**Seeing Law Differently** Alan Reid, 1992      Telling the Truth John S. McClure, Nancy Jean Ramsay, 1998 Every congregation in North America has victims survivors and perpetrators of violence in its midst Many in the church while supporting marital and family connections do not know how to address abuse Many ministers are searching for theological and ethical perspectives with which to frame an effective pulpit teaching and pastoral ministry Telling the Truth assembles the wisdom of experts from across disciplines and denominations Biblical and theological issues are analyzed by Johanna Van Wijk Bos Shawn Copeland and Wendy Farley Pastoral resources are presented by Marie M Fortune James Poling Nancy Ramsay and David Goatley Preaching strategies are discussed by Barbara Patterson and John S McClure Four sermons are also included to provide effective models for ministering against sexual and domestic violence      **Getting to Resolution** Stewart Levine, 2009-11-09 Our current models for ending conflict don't really work They waste incredible amounts of time money and energy and take an enormous emotional toll on participants The parties remain embittered relationships are destroyed and often the conflict just reappears later in a different form In this second edition of his classic book Stewart Levine offers a revolutionary alternative approach that goes beyond compromise and capitulation to provide a satisfactory resolution for everyone involved Marriages run amuck neighbors at odds with one another business deals gone sour and the pain and anger caused by corporate downsizing are just a few of the conflicts he addresses The new edition has been thoroughly revised with new examples new tools new material about building trust and virtual collaboration as well as a more global outlook Levine rejects the adversarial legal model If both sides are unhappy you probably have a good settlement Resolution he shows provides relief and completeness for both sides No one goes away unhappy Effective resolution stops anger and resentment cold drastically cutting the emotional cost and allowing both sides to return to productive satisfying functional relationships Getting to Resolution outlines the ten principles underlying this new approach what Levine calls resolutionary thinking Levine provides a detailed seven step process for using this new mindset to resolve conflicts in a way that fosters dignity and integrity optimizes resources and allows all concerns to be voiced honored and woven into the resolution Levine's model has a thirty five year track record It has been developed implemented tested and proven in business personal and governmental contexts Getting to Resolution will enable readers to shift from thinking about problems fighting and breakdowns to thinking about collaboration engagement learning creativity and the opportunity for creating enduring value      **Journal of the Professional Lawyer**, 2008      **Another Way of Seeing** Peter Gabel, 2013-10-11 In ANOTHER WAY OF SEEING Peter Gabel argues that our most fundamental spiritual need as human beings is the desire for authentic mutual recognition Because we live in a world in which this desire is systematically denied due to the legacy of fear of the other that has been passed on from generation to generation we exist as what he calls withdrawn selves perceiving the other as a threat rather than as the source of our completion as social beings Calling for a new kind of spiritual activism that

speaks to this universal interpersonal longing Gabel shows how we can transform law politics public policy and culture so as to build a new social movement through which we become more fully present to each other creating a new parallel universe existing alongside our socially separated world and reaffirming the social bond that inherently unites us Peter Gabel is one of the grand prophetic voices in our day He also is a long distance runner in the struggle for justice Don't miss this book Cornel West The Class of 1943 Professor Princeton University and Professor of Philosophy and Christian Practice Union Theological Seminary Replete with wise insights that reward readers with Another Way of Seeing toward their pursuit of compassion community and a better world law professor activist and philosopher Peter Gabel's excellent essay collection elaborates upon the meaning of Martin Luther King Jr's expression Justice is love correcting that which revolts against love No matter what your expertise Gabel's thoughts are pertinent to fulfillment of your human possibilities Ralph Nader Washington DC

**Augustine and the Jews** Paula Fredriksen, 2010-10-12 Now in paperback with a new postscript this updated edition of Paula Fredriksen's critically acclaimed Augustine and the Jews traces the social and intellectual forces that led to the development of Christian anti-Judaism and shows how and why Augustine challenged this tradition Drawing us into the life times and thought of Augustine of Hippo 396-430 Fredriksen focuses on the period of astounding creativity that led to his new understanding of Paul and to his great classic The Confessions She shows how Augustine's struggle to read the Bible led him to a new theological vision one that countered the anti-Judaism not only of his Manichaean opponents but also of his own church The Christian Empire Augustine held was right to ban paganism and to coerce heretics But the source of ancient Jewish scripture and current Jewish practice he argued was the very same as that of the New Testament and of the church namely God himself Accordingly he urged Jews were to be left alone Conceived as a vividly original way to defend Christian ideas about Jesus and about the Old Testament Augustine's theological innovation survived the collapse of the Western Roman Empire and it ultimately served to protect Jewish lives against the brutality of medieval crusades Augustine and the Jews sheds new light on the origins of Christian anti-Semitism and through Augustine opens a path toward better understanding between two of the world's great religions

*Compassionate A.I.* Jean-Luc Mommaerts,2020-03-06 It may take a few more decades but soon enough A I will turn into super A I This is an artificial intelligence which in all areas of what is now seen as human intelligence approaches this then surpasses it After that it will keep growing exponentially In the meantime at relatively short notice humanity will encounter a challenging A I bi bottleneck 1 humans possibly misusing A I in a big way and 2 A I spiraling into many directions of which any unfortunate one may be enough for disaster Will we control A I or will A I dominate us Let s hope this is the wrong question Because if it s the right question and given enough time there is no shred of a doubt about the answer Still of course we need to give it our best shot not to be dominated by an evil force We should strive for control At the same time transcending the question opens up the domain of Compassion This gradually makes thinking in terms of control and domination in human A I interactions obsolete We will together strive for a better world within an alignment of our values But what are the real human values There are cultural and individual differences Moreover what seem to be anyone s values may be a superficial layer above deeper values which are not necessarily congruent with conscious awareness So the human A I value alignment question will be how to align what I write in *The Journey* about Compassion as the striving to approach these values in their deeper sense They can subsequently be realized for each individual in two directions relief of deep suffering and enhancement of inner growth Both notions are to be clarified at the individual level Compassionate A I is the striving towards an A I that can help us to know and to realize ourselves in depth The beauty is that this way human A I value alignment and further development of A I can intrinsically go hand in hand Lisa is a software coaching chat bot that is being developed specifically with this goal helping humans and A I in Compassionate ways to become healthier stronger and more

effectively Compassionate towards near ones as well as all sentient beings In this book super A I is the future kind of A I that may be able but not necessarily to act Compassionately We don t have to wait for that for Compassionate A I to become important Already humans can use A I more or less Compassionately From what point is it relevant as a characteristic of the A I system itself regardless of how humans use the A I There is no steep border Long before super A I the first systems in which it becomes more pertinent are those in which Compassion is part of the purpose That is systems that in communication with users are meant to give an effectively Compassionate experience To understand where Compassionate A I may be heading towards we need to understand Compassion This leads us on a journey starting on the one hand from data and on the other hand from drive to thrive life itself On this journey we encounter many insights about intelligence consciousness drive to thrive non conscious processing The end of the journey lies in full Compassion Hopefully this is the future for A I as well as humanity
