Greek-Turkish Relations Mustafa Aydın,Kostas Ifantis,2025-06-27 This book provides an overview of the complex and turbulent relations between Greece and Turkey focusing on recent developments and the challenges in their bilateral relationship It draws on a comprehensive array of international relations theories to suggest that sources of instability in the Aegean are found in security relations identity and cultural discourses and patriarchal and class societal structures The chapters reflect on several questions about the role and significance of constitutive and non constitutive elements in the

Greek Turkish policy and social arenas They offer a better understanding of the bilateral interaction and why the Greek Turkish relationship continue to hold the potential for traditional geopolitical antagonism and conflict as well as why it is so hard to escape a security culture of hopelessly unresolved problems enduring security dilemmas crisis prone geopolitics The chapters in this book discuss the historical context including attempts at reconciliation and examine the role of perceptions geopolitics and historical grievances in shaping the current situation The book emphasizes the cyclical nature of relations with periods of calm followed by tensions and crises It highlights the need for a comprehensive approach to resolve the existing disputes including the importance of confidence building measures and a political settlement Overall the book underlines the complexity of Greek Turkish relations and the challenges in achieving lasting peace and stability in the region This book is aimed at scholars policymakers and students in the fields of international relations political science and security studies The chapters in this book except for Chapter 8 were published as a special issue of Journal of Balkan and Near Eastern Studies Chapter 8 was originally published in Southeast European and Black Sea Studies **Euro-Mediterranean Security: A Search for Partnership** Sven Biscop,2017-11-22 This title was first published in 2003 This work provides a clearer understanding of the EU s approach towards security in the Mediterranean After examining the EU s interests and the potential threats to security in the region it analyzes EU security policy towards the region as a whole through the Euro Mediterranean Partnership and towards all disputes and conflicts in the area It recommends opening up the European Security and Defence Policy to Mediterranean participation in order to establish a deep and equitable security partnership between both shores The book argues that this way the EU could implement its innovative comprehensive and co operative approach to security Rather than focusing on the military aspect alone this approach takes into account all dimensions of security political socio economic cultural and ecological and is based on partnership rather than confrontation It therefore contrasts quite sharply with the policies advocated in the US National Security Strategy **Deciphering the Eastern Mediterranean's Hydrocarbon Dynamics** Bahrooz Jaafar Jabbar,2024-09-25 This comprehensive study delves into the strategic importance of the Mediterranean Sea and examines key conflicts as well as the roles of extra regional actors such as NATO Russia and the USA in shaping dynamics within the Eastern Mediterranean **The Cyprus Review** ,1997

Turkey's Rise as an Emerging Power Paul Kubicek,Emel Parlar Dal,H. Tarik Oğuzlu,2016-04-14 Turkey is emerging as an important actor in world politics exerting growing influence both in its immediate region and beyond This book aims to understand and explain this phenomenon utilizing a variety of perspectives from international relations theory One prominent issue is how Turkey long embedded in the West via NATO and other European organizations is growing more confident and is asserting more independent foreign policy positions This is particularly marked in the Middle East where some suggest Turkey is pursuing a neo Ottomanist agenda At times this competes with and creates tensions with the West However a rising Turkey can also be a constructive phenomenon and complement the West This book examines geopolitical

economic and cultural dimensions of Turkey's rise pointing to both Turkish success and the limits of Turkish power and influence. It includes consideration of Turkey's relations with NATO, the European Union, the Middle East, and BRIC countries. This book was published as a special issue of *Turkish Studies*. **Ethnofederalism in Cyprus** Pavlos I. Koktsidis, 2024-08-01. This book develops a holistic understanding of the intrinsic security concerns which lie at the heart of the protracted conflict in Cyprus. This work offers a well-grounded account of intractability in Cyprus by unfolding the rationale and prevalence of competitive approaches held by Greek and Turkish Cypriots alike. The analysis explains how crude security interests give birth to an existentialist security dilemma that has so far prevented Greek and Turkish Cypriots and their security guarantors from reaching a durable settlement. This book contains a systematic critique of the breadth and depth of the major security concerns embedded in the proposed federal bi-zonal framework for Cyprus, uncovering the impetus and rationale of the underlying insecurities that prompt the Greek and Turkish sides to compete on a series of state-building aspects including the opposing understandings of self-determination and sovereignty, the competitive underpinnings of federal institutional design, and the problematic role of third-party involvement. This book ultimately unravels a deeper and more pragmatic understanding of how competitive security considerations and geopolitical considerations link up to ethno-federal design in post-conflict environments. This book will be of much interest to students of conflict studies, federalism studies, state-building, European politics, and International Relations. *Human Security in the Middle East and North Africa* Alaa Al-Din Arafat, 2024-12-20. This book analyzes major human security threats in the MENA region, including food, water, energy, climate, and health security. It also examines sectarian conflict, terrorism, and poverty in the region. The author highlights the relationship between human security concerns and conventional or military security threats. He demonstrates how MENA nations failed to respond to the region's human security threats and to develop a human security formula and regional security architecture that included both human and conventional security threats. Therefore, this book concludes that the MENA region's future will be determined by its governments' ability to address human security threats.
