Seeing in the Dark Timothy Ferris, 2012-12-18 In *Seeing in the Dark* a poetic love letter to science and to the skies Timothy Ferris invites us all to become stargazers He recounts his own experiences as an enthralled lifelong amateur astronomer and reports from around the globe from England and Italy to the Florida Keys and the Chilean Andes on the revolution that's putting millions in touch with the night sky In addition Ferris offers an authoritative and engaging report on what's out there to be seen what Saturn the Ring nebula the Silver Coin galaxy and the Virgo supercluster really are and how to find them The appendix includes star charts observing lists and a guide on how to get involved in astronomy Ferris takes us inside a major revolution sweeping astronomy as lone amateur astronomers in global networks linked by the Internet make important discoveries that are the envy of the professionals His ability to describe the wonders of the universe is simply magical and his enthusiasm for his subject is irresistible *Seeing in the Dark* Timothy Ferris, 2009-07-01 Ferris elaborates on the renaissance of amateur astronomy Library Journal *A Companion to the History of Science* Bernard Lightman, 2019-11-12 The Wiley Blackwell Companion to the History of Science is a single volume companion that discusses the history of science as it is done today providing a survey of the debates and issues that dominate current scholarly discussion with contributions from leading international scholars Provides a single volume overview of current scholarship in the history of science edited by one of the leading figures in the field Features forty essays by leading international scholars providing an overview of the key debates and developments in the history of science Reflects the shift towards deeper historical contextualization within the field Helps communicate and integrate perspectives from the history of science with other areas of historical inquiry Includes discussion of non Western themes which are integrated throughout the chapters Divided into four sections based on key analytic categories that reflect new approaches in the field *Governing Knowledge Commons* Brett M. Frischmann, Michael J. Madison, Katherine Jo Strandburg, 2014 Knowledge commons describes the institutionalized community governance of the sharing and in some cases creation of information science knowledge data and other types of intellectual and cultural resources It is the subject of enormous recent interest and enthusiasm with respect to policymaking about innovation creative production and intellectual property Taking that enthusiasm as its starting point *Governing Knowledge Commons* argues that policymaking should be based on evidence and a deeper understanding of what makes commons institutions work It offers a systematic way to study knowledge commons borrowing and building on Elinor Ostrom's Nobel Prize winning research on natural resource commons It proposes a framework for studying knowledge commons that is adapted to the unique attributes of knowledge and information describing the framework in detail and explaining how to put it into context both with respect to commons research and with respect to innovation and information policy Eleven detailed case studies apply and discuss the framework exploring knowledge commons across a wide variety of scientific and cultural domains Piloting Through Chaos - The Explorer's Mind Julian Gresser, 2013-07 Piloting Through

Chaos The Explorer s Mind presents two books in one giving readers a fresh way to learn about and navigate the world Book I introduces the principle of integrity Integrity is a basic connecting principle of the universe It can explain what holds things together and why they fall apart Piloting Through Chaos teaches how to apply this principle practically in a new and effective system of negotiation Book II will appeal to adventurers and explorers of both the external and inner worlds The Explorer s Mind guides us through 8 interconnected realms the Past Wisdom Beauty Life Force Discovery Invention Innovation Philanthropy the Networked Brain and the Future The intertidal zones where these realms interpenetrate open a treasure trove of creativity and innovation Taken together Books I and II provide readers with a road map to a more abundant life and offer a guide on the journey

*The New Political Sociology of Science* Scott Frickel,Kelly Moore,2006-03-01 In the twenty first century the production and use of scientific knowledge is more regulated commercialized and participatory than at any other time The stakes in understanding those changes are high for scientist and nonscientist alike they challenge traditional ideas of intellectual work and property and have the potential to remake legal and professional boundaries and transform the practice of research A critical examination of the structures of power and inequality these changes hinge upon this book explores the implications for human health democratic society and the environment

Law's Environment John Copeland Nagle,2010-05-25 John Copeland Nagle shows how our reliance on environmental law affects the natural environment through an examination of five diverse places in the American landscape Alaska s Adak Island the Susquehanna River Colton in California s Inland Empire Theodore Roosevelt National Park in the badlands of North Dakota and Alamogordo in New Mexico Nagle asks why some places are preserved by the law while others are not and he finds that environmental laws often have unexpected results while other laws have surprising effects on the environment Nagle argues that sound environmental policy requires better coordination among the many laws regulations and social norms that determine the values and uses of our scarce lands and waters
