## **Secularism And The Arab World:**

*Secularism and the Arab World* Nāzik Sābā Yārid, 2002 This illustrates how writers both Christian and Muslim took a secular stand not only in their writings on the nature of government nationalism and the socio economic system but also when addressing issues such as morality and religion in relation to society education women s rights language and literature science and freedom of thought and expression BOOK JACKET *Secularism in the Arab World* al-Azmeh Aziz al-Azmeh, 2020-03-18 This book is a translation of Aziz al Azmeh s seminal work *Al Ilmaniya min mandhur mukhtalif* that was first published in Beirut in 1992 Both celebrated and criticised for its reflections on Arab secularisation and secularism in the modern history of the Arab World it is the only study to date to approach its subject as a set of historical changes which affected the regulation of the social political and cultural order and which permeated the concrete workings of society rather than as an ideological discussion framed from the outset by the assumed opposition between Islam and secularism The author takes a comprehensive analytical perspective to show that an almost imperceptible yet real multi faceted and objective secularising process has been underway in the Arab world since the 1850s The early onset was the result of adapting to systemic novelties introduced at the time and a reaction to the perceived European advance and local retardation The need for meaningful reform and the actions taken in order to put in place a new organisation of state and society based on modern organisational and educational criteria rather than older religious traditions stemmed from the perceived weakness of Arab polities and from an internal drive to overcome this situation The book follows these themes into the close of the 20th century marked with the rise of Islamism A preface to the English translation takes a retrospective look at the theme from the vantage point of social political and intellectual issues of relevance today *Secularism in the Arab World* Aziz al-Azmeh, 2020-03-18 This book is a translation of Aziz al Azmeh s seminal work *Al Ilmaniya min mandhur mukhtalif* that was first published in Beirut in 1992 Both celebrated and criticised for its reflections on Arab secularisation and secularism in the modern history of the Arab World it is the only study to date to approach its subject as a set of historical changes which affected the regulation of the social political and cultural order and which permeated the concrete workings of society rather than as an ideological discussion framed from the outset by the assumed opposition between Islam and secularism The author takes a comprehensive analytical perspective to show that an almost imperceptible yet real multi faceted and objective secularising process has been underway in the Arab world since the 1850s The early onset was the result of adapting to systemic novelties introduced at the time and a reaction to the perceived European advance and local retardation The need for meaningful reform and the actions taken in order to put in place a new organisation of state and society based on modern organisational and educational criteria rather than older religious traditions stemmed from the perceived weakness of Arab polities and from an internal drive to overcome this situation The book follows these themes into the close of the 20th century marked with the rise of Islamism A preface to the English translation takes a retrospective look at the

theme from the vantage point of social political and intellectual issues of relevance today

### **Narratives of Arab Secularism**

Youssef M. Choueiri, 2022-11-16 This book offers a new interpretation of the rich narratives of Arab secularism contending that secularism as a set of ideas and a social movement is destined to loom large on the political and legal horizon of most Arab states Youssef M Choueiri provides a study of three moments in the development of secularism in the Arab World the Machiavellian the Alfierian and the Gramscian It is within such a scope that secularism in its interaction with state building projects women s emancipation and religion is treated as an intellectual current and a discursive entity embedded in the political process of its diverse societies Through the chapters Choueiri demonstrates how secularism occupies a pivotal presence in the religious and political life of the Arab world exploring such interrelated configurations as indigenous contributions diverse reforms and the impact of Western states He concludes that secularism has become a moral prerequisite and a required vehicle in creating the necessary conditions for the success of democracy in the Middle East Narratives of Arab Secularism tackles the complexity and contemporary ramifications of the subject in a way that no previous single study has been able to It will be relevant to both students and academics dealing with topics related to the Middle East including religion politics anthropology and history Chapter 6 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
