The volume discusses major media depictions of childhood and examines the ways in which parents use different forms of media to swaddle educate and entertain their children Zornado argues that the stories we tell our children contain the ideologies of the dominant culture which more often than not promote happiness at all costs materialism as the way to happiness and above all obedience to the dominant order Seduction, Suggestion, Psychoanalysis Philippe van Haute, Jozef Corveleyn, 2001 This book makes clear that the problem of seduction and suggestion raises major psychoanalytic and more generally philosophical problems that are still of great importance for the self understanding of contemporary humankind
