest painter of all produced a remarkably small corpus of work In Vermeer's Family Secrets Benjamin Binstock revolutionizes how we think about Vermeer's work and life Vermeer The Sphinx of Delft is famously a mystery in art despite the common claim that little is known of his biography there is actually an abundance of fascinating information about Vermeer's life that Binstock brings to bear on Vermeer's art for the first time he also offers new interpretations of several key documents pertaining to Vermeer that have been misunderstood Lavishly illustrated with more than 180 black and white images and more than sixty color plates the book also includes a remarkable color two page spread that presents the entirety of Vermeer's oeuvre arranged in chronological order in 1 20 scale demonstrating his gradual formal and conceptual development No book on Vermeer has ever done this kind of visual comparison of his complete output Like Poe s purloined letter Vermeer s secrets are sometimes out in the open where everyone can see them Benjamin Binstock shows us where to look Piecing together evidence the tools of art history and his own intuitive skills he gives us for the first time a history of Vermeer's work in light of Vermeer's life On almost every page of Vermeer's Family Secrets there is a perception or an adjustment that rethinks what we know about Vermeer his oeuvre Dutch painting and Western Art Perhaps the most arresting revelation of Vermeer's Family Secrets is the final one in response to inconsistencies in technique materials and artistic level Binstock posits that several of the paintings accepted as canonical works by Vermeer are in fact not by Vermeer at all but by his eldest daughter Maria How he argues this is one of the book s many pleasures **Locust Gleanings** W.
