Decoding Iran's Foreign Policy Ross Harrison, 2025-06-05 Since the 1979 revolution Iranian leaders have persisted in advancing a foreign policy aimed at achieving regional prominence and in particular rebuffing U.S. efforts to limit Iran's influence But how are foreign policy decisions made in light of the country's tumultuous history How do the challenges posed by regional and global actors impact Iranian decision making And how can we expect Iran to behave in the future This book uses a strategic lens to explain how Iran conducts its current foreign policy and to unpack the dilemmas and strategic quandaries facing the Islamic Republic today Ross Harrison argues that to understand Iranian behavior it is essential to look at it from the perspective of Iran's strategic interests namely its capabilities how Iran interprets the region the international community and itself and the state's conception of time and territory in its foreign policy calculations Iranian foreign policy in searching for a winning strategy for power and influence is revealed to evince ideological strains but also realpolitik considerations based on current interpretations of the national interest These different

strains in Iran's foreign policy represent the complexity of the challenges and opportunities the state faces. They also help us to understand the present and future of Iranian foreign policy behavior.

Mission in Context: In Search of Asian Strategic Communication of the Gospel Thang Deih Lian Davidlianno, 2018-05-09 There is a profusion of missional issues emerging in the Asian fields that call Christ's followers to actively witnessing the Truth. Missionaries from different continents have come to serve the Asian nations and yet these God's loving missionaries effectiveness often seem to have left in the shade by some damaging fruits and sometimes being too much of Westernness stemming from a diversity of lacking knowledge particularly the local contexts to contextualize and lack of preparation. The irrefutable finding is appealing within the Asian mission study in regard to the essentiality in equipping the Christians so that the ministries in Asia will experience the effectiveness in cultivating the diverse contexts cultures with the text Scripture they have. Many principles and practical information from this book grew out of the authors experiences and the reflection of Missiologists and scholars such as Andrew Walls, Christopher Wright, Kazoh Kitamori, Paul Hiebert etc.

Languages, scripts, and Chinese texts in East Asia Peter Francis Kornicki, 2018-01-11 Chinese Writing and the Rise of the Vernacular in East Asia is a wide ranging study of vernacularization in East Asia not only China Japan Korea and Vietnam but also societies that no longer exist such as the Tangut and Khitan empires Peter Kornicki takes the reader from the early centuries of the common era when the Chinese script was the only form of writing and Chinese Buddhist Confucian and medical texts spread throughout East Asia through the centuries when vernacular scripts evolved right up to the end of the nineteenth century when nationalism created new roles for vernacular languages and vernacular scripts Through an examination of oral approaches to Chinese texts it shows how highly valued Chinese texts came to be read through the prism of the vernaculars and ultimately to be translated This long process has some parallels with vernacularization in Europe but a crucial difference is that literary Chinese was unlike Latin not a spoken language As a consequence people who spoke different East Asian vernaculars had no means of communicating in speech but they could communicate silently by means of written conversation in literary Chinese a further consequence is that within each society Chinese texts assumed vernacular garb in classes and lectures Chinese texts were read and declaimed in the vernaculars What happened in the nineteenth century and why are there still so many different scripts in East Asia How and why were Chinese texts dethroned and what replaced them These are some of the questions addressed in Chinese Writing and the Rise of the Vernacular in East Asia
