Seeing The Text Exegesis For Students Of Greek And Hebrew:

Seeing the Text Mary H. Schertz, Perry B. Yoder, 2001 Seeing the Text integrates language study with theories and methods of interpretation The purpose of the book is to help students increase their facility with the biblical languages while at the same time incorporating exegetical and literary skills and methods The book thus not only provides a wider theoretical and methodological horizon for language study but also builds a solid text based foundation for further biblical studies Because it is increasingly the case that seminarians do not have the opportunity to study both Greek and Hebrew examples in both languages are included whenever possible to create a metalinguistic theoretical understanding The book is therefore designed and suitable for both intermediate Hebrew students and intermediate Greek students Finally the book includes suggestions for using the computer to facilitate language learning and exegetical work in order to help students develop the skills necessary to sustain their language skills with the aid of computer software when they are no longer engaged in formal study For further information about author Mary Schertz click here **Biblical Exegesis, Fourth Edition** John H.

Collected Studies on the Septuagint Jan Joosten, 2012 In this volume Jan Joosten brings together seventeen articles published in journals and collective volumes between 1996 and 2008 with one unpublished essay In these essays he deals mainly with questions of language and interpretation in the earliest Greek translation of the Hebrew Bible Many of Jan Joosten's studies take their point of departure in one or the other striking features in the language of the Septuagint propose a theory explaining its peculiarity and go on from there to relate the linguistic phenomenon to wider historical exegetical or theological issues Others deal with problems of method in establishing the historical background of the version its relation to the Hebrew source text and its theology Taken as a whole Jan Joosten offers an original contribution to a number of contemporary debates on the Old Greek version Notably in this book he addresses from various perspectives the questions of who the translators were and what they

Hafemann,2014-11-04 The NIV Application Commentary helps you communicate and apply biblical text effectively in today s context To bring the ancient messages of the Bible into today s world each passage is treated in three sections Original Meaning Concise exegesis to help readers understand the original meaning of the biblical text in its historical literary and cultural context Bridging Contexts A bridge between the world of the Bible and the world of today built by discerning what is timeless in the timely pages of the Bible Contemporary Significance This section identifies comparable situations to those faced in the Bible and explores relevant application of the biblical messages The author alerts the readers of problems they may encounter when seeking to apply the passage and helps them think through the issues involved This unique award winning commentary is the ideal resource for today s preachers teachers and serious students of the Bible giving them the tools ideas and insights they need to communicate God s Word with the same powerful impact it had when it was first written **The Edited Bible** John Van Seters,2006-06-30 There is a generally accepted notion in biblical scholarship that the Bible as we know it today is the product of editing from its earliest stages of composition through to its final definitive and canonical textual form So persistent has been this idea since the rise of critical study in the seventeenth century and so pervasive has it become in all aspects of biblical study that there is virtually no reflection on the validity of this idea from the Introduction Van Seters proceeds to survey the history of the idea of editing from its origins in the pre Hellenistic Greek world through Classical and Medieval times into the modern era He discusses and evaluates the implications of the common acceptance of editing and editors redactors and concludes that this strand of scholarship has led to serious misdirection of research in modern times A Plague of Texts? Bénédicte Lemmelijn,2009-04-07 Prior to any attempt to study a text at the literary level the textual material itself has to be carefully established It is for this reason that the present volume is devoted to a detailed text critical study of the physical text of the Plagues Narrative in Exod 7 14 11 10 In the first chapter the author formulates a number of prolegomena relating to textual criticism as a discipline the extant textual material the terminology employed and the methodological model that serves as the basis of this study In the second chapter data provided by the various textual forms of the Plagues Narrative in Exod 7 14 11 10 namely MT LXX SamP 4QpaleoExodm 4QpaleoGen Exod 2QExoda 4QExodc 4QGen Exoda and 4QExodj are registered and described The extant textual versions themselves are presented in the form of a synopsis added as an appendix to this book The third and final chapter offers the text critical evaluation of all text relevant variants *One or Two Translators?* Bryan Beeckman,2023-12-31 In 1946 Gillis Gerleman proposed a single translator for LXX Proverbs and LXX Job After he launched this hypothesis scholars have either confirmed or debunked this hypothesis Although attempts have been made to

come up with an adequate answer to the question of a single translator for both Proverbs and Job scholars have thus far not reached consensus Moreover the attempts that have been made are not at all elaborate Thus the question remains unsolved This book tries to formulate an answer to the question of a single translator for both Proverbs and Job by examining the translation technique and theology of both books The translation technique of both books is analysed by examining the Greek rendering of Hebrew hapax legomena animal floral plant and herb names The theology is examined by looking at the pluses in the LXX version which contain and The results of these studies are compared with one another in order to formulate an answer to a single translator By doing so this book not only formulates an answer to a single translator for both LXX Proverbs and Job but also characterises their translation technique and theology in greater detail **Annual Register** University of Chicago, 1896
