The Regenerators, 2nd Edition Ramsay Cook, 2016-01-01 A crisis of faith confronted many Canadian Protestants in the late nineteenth century With their religious beliefs challenged by the new biological sciences and historical criticism of the Bible they turned from personal salvation to the dire social problems of the industrial age The Regenerators explores the nature of social criticism in this era and its complex ties to the religious thinking of the day showing how the path blazed by nineteenth century religious liberals led not to the Kingdom of God on earth but ironically to the secular city The winner of the Governor General's Literary Award for Non Fiction when it was first published in 1985 The Regenerators became an instant classic for its fascinating portraits of evolutionists rationalists spiritualists socialists and free thinkers before the turn of the century This new edition features an introduction by historian and biographer Donald Wright

*Religion and Mass Electoral Behaviour in Europe* David Broughton, Hans-Martien ten Napel, 2000-12-14 An innovative cutting edge study this book focuses on the question of whether and how religion continues to influence and shape electoral behaviour across Europe

*Modernizing England's Past* Michael Bentley, 2006-01-12 What came before postmodernism in historical studies By thinking through the assumptions methods and cast of mind of English historians writing between about 1870 and 1970 this book reveals the intellectual world of the modernists and offers a full analysis of English historiography in this crucial period Modernist historiography set itself the objective of going beyond the colourful narratives of whigs and popularizers in order to establish history as the queen of the humanities and as a rival to the sciences as a vehicle of knowledge Professor Bentley does not follow those who deride modernism as positivist or empiricist but instead shows how it set in train brilliant new styles of investigation that transformed how historians understood the English past But he shows how these strengths were eventually outweighed by inherent confusions and misapprehensions that threatened to kill the very subject that the modernists had intended to sustain

**Secular Steeples 2nd Edition** Conrad Ostwalt, 2012-11-29 The Scandinavian Nordic countries of Denmark Norway Sweden and Finland experienced the effects of the German invasion in April 1940 in very different ways Collaboration resistance and co

belligerency were only some of the short term consequences Each country s historiography has undergone enormous changes in the seventy years since the invasion and this collection by leading historians examines the immediate effects of Hitler s aggression as well as the long term legacies for each country s self image and national identity The Scandinavian countries war experience fundamentally changed how each nation functioned in the post war world by altering political structures the dynamics of their societies the inter relationships between the countries and the popular view of the wartime political and social responses to totalitarian threats Hitler was no respecter of the rights of the Scandinavian nations but he and his associates dealt surprisingly differently with each of them In the post war period this has caused problems of interpretation for political and cultural historians alike Drawing on the latest research this volume will be a welcome addition to the comparative histories of Scandinavia and the Second World War *Karl Barth: Post-Holocaust Theologian?* George Hunsinger,2018-02-22 Karl Barth s attitude toward the Jews despite some admittedly unfortunate elements still has much to commend it and the essays in this volume discuss this matter The contributors examine numerous topics the extent to which Barth compares favorably with recent post Holocaust theologies Barth s position on the Jews during the Third Reich his critique of the German Christian V lkish church on ethical grounds The discussion tackles Barth dialectical Yes to Israel s christological No it unpacks his ground breaking exegesis of Rom 9 11 as well as examines Barth s rejection of the 1933 Aryan Law that formed the basis for excluding baptized Jews from Christian communities during the Third Reich The essays also examine Barth s later worries about Nostra Aetate Vatican II s landmark Declaration on the Relation of the Church to Non christian Religions This is followed by an in depth explanation how Barth s theology differentiated the question of religious pluralism from church s relationship with Judaism This inspiring volume concludes by taking up the neglected question of Barth s place in modern European history TYPOS Leonhard Goppelt,2002-10-17 **Secularism in the Arab World** al-Azmeh Aziz al-Azmeh,2020-03-18 This book is a translation of Aziz al Azmeh s seminal work *Al Ilmaniya min mandhur mukhtalif* that was first published in Beirut in 1992 Both celebrated and criticised for its reflections on Arab secularisation and secularism in the modern history of the Arab World it is the only study to date to approach its subject as a set of historical changes which affected the regulation of the social political and cultural order and which permeated the concrete workings of society rather than as an ideological discussion framed from the outset by the assumed opposition between Islam and secularism The author takes a comprehensive analytical perspective to show that an almost imperceptible yet real multi faceted and objective secularising process has been underway in the Arab world since the 1850s The early onset was the result of adapting to systemic novelties introduced at the time and a reaction to the perceived European advance and local retardation The need for meaningful reform and the actions taken in order to put in place a new organisation of state and society based on modern organisational and educational criteria rather than older religious traditions stemmed from the perceived weakness of Arab polities and from an internal drive to overcome this situation The

book follows these themes into the close of the 20th century marked with the rise of Islamism A preface to the English translation takes a retrospective look at the theme from the vantage point of social political and intellectual issues of relevance today

**Contesting Cultural Authority** Frank M. Turner,1993-04-08 A volume of essays which constitutes a major overview of the Victorian intellectual enterprise

**Punishing the Dead?** R. A. Houston,2010-08-05 A strikingly original work that shows how treatments of and attitudes towards suicide can illuminate our understanding of the social political and cultural history of early modern Britain

Protestant Theology and the Making of the Modern German University Thomas Albert Howard,2006-02-23 In shaping the modern academy and in setting the agenda of modern Christian theology few institutions have been as influential as the German universities of the nineteenth century This book examines the rise of the modern German university from the standpoint of the Protestant theological faculty focusing especially on the University of Berlin 1810 Prussia s flagship university in the nineteenth century In contradistinction to historians of modern higher education who often overlook theology and to theologians who are frequently inattentive to the social and institutional contexts of religious thought Thomas Albert Howard argues that modern university development and the trajectory of modern Protestant theology in Germany should be understood as interrelated phenomena

**A World History of Christianity** Adrian Hastings,2000-07-05 This superb volume provides the first genuinely global one volume history of the rise and development of the Christian faith An international team of specialists takes seriously the geographical diversity of the Christian story discussing the impact of Christianity not only in the West but also in Latin America Africa India the Orient and Australasia

*Christianity and 'the World'* David Martin,2021-01-01 David Martin was one of the world s leading commentators on secularization theory He was also a committed and lifelong reader of English poetry Christianity and The World develops Martin s argument against simplistic secularization narratives with reference to the history of poetry a topic with which few social theorists have been concerned Martin shows the enduring but ever changing centrality of Christian thought and practice in its many different forms to English poetry Always mindful that the most important aspects of poetry s history can be captured only by attending to the minutest particulars of individual poems and poets Martin s study sheds unexpected light on a wide range of English poets from Spenser and Shakespeare to T S Eliot and Geoffrey Hill The result is a study at once informed by an authoritative sociological perspective on secularization and richly coloured by the singular intensity of Martin s own reading life

Modern Biblical Criticism as a Tool of Statecraft (1700-1900) Scott Hahn,Jeffrey L. Morrow,2020-04-27 Modern biblical scholarship is often presented as analogous to the hard and natural sciences its histories present the developmental stages as quasi scientific discoveries That image of Bible scholars as neutral scientists in pursuit of truth has persisted for too long Modern Biblical Criticism as a Tool of Statecraft 1700 1900 by Scott W Hahn and Jeffrey L Morrow examines the lesser known history of the development of modern biblical scholarship in the eighteenth and nineteenth centuries This volume seeks partially to fulfill Pope Benedict XVI s request for a thorough critique of modern

biblical criticism by exploring the eighteenth and nineteenth century roots of modern biblical scholarship situating those scholarly developments in their historical philosophical theological and political contexts Picking up where Scott W Hahn and Benjamin Wiker's Politicizing the Bible The Roots of Historical Criticism and the Secularization of Scripture 1300 1700 left off Hahn and Morrow show how biblical scholarship continued along a secularizing trajectory as it found a home in the newly developing Enlightenment universities where it received government funding Modern Biblical Criticism as a Tool of Statecraft 1700 1900 makes clear why the discipline of modern biblical studies is often so hostile to religious and faith commitments today
